

PAINTING CRUSADE — Two members of the local Painter's union are shown preparing to paint the offices of the United Medford Crusade. With the cooperation of local paint companies and distributors, the project Saturday was done at cost-price, with the remaining costs being paid by various UMC board members. Baker's Paint company and Midcoat painters loaned equipment for the job. Shown above are Bill Hartung (left) and Jack Miller, Union members. Other participants were Roy Dell, union business agent, Victor Medcalf, Orval White, Bob Emery, and David Conner. Mrs. Scott Davis, chairman of the UMC staff and office committee, initiated and supervised the project. The offices have needed painting for some time and the "face lifting" may reflect the "efficiency" and the "new look" Hal Gardner is giving the UMC campaign. Mrs. Davis emphasized. —(Walker-Simonson Photo)

Some Offers Deceptive, Business Bureau Says

The National Better Business Bureau has warned people that many "buy one - get one free" offers are deceptive. Don McNeil, manager of the Medford Chamber of Commerce, which is affiliated with the National Better Business Bureau, said the NBBB

Hungarian Near Death in Clash With Policeman

Union, N. J. (UPI) — A high-living Hungarian refugee, hunted for murdering two policemen and suspected of the wanton slaying of four other persons, lay critically wounded today from a gun duel with police.

Michael Fekkes, 25, a self-styled Hungarian freedom fighter, tried to shoot it out in face-to-face duel with police Tuesday night and lost. He fell with a slug in his head from the gun of sharpshooting Patrolman Walter Leamy.

Leamy, 36, a former combat Marine, apparently was the only intended victim of Fekkes who had the chance to shoot back.

"It was either myself or him," Leamy said. "He started to fire and I returned the fire."

Fekkes, who liked expensive cars, clothes and jazz, had been sought along the Eastern Seaboard since Sunday when the bodies of two Franklin Township, N. J., police officers were found in his apartment in Highland Park.

Authorities said ballistics tests showed that .32 caliber slugs taken from the policemen's bodies matched those found in the bodies of four people, including three women, who were massacred on the estate of Dr. Francis M. Clarke, in New Brunswick, last Jan. 26.

Investigators also cited similarities between the Clarke murders and the cop-killing. All the victims had been shot in the head with .32 caliber bullets. All the bodies were neatly arranged. The locations of the slayings, New Brunswick and Highland Park, are less than five miles apart.

Fekkes underwent emergency surgery at Elizabeth General hospital Tuesday night. Hospital officials said he was not expected to live.

'Favorite Sons' Bear Watching

Los Angeles (UPI) — Five "favorite son" states will bear special watching tonight in the balloting for the Democratic presidential nomination.

The "favorite son" candidate in any of these states could release the delegates at the end of the first ballot and the way they jump could determine the presidential nominee.

Here are the states and the way they are believed leaning if released by their favorite son:

Florida — 29 votes pledged to Sen. George Smathers. Expected to go strong for Johnson when released.

Iowa — 26 votes for Gov. Herschel Loveless. A majority expected to switch to Kennedy.

New Jersey — 41 for Gov. Robert Meyner. Kennedy should get 35 or more when delegation is released.

Kansas — 21 votes for Gov. George Docking. Symington could get most of these in any stop-Kennedy move.

Minnesota — 31 for Sen. Hubert Humphrey. Stevenson and Kennedy fighting for a majority here.

OBSERVE HITLER PLOT
Bonn, Germany (UPI) — Gen. Adolf Heusinger has appealed to all branches of the West German armed forces to observe the anniversary of the 1944 officers' plot against Hitler in an "honorable way."

Heusinger, inspector general of the armed forces, said that the individual units would determine their own observance of the anniversary July 20.

REDS SHELL QUEMOY
Taipei, Formosa (UPI) — Communist Chinese batteries fired 91 shells on the offshore island of Quemoy Monday, the Nationalist Chinese defense ministry announced today.

bulletin concerning such offers was issued after a nationwide investigation of increasingly prevalent advertising of "two gallons of paint for the price of one."

The bureau noted that several paint businesses are offering two gallons for the price of one, or for the price of one and one cent as their usual method of selling paint.

The bureau, the bulletin noted, believes that "public understanding of 'two-for-one sales' is that, for a limited time, two articles are being offered for the usual price at which one has been sold, as a single unit, in the recent regular course of business."

However, if the usual method of selling is always by two units, and the firm implies that the price is for one and the other "free," the bureau believes such a transaction is fallacious, the bulletin noted.

"Such a scheme has the tendency and capacity to mislead and deceive the trusting and the gullible and to divert trade unfairly from those who do not use such pricing methods," the bureau said.

The bureau recommended that such offers be made for limited times only, and that businesses, which offer two items regularly for a single price, avoid the use of such terms as "two for one sale, and buy one - get one free."

Mustard Gas Victim Sought

Aberdeen, N.C. (UPI) — A boy who tried to burglarize a chemical plant here may be dying in agony today.

Police do not know who or where he is.

The boy, believed to be between 14 and 17 years old, broke into the Olin-Mathieson Chemical Corp. plant some time during the past week end. He walked barefooted across the plant floor, unaware that the floor was covered with deadly mustard gas powder used in the manufacture of insecticides and sprays.

Plant employees, who wear rubber boots and protective clothing, discovered the footprints Monday. A search began immediately and radio stations began broadcasting appeals to the boy to surrender and receive medical treatment.

Mustard gas, used with deadly effect in World War I, enters the bloodstream through pores in the skin. Plant Manager Robert T. Brock said a person exposed to the powder could live from three to five days without medical treatment.

Nikita Seeks Invitation

Havana (UPI) — Soviet Premier Nikita Khrushchev is angling for an invitation to visit at least one other Latin American nation before he sets a definite date for his Cuban visit, diplomatic sources said today.

Cuban officials recently returned from tours behind the Iron Curtain have been saying Khrushchev would take up Premier Fidel Castro's invitation to visit Havana soon, possibly during the July 26 celebrations of the revolution movement.

However, the sources thought it likely the Russian leader wanted to have at least one more Latin American capital on his itinerary before undertaking such a long trip.

He indicated this himself recently by telling Western newsmen in Moscow that he would like to visit the South American continent some day, but had not yet been asked.

In the past few days, government-controlled newspapers, labor unions and other organizations have been showering Khrushchev with telegrams of thanks for his promise to protect Cuba in his dispute with the United States.

ISSUE COURTING PERMIT
Durham, England (UPI) — Courting is by permit only on the secluded lovers' lanes at the country estate of Viscount Lambton. Caretakers said they have begun issuing special passes to romantic couples to keep animal poachers out.

RECEIVES AWARD—Dr. Richard Nelson, second from left, received the Medford Active club's "Activian of the Year Award" recently at a meeting at Rogue Valley Country club. At left is Gary Meisner, new president of the club. Gail Kimball, second from right, was awards committee chairman. Don Eckenrode, governor of district 3, Active International, from Eugene, at right, watches the presentation. —(Walker-Simonson Photo)

Officers Seize Millionaire in Insurance Fraud

San Francisco (UPI) — Millionaire Stewart B. Hopps, who figured in investigations of the International Guaranty and Insurance Company of Tangier, was arrested by federal authorities Tuesday night on charges of mail fraud and using a fictitious name in a mail fraud scheme.

Hopps was taken into custody under an indictment returned by the federal grand jury in Baltimore, Md. The arrest was made by U. S. Deputy Marshal Warren Cain and Postal Inspector H. A. Vickers at Hopps' \$500,000 home in suburban Belvedere.

Hearing Friday.
He was brought before U. S. Commissioner Joseph Karsch here to determine a time for a hearing on his removal to Baltimore to face charges.

The hearing was set for Friday, and Hopps was released on \$10,000 bail. Each of the two counts carries a maximum penalty of five years imprisonment and a \$1,000 fine.

Assistant U. S. Attorney Donald B. Conine recommended that bail be set at \$25,000, but Hopps' attorney, Jake Ehrlich, argued that the amount was excessive on grounds that his client was "an established businessman with a good reputation."

Insurance investigations carried out by California and New York in 1959 disclosed widespread involvement of the Tangier company in U. S. insurance firms, some of which proved insolvent.

Among the evidence gathered were key documents signed by an "E. S. Van Galder," who could not be identified.

Nelle A. Martin, a former employee of Hopps, told a California insurance commission hearing that she and Hopps' son Robert frequently signed the Van Galder name on documents at Hopps' direction.

Hopps was defendant in a number of suits to recover insurance losses, among them a \$15 million suit filed in Austin, Tex.

Tacoma (UPI) — An 85-pound, 4½-year-old female chimpanzee climbed in a six-month-old baby's carriage and refused to let loose of the infant for an hour in a department store here Sunday. The chimp was part of a store promotion program. The child, Marsha Ebert, was safely returned to her mother, Mrs. Frederick Ebert of Olympia.

One-Car Railroad Serves Home on Hill

Oakland, N. J. — It's 500 feet from the street to Warner Rosenheim's hilltop home.

Only a dirt road, almost impassable for ordinary travel, ran up the 18 per cent grade when he moved into his house in 1954.

So he built a railroad. The one-car electrically powered railroad cost him \$1,200 to build. It makes its run in four minutes.

NO DECKHAND SHE
Dallas, Tex. (UPI) — Former Navy women will have one shipmate aboard at the national WAVES reserve convention here. Martha Condy, a former Navy yeoman now attending the University of Arkansas, had orders to report for summer reserve training aboard a destroyer escort, before the Navy did a quick recoup Tuesday and got her out of that all-male assignment and back to the WAVES.

NO OUTDOOR CHECKERS
Athens, Tenn. (UPI) — The fire department complained today about orders of city officials to keep their lounging and checker playing inside the fire station - even on balmy days.

Kenney Would Not Oppose Stadium

Robert Kenney, chairman of the Jackson county parks and recreation commission, said today he is not against a proposed new stadium in Jackson county, but does feel that a thorough study should be made before any decision is reached.

He was quoted in the Mail Tribune yesterday as "questioning" the need for a stadium. He said today that his prior experience, coupled with a knowledge of financial problems in city, county and school district, indicates to him that such a proposal would require widespread support.

"I am certainly not opposed to a stadium, but I feel a much more thorough investigation should be conducted before we endorse it," he stated.

Dr. Engleson Does Only Special Work

Dr. David Engleson, who has moved into the recently completed Medford Dental building, specializes in the field of orthodontia only, according to the building's owners.

In a previous story about the Dental building's opening, Dr. Engleson was referred to as a general practitioner, but he does not conduct a general practice.

The building, located at 24 Crater Lake ave., is owned by Mrs. Vyrbelle Thompson, Dr. Bernard Thompson and Jack Ward, who also operates Jack's Dental lab in the building.

Mexicans Burn American Flag

Mexico City (UPI) — Thousands of students shouting "Cuba yes, Yankee no" marched past the U. S. Embassy Tuesday night and burned an American flag in front of the presidential palace before being dispersed by riot police armed with tear gas.

At least seven persons were arrested in the demonstration called to protest alleged U. S. "intervention" in Mexican affairs and to show sympathy for the revolutionary regime of Premier Fidel Castro.

The charges of intervention were based on U. S. Ambassador Robert C. Hill's recent request for an explanation from the Mexican government on pro-Castro declarations made in the Mexican congress.

A hotel favored by American tourists was stoned and its doors smeared with red paint by the demonstrators, who numbered 5,000 by the time they had reached the Zocalo residence of President Adolfo Lopez Mateo.

No injuries were reported. Heffernan is a great grandson of Michael Hanley, pioneer cattleman in the Oregon territory. He was graduated from Medford high school, University of Oregon, and Willamette university college of law. He is also a captain in the U. S. Air Force Reserve.

The firm of which he became a full partner on July 1 includes George M. Roberts, Edward Branchfield, and G. W. Kellington.

Heffernan Becomes Partner in Firm

Quotes From the News

BY UNITED PRESS INTERNATIONAL

Washington—A U. S. note to the Kremlin warning Russia against shooting down any more American planes over international waters:

"It should be clear to the Soviet government that a repetition of acts of this nature cannot fail to have the most serious consequences, responsibility for which would rest upon the Soviet government alone."

Los Angeles—Adlai E. Stevenson, addressing the Democratic convention after being almost mobbed in a tumultuous reception for him:

"I've decided who you are going to nominate—it will be the last survivor."

Los Angeles—Robert Kennedy, brother of the senator, denying that a wild welcome given Adlai E. Stevenson at the Democratic convention was a sign of Stevenson's delegate strength:

"Each of the candidates who comes into the arena for the first time would receive the same kind of reception."

Newport, R.I.—White House Press Secretary James C. Hagerty, expressing President Eisenhower's views on a request by the Congo government for U. S. troops to help quell disorders:

"Such military assistance would be better for the Congo if it did not come from the United States or any of the large Western nations."

Fair Commission Denies Request

Salem (UPI) — Another chapter in the battle between modern and traditional artists exhibiting at the Oregon State Fair was written Tuesday before the Oregon Fair Commission.

The commission denied a request by members of Artists Equity Association of Oregon — the moderns — to consider rehiring Mrs. Laneta King, Salem, as head of the Fair Art Show.

Commission Chairman Ursei Narver, Portland, said Mrs. King, who resigned in May over the art squabble, left of her own accord.

Narver also said that her successor, Ronald Neperud of Eugene, is doing a "capable job."

Association spokesmen said it might be a good idea next year to have two separate shows at the fair, one for abstract and another for realist art. The commission has taken no action on this but has discussed it. This year's controversy stemmed from traditionalist claims that the modern artists were taking over the show.

Tuesday's delegation included Charles Voorhies, Ray Grimm, Laverne Krause and Josephine Cameron, all of Portland.

Bing Crosby's Son Taken To Hospital

Santa Monica, Calif. (UPI) — Gary Crosby, 26, eldest of Bing Crosby's sons, today was confined in St. John's hospital.

The young entertainer was admitted to the hospital Tuesday, but the nature of his ailment depended on which of his representatives was questioned.

Crosby spokesmen variously said Gary had suffered food poisoning, exhaustion and the effects of dieting too much. His confinement caused him to cancel a three-day engagement at Catalina Island Casino set to start tonight.

WATCH PRESIDENT DIES

New York (UPI) — William Helbein, 70, president of the Helbrox Watch company here for 48 years, died Tuesday at his home after a short illness.

Rocket Failure Brings Valuable Information

Washington (UPI) — The Army announced today that a five stage rocket launched from the Virginia coast failed to reach its intended speed and height but produced valuable information for scientists.

The Strongarm rocket was launched from Wallops Island, Va., in an experiment to measure upper atmosphere electron densities.

The Army's Proving Ground at Aberdeen, Md., had pointed out that the rocket was to fly at altitudes where intercontinental ballistic missiles would operate.

Altitude Withheld
The Army here did not say what altitude was achieved in today's flight. It said it could not yet say what caused the technical difficulties which made the flight fail short.

But "the altitude was sufficient to produce data of value to the objectives of the experiment."

The five-stage rocket was intended to reach altitudes above 200 miles. The Army had hoped it would climb as high as 1,100 miles. It was intended to reach a top speed of 17,000 feet per second.

Carried Instruments
The rocket, Strongarm Three, carried instruments to measure electron densities.

Strongarm Three consisted of an Army Honest John rocket, two Nike-Ajax boosters, a modified Air Force Rocket, and a scaled down Sergeant missile.

The firing was one of a number of projects planned in connection with the U. S. program for the International Geophysical Year in 1960. Findings will be made available to all nations participating in the program, including the Soviet Union.

'Nazis' Picket Sammy Davis

Washington (UPI) — Uniformed American Nazi party "storm troopers" Tuesday night picketed a night club appearance of Negro singer Sammy Davis Jr. to protest his planned marriage to a white actress.

Wearing swastika arm bands, about 15 self-styled Nazis marched with posters in front of the Lotus Club for more than an hour.

Nazi party leader George Lincoln Rockwell and his young followers carried signs with uncomplimentary language.

Davis, a convert to the Jewish faith, bristled at the references to his planned fall marriage to blonde Swedish actress May Britt. He said he was "just plain mad."

"It certainly doesn't seem to be any of their business," he told a UPI reporter in his dressing room.

Only a night before, Davis almost broke into tears when his introduction at the Democratic National Convention in Los Angeles was met with a mixture of cheers and jeers.

REDS SHELL QUEMOY
Taipei, Formosa (UPI) — Communist Chinese batteries fired 91 shells on the offshore island of Quemoy Monday, the Nationalist Chinese defense ministry announced today.
