Cut in Cuban Quotas Threatens More Seizures

Washington—(AP)—President Eisenhower's decree cutting Cuba's sugar quota threatened today to bring new seizures of American property by Fidel Castro's government. It sent the United States shopping around the world for some 800,000 tons of raw sugar to meet domestic needs in the next six months. It brought a sudden boon to other sugar producing nations. And it raised doubts that Cuba, even with a change of heart in its "little cold war" against this country, could ever fully regain its preferential spot in the U.S. sugar market.

Malheur County Pay Raise Illegal

Vale—(AP)—An attempt by the county budget board to raise the salaries of five Malheur county officials has been termed illegal by the state attorney. The action was refused at the courthouse following Smith's statement. The same opinion had been expressed last week by County Judge G. Y. Chester when the \$200 annual raise to be paid from the emergency fund was entered into the board's business after the meeting legally was over.

PRISONER EMBARRASSED Jacksonville, Fla.—(AP)—Eddie Odom, 24, asked county prison officials Wednesday to transfer him to state prison at Raiford to finish serving his two-year car-theft term because he has a lot of friends here and "it's embarrassing to have them drive by and see me working in a ditch."

Former Senate Investigator To Guard Kennedy

Washington—(AP)—A burly former policeman who has fought gun battles with hoodlums resigned Thursday as a Senate investigator to take the job of guarding Sen. John F. Kennedy (D-Mass.) at the Democratic national convention. James P. McShane, a former New York City detective, said he would be on Kennedy's payroll as an "appointments aide." He said he did not regard it as "a likelihood" the Castro regime would grant the Russians such a base. But he conceded there was always that possibility. Acting under authority given him last week end by Congress, Eisenhower cut by 700,000 tons Cuba's quota to market sugar in this country for the rest of 1960. Agriculture Department officials said the move also would deprive Cuba of a share in the Hawaiian and Puerto Rico quota deficits, amounting to another 156,000 tons. 39,752 Tons Yet To Come Cuba's original quota for the year was 3,119,655 tons. Of this, all but 739,752 has either already been shipped here or has been certified for entry. So the cut left 39,752 tons still to be imported. In a special statement, the President referred to Castro's barter deals to ship sugar to Russia at a time when experts said drastic economic reforms in Cuba threaten to cut sugar production. "The inescapable conclusion is," Eisenhower said, "that Cuba has embarked on a course of action to commit steadily increasing amounts of its sugar crop to trade with the Communist bloc, thus making its future ability to fill the sugar needs of the United States ever more uncertain."

98 Building Permits Issued in June

The majority of last month's total valuation was for new home construction. Twelve permits having a valuation of \$139,500 were issued for new homes last month. One permit having a valuation of \$73,139 was issued for a new institution, and three permits were issued to construct swimming pools. The department collected \$1,699 in fees during June and made 1,126 inspections.

Anglers Warned On Boat Overload

Salem—(AP)—State Marine Director Robert Rittenhouse issued a warning Thursday to fishermen not to overload fishing craft and termed the practice dangerous. "As salmon fishing season is now commencing, every caution should be observed," he said. "In past years there have been numerous cases of sport fishermen floundering in the water from an overturned, overloaded boat."
