

Comet Finlay Rediscovered In Aquarius

Washington, (Sci. Serv.)—The comet Finlay, expected to brighten enough this summer to be observed with moderate size telescopes, has just been rediscovered for the first time since its disappearance in 1954.

This comet was rediscovered by Robert Burnham, the discoverer of several comets that bear his name. The Finley comet appears only every seven years.

It was originally discovered in 1886. Since then it has been observed in 1893, 1906, 1919, 1926, and 1933-54. It was not seen in 1933, 1940 and 1947.

The comet is now in the constellation of Aquarius in the morning sky. However, it is of 17th magnitude and only a photographic object.

It is expected to brighten to 10th magnitude by August. By that time it will be in the constellation Taurus and should be bright enough to be seen with a moderate-sized, amateur telescope, 17th magnitude.

Discoveries of a new comet and a supernova have also been reported by Humanson. The comet is of 17th magnitude. It is not known if it will brighten. It is located in the constellation of Hercules.

The supernova was of 14th magnitude when discovered. A nova is a star that suddenly increases in brightness and then dims down again. A supernova is about 100 times as bright as a nova.

News of the comet Finlay, discovered at 1:02 a.m. (PST) June 21, and the comet and supernova, discovered respectively on June 18 and 17, was reported to Harvard College Observatory, clearing house for astronomical information in the Western Hemisphere.

Scientists Fight Fire With Fire In Cancer Battle

New York, (Science Service)—The latest strategy in the war against cancer is to play the deadly game according to the enemy's rules—and beat him at it.

A report released here by the Sloan-Kettering Institute for Cancer Research reveals that deoxyribonucleic acid (DNA), the heredity-carrying chemical of some viruses, has been isolated from a cancer-inducing virus and has led to cancers in laboratory animals. Many scientists believe the DNA of the virus, not content to control only its own heredity factors, either alters or supplements the DNA in body cells.

May Trigger Change
This change in cellular DNA may trigger the change from normal to cancer. In fact, leukemic blood cells are distinguished from normal white blood cells by characteristic differences in the DNA.

Putting together the newest pieces of information gathered by its own and other research groups, Sloan-Kettering's report indicates that if the cancer DNA can influence normal DNA it may be possible to turn the tables and chemically influence or destroy the cancer DNA.

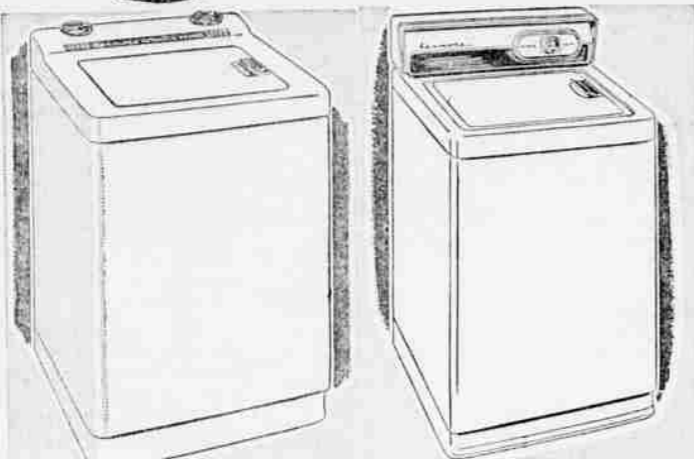

Some of the chemical agents used against cancer appear to do just that—interfere with the cancer cell's manufacture of nucleic acid. Different chemicals may inhibit nucleic acid synthesis at different points in its manufacture.

Mechanism Pinpointed
The Institute also reports that the mechanism by which cancer cells become resistant to chemical treatment by developing new routes of nucleic acid synthesis has now been pinpointed in several instances. But this re-routing problem remains one of the major stumbling blocks in treating the disease with medical agents.

Boy Loses Means Of Earning Nickels
San Antonio, Tex. — Mrs. Peter Kohler told her son, Billy, 7, she would give him a nickel for every school paper he brought home marked 100.
For two weeks, Billy brought home quite a few 100s. Then Billy returned one day quite depressed.
"I can't get any more 100s," he said. "I lost the red pencil that grandma gave me."

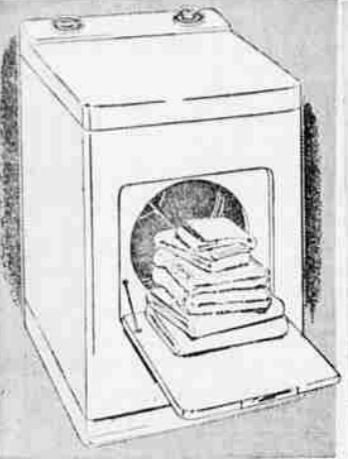

HOW MUCH DO YOU WANT TO PAY?

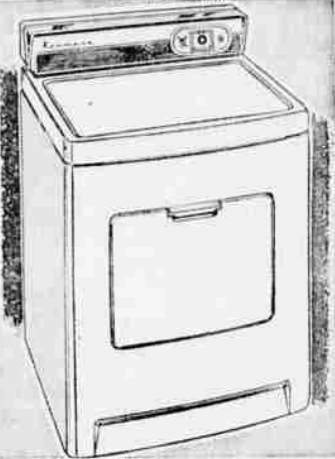

Our Lowest Priced Big 9-lb. Cap. Kenmore WASHER \$98
Kenmore washes and spin-dries . . . rinses and spin-dries with each setting of the dial, yet has washability of an automatic. Porcelain enameled wash tub won't rust ever. 6-vane agitator routs dirt.

Budget Priced Kenmore Automatic WASHER \$118
8-lb. capacity automatic has built-in filter that filters out lint, grit, soap scum during bath wash and rinse, with any load and at any water level. Rust-proof porcelain enamel tub.

REGARDLESS of the Model or Price You Have In Mind SEARS Has The Kenmore For You PRICED LOW!

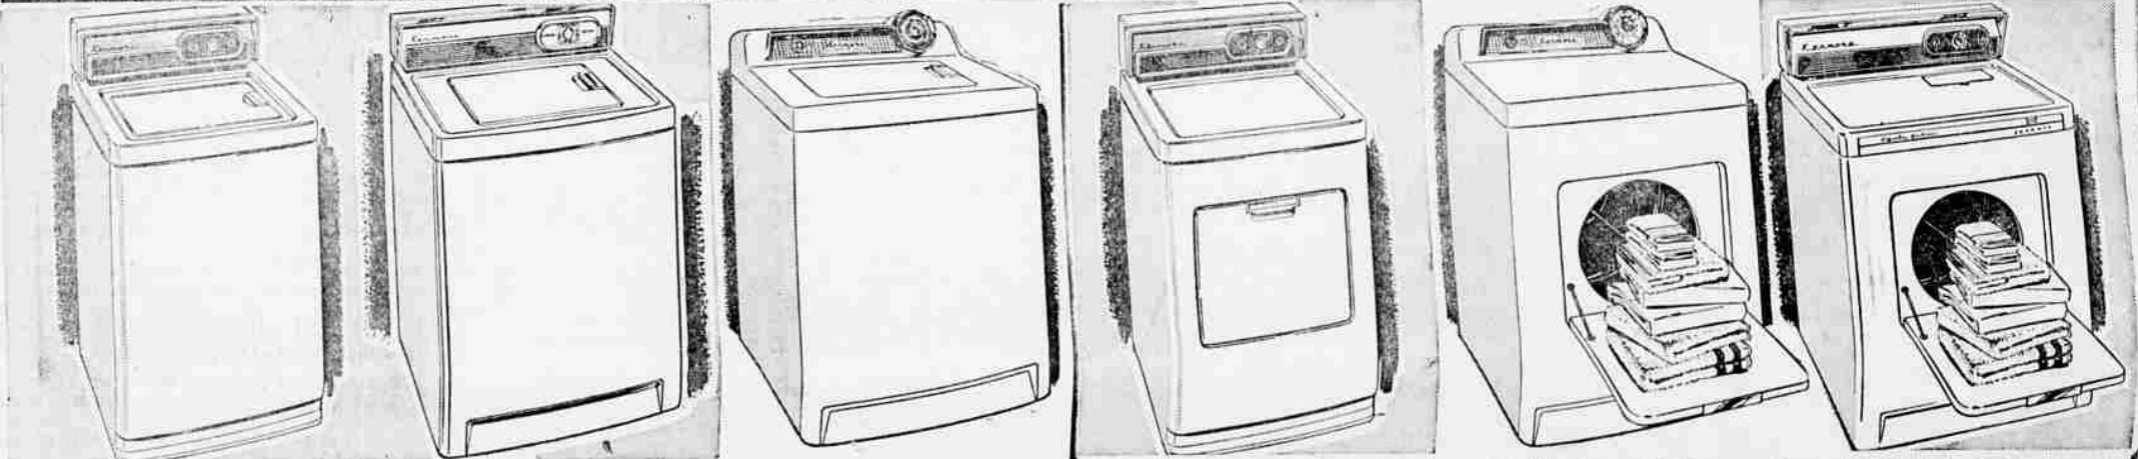

Kenmore Automatic DRYER \$88
Convenient load-a-door safety door switch fixed temperature thermostat. Save at Sears now.

Low Priced Kenmore 10-lb. Load DRYER \$98
Dial air for fluffing feather pillows and woolens or heat for fabric-safe drying. Plus safety shut-off door switch and handy load-a-door.

\$5 DOWN DELIVERS ON PURCHASES UP TO \$200

Just Load It, Set & Forget This 9-lb. Kenmore WASHER \$158
Low-priced Kenmore automatically washes any fabric lint-free. . . Built-in filter removes soil, soap-scum, lint specks from wash and rinse water. . . ends lint haze on clothes.

2-Speed 10-lb. Kenmore Automatic WASHER \$168
2 cycles—normal for thorough washing of his dirtiest denims and delicate for extra-gentle care of your lingerie. Built-in filter for lint-free washes.

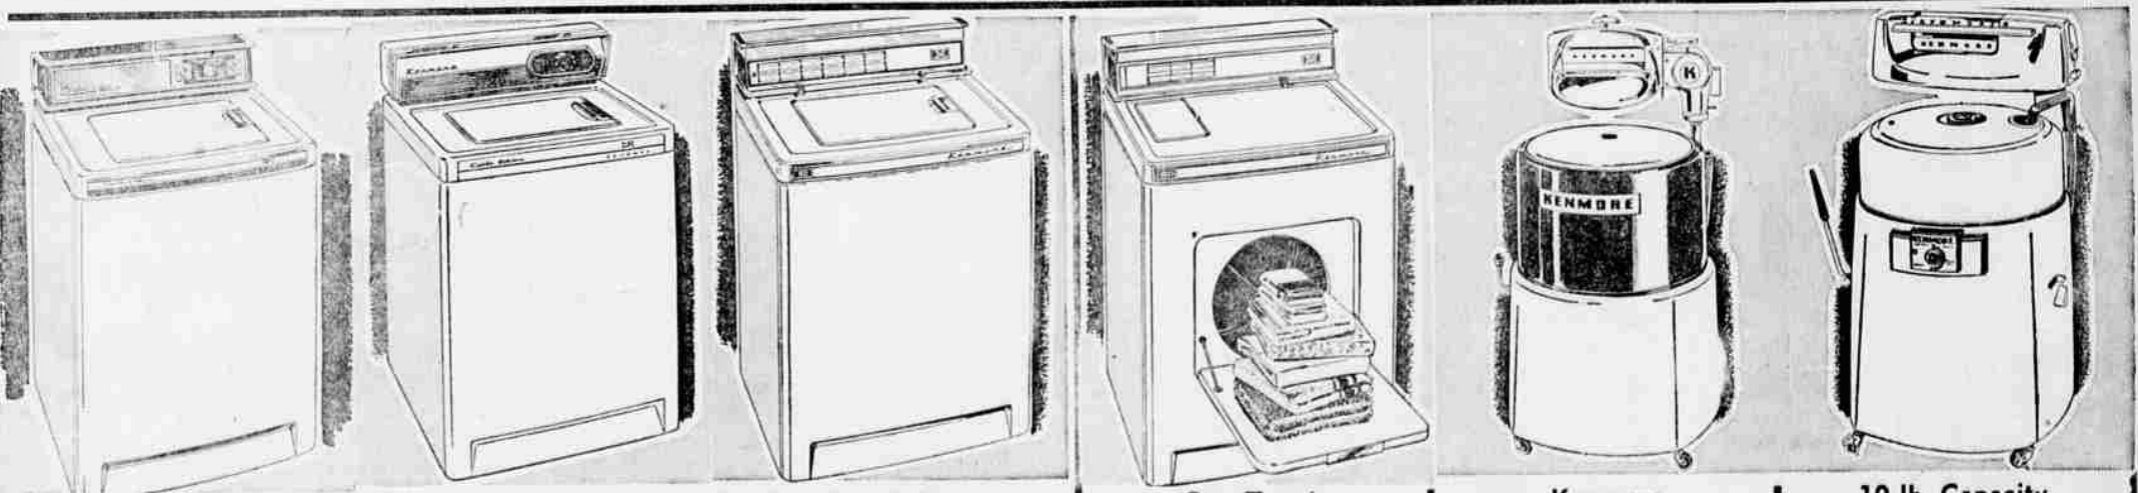

3-Temperature 10-lb. Cap. Automatic WASHER \$188
Two speeds means two separate washing actions, normal wash and spin for regular fabrics, low-speed wash and spin for delicates. 3 water temperatures built-in filter, 10-lb. capacity.

Low Priced Hi-Speed Kenmore Automatic DRYER \$118
Hi-speed Kenmore electric dries everything washable faster at a heat safe for even modern fabrics. New air-heat switch for fluffing woolen blankets and feather pillows. Safety shut-off, 8-lb. capacity.

10-lb. Cap. 3-Heat Kenmore Automatic DRYER \$128
Kenmore gives you safe, modern drying! Dial any drying time up to 1 hour; dial hot, medium or warm drying temperature, 10-lb. capacity. Safety switch on load-a-door.

All Fabric 3-Cycle Kenmore Automatic DRYER \$148
High speed dryer with 6 drying temperatures. Dries 10 lb. loads just as fast as you can wash them. . . never a drying delay or a wet wash pile-up.

\$10 DOWN DELIVERS ON PURCHASES OVER \$200

Twin Filter 2-Cycle Kenmore Automatic WASHER \$198
10-lb. capacity automatic washes normal and dainty fabrics with 2 cycles. New built-in double-section filter ends lint-hazy washes. Plus non-rusting porcelain top lid, 3 wash temps, 3 water levels.

All Fabric 3-Cycle Kenmore Automatic WASHER \$218
All-fabric care with normal, delicate and wash and wear cycles plus two speeds; normal agitation and spin for regular fabrics, slower action for delicates. 10-lb. capacity. Full-time lint filter.

One-Touch Kenmore All-Fabric Auto. WASHER \$258
Touch one button . . . 10-lb. capacity automatic washes any fabric, even wash 'n' wears with 12 cycles and 2 speeds. Dispensers add rinse additive or bleach at right time automatically. Twin filter.

One-Touch Kenmore All-Fabric DRYER \$198
Touch one button . . . 10-lb. capacity electric dries any fabric: normal, delicate or wash 'n' wear fabrics automatically. Damp Dry Cycle for fast ironing. Throw-away lint bags. High-speed drying action.
