

Quotes From the News

BY UNITED PRESS INTERNATIONAL
 Washington — Republican National Chairman Thorton B. Morton, saying the Democrats had made a "deal" to run a Kennedy-Johnson presidential ticket.
 "It seems clear from all indications that a deal has been made and there will be only one ballot in Los Angeles."

Washington — Sen. Lyndon B. Johnson, commenting on Morton's charge:
 "The silly season is on and I'm sorry it is affecting people who otherwise would talk more sense."

New Delhi — Soviet Premier Nikita S. Khrushchev, discussing the possibility of East-West war:
 "I don't think there is danger of war, but there are many important problems unsettled, and unless they are settled they might cause war."

Salt Lake City — Gene Fullmer, on a possible boat with Sugar Ray Robinson for the disputed middleweight title:
 "I've got something I want to settle with Robinson. He's the only man who ever knocked me out. I want to return the favor."

Youth Thankful For Officer's Piece of Rope

Portland — John Liseo, 12, today thanked his lucky stars that Deputy Sheriff Frank Herman of Clackamas county happened to be carrying a long piece of rope in his car.

Liseo was recovering in Providence hospital from a broken left wrist, broken ribs and a fractured skull when he tumbled over the edge of a 200-foot cliff on the Clackamas river.

The boy managed to grab hold of a tree with his right arm about 30 feet above the river bank and hold on until Herman came to his rescue.

Head Crew Alarmed
 John had gone on a fishing trip with Chris Meehan, 13, near the Clackamas-Damascus road. The other boy alerted a nearby road crew after John fell down the bluff.

Cries of help came from below as some of the road crew left in a car to find rope. They came upon Herman in his car en route to Sandy and Herman "happened" to have 200 feet of new rope in his car.

The officer tied a quick knot and threw the rope over the bluff where the injured boy managed to grab it and fasten it around himself despite his painful injuries. Then he was hauled carefully to safety.

Fire at Monitor Destroys Stores

Woodburn — Fire late Wednesday destroyed a few small stores and a cafe at the little community of Monitor near here. For a time the blaze threatened to destroy the town.

Damage was estimated at \$60,000 to \$70,000. Dick Albert, a Woodburn fireman, was hospitalized after inhaling smoke and two other firemen were treated for burns on the arm.

Fire departments from Mt. Angel, Silverton and Woodburn helped combat the flames along with an airplane flown by Jack Lalibert, a commercial flier and crop-dusting pilot.

The fire, of undetermined origin, broke out shortly after 6 p.m. It was under control an hour later.

Yaquina Harbor Funds Approved

Washington — The Senate appropriations committee Wednesday approved \$300,000 for the Army Engineers for annual planning and engineering at Yaquina bay.

The appropriation was strongly urged by Rep. Walter Norblad (R-Ore.).

Norblad said the money is necessary for improvements on the harbor since it is of great importance to the lumber and timber industry in Oregon.

The committee also approved \$10,000 to start a study of Tillamook bay and bar with the construction of a south jetty in mind.

Engrossed Reader Gets Hospital Care

Des Moines, Ia. — Police were summoned during a snow storm and rushed Leonard DeWitt, 40, to the hospital for treatment of sunburn.

Hospital attendants said he suffered an inflammation of the eyes and burns of the chest and back. DeWitt explained that he had been reading under a sunlamp and became so engrossed he lost track of time.

Free Funerals Offered Expected Holiday Casualties

Chico, Calif. — The radio station KPAY of Chico, located just 12 miles from Paradise, Calif., is offering free funerals to persons who feel they might be killed in a traffic accident on the Fourth of July.

Ten times daily announcements make the offer: "Simply send in your name and address, plus the next of kin, on a postcard. Address the postcard to 'Funeral Arrangements, KPAY Radio, Chico.'"

Elation crowned J. Ned Richardson said about 20 cards had been received since the spot announcements began Monday.

"I got a call from the police chief," Richardson said, "but I told him he'd have to send in his card like everyone else."

Agriculture Act Decision Watched

Salem — The Oregon Agriculture Department said today it is watching very closely a June 7 opinion of Washington Superior Court Judge George H. Freese.

The Washington law parables that of the Oregon Commodity Commission enjoining act — a self-help farmer program. An Oregon Department spokesman said if the Washington decision is appealed, the issue might come before the Oregon Legislature.

Among other things, Judge Freese, of Walla Walla, Idaho, said that the Washington law parables that of the Oregon Commodity Commission enjoining act — a self-help farmer program.

Seaside Man, 62, Killed in Utah

Snowville, Utah — A Seaside, Ore., man was killed and his wife seriously injured Wednesday in a truck station wagon collision near here.

Ralph Newman, 62, was killed in the collision. His wife, Mrs. Fay Newman was reported in serious condition today in a Tremont, Utah, hospital.

Their grandchildren, 7-year-old Shelly and 10-year-old Danny Newman, escaped with only minor injuries.

The accident occurred on U.S. Highway 20 about two miles east of Snowville in northern Utah.

Highway Patrol Trooper Andrew Soderberg said the driver, who could not be identified, was in an oncoming truck driven by George Bishop of Jerome, Idaho. Bishop escaped injury.

Man To Reach Moon In 5 to 10 Years Famed Pilot Says

Colorado Springs, Colo. — A famed aviator pilot has predicted man would reach the moon within the next five to 10 years and probably would travel at the speed of light within the next 100 years.

Jacqueline Cochran of Encino, Calif., the first woman to fly faster than the speed of sound and instrumental in the training of women for aviation during World War II, also warned that the United States was not keeping up in the field of aviation.

She said on her recent trip to the Soviet Union she saw there more than 100 TU-144s and TU-114s, Russian jet transports, on a single field. She said the doubling of the United States had that many 707 jet transports in operation in all of the nation.

Miss Cochran, author of "The Stars at Noon," was a speaker at the closing day of the National Journalism Convention here. She was initiated as a professional member of the National Journalism fraternity.

The organization voted to hold next year's convention at the University of Kansas at Lawrence August 16-19.

The fraternity gave its distinguished service award to Mrs. William Roseland of Los Angeles, Theta Sigma Phi national president from 1929 to 1947. The organization's national scholarship award went to Mrs. Miriam Gann Hill, University of Alabama.

Marjorie Paxon, staff writer for the Miami Herald, was elected vice president of the organization. She is a member of professional chapters, and Mrs. Robert Sturges of Nashville, Ind., was elected vice president in charge of student chapters.

'Pre-Judging' of Cases Deplored

Salem — John J. Pickett of the State Bar Committee on criminal law and procedure, told the eighth annual Oregon district attorneys institute Wednesday that so-called "pre-judging" of newspaper news should be examined closely by authorities and the press themselves.

He deplored "pre-judging" cases in newspaper accounts. He said although juries are instructed not to read newspaper accounts of trials, "they do it anyway."

Pickett specifically criticized the printing of confessions in Portland in the Levi McDonald truck bombing case.

Pickett said his committee is recommending to the next board of bar governors that a committee be set up to study the situation. He said the proposed committee would include representatives of newspapers, radio and television and other professions.

Roseburg Disaster Appeal Forwarded

Roseburg — Douglas County District Attorney Avery Thompson Wednesday forwarded to the State Supreme Court a brief on an appeal by the state involving the Aug. 7, 1959, Roseburg disaster which resulted in the death of 13 persons and millions of dollars in damage.

Hereford Bulls Go to Mexico

Prineville — The largest single shipment of purebred Hereford bulls ever sold to Mexico from the United States left here Wednesday from the feedlots of Hudspeth Land and Livestock.

The consignment of 150 purebred bulls was destined for Sonora province, Mexico, to become property of the Mexican government.

Beau Meek, Hudspeth purebred division manager, said the bulls would be used in the Mexican government's land reform program, a plan which includes establishment and improvement of bloodlines in Mexican herds.

Representatives of the Mexican government spent several days here this week selecting bulls to be used on the Mexican federal ranch in Sonora. The Mexican government intends to build up herds which will eventually be sold to small ranchers.

Radio Listeners Delay Major Plane Takeoffs

Dayton, Ohio, Pa. — Passengers "checking a listen" to tiny transistor radios have delayed major airline takeoffs, according to Electronic Design magazine.

The delays are caused by radio interference which is emitted from most electronic apparatus, including portable radios. This "noise" is picked up by the flight engineer in the form of extraneous signals.

UNVEIL LIBERTY PLAQUE

New York — A bronze plaque officially designating the site of the Statue of Liberty as Liberty Island was unveiled Wednesday. The island formerly was known as Bedloe's Island, after its first occupant, Isaac Bedloe.

Billfold Returned; Money, Years Later

Van Buren, Mo. — In March, 1952, Melvin Reader, assistant manager of a market here, lost his wallet containing \$50 in the store. The next day the wallet turned up at the check-out counter - minus the money.

Recently, eight years after the incident, Reader received a signed letter in the mail, containing \$50 and this note: "Sorry for all your trouble. Here's your money back."
