

TANKER AGROUND — The 575-foot Panamanian tanker Alkaid lists at the seawall of the United Nations building in the East river at New York after running aground. A hole was torn in the port side below the water line and

the vessel lost cargo of more than 22,500 tons of crude oil. The ship was reported in no immediate danger of sinking. None of the 36 persons aboard the tanker was injured. (UPI Telephoto)

Cuba Claims U. S. Violated Waters

Havana (UPI) — The Castro-controlled newspaper Revolution charged today that three U.S. warships, "presumably" from the Guantanamo Naval Base, violated Cuban territorial waters Thursday by firing guns within two miles of the Cuban shore.

The semi-official newspaper did not describe the types of warships or guns but termed the alleged firing "an insolent challenge to our sovereignty."

Red China Mission Due
The report coincided with the scheduled arrival today of a high-level Red Chinese trade mission expected to do business with the Fidel Castro regime and possibly pave the way for Cuba's diplomatic recognition of Peking.

The U.S. Embassy reserved comment on the firing charge, saying that any answer would have to come from the U. S. Navy.

But observers believed that the alleged incident, which supposedly was watched by Castro officers including the military commander of Oriente Province, Calixto Garcia, would be used as part of the government's campaign to force the U.S. Navy out of Guantanamo.

Said on Maneuvers
Revolution said that the warships were "on maneuvers" and engaged in "artillery practice," implying that they were firing live shells or ammunition either at or near Cuban territory.

The report said that the first of the warships came within two to two and one half miles of the beach near Sigua, about halfway between Santiago and Guantanamo, where an Army post is located. Guantanamo, site of the U. S. naval base, is approximately 40 miles east of Santiago.

Second Charge
Today's accusation was the second charge of U.S. naval violation of Cuban territorial waters within two months. On May 13 Castro charged the U.S. Navy with several violations which were denied.

Kishi Cabinet Quits; Election Slated Monday

Tokyo (UPI) — Prime Minister Nobusuke Kishi and his government resigned en masse tonight.

The cabinet resigned after the ruling Liberal-Democratic party and the opposition Socialist parties had agreed earlier tonight to elect a new prime minister at a special Diet (parliament) session beginning next Monday.

Pro-American Hayato Ikeda, who was elected Thursday as new president of the ruling party, is certain to be elected new prime minister Monday. This is assured because his party has an absolute majority in the Diet.

Diet Boycotted
Earlier today, the opposition Socialist party boycotted the Diet and refused to take part in the election of a new prime minister. It appeared that Kishi, hospitalized with six stab wounds inflicted by a right wing fanatic Thursday, would remain in office.

But when Kishi's cabinet announced plans for calling the extraordinary session and then resigning, the Socialists agreed to end their boycott. Kishi was in fine spirits today and joked with callers at the hospital. He is expected to be hospitalized about 10 days.

Oregon Stevenson Vote Said Legal

Salem (UPI) — Oregon Election Director Jack F. Thompson said Thursday that the one member of the Oregon delegation to the Democratic national convention who voted for Adlai Stevenson did so legally.

Oregon cast 16 1/2 votes for Kennedy while one member, Mrs. Virginia Grant of Portland, cast her half vote for Stevenson. Oregon's delegation was pledged to Kennedy on the first ballot because he won the May 20 state primary. But Thompson said that Mrs. Grant was a delegate because she is Oregon's national committeewoman and she was not bound by the Kennedy pledge.

Rails Advance in Dull Trading Session

New York (UPI) — Stocks milled about in some of the dulllest trading of the year today.

Rails showed a good gain on average on advances of around 2 in Great Northern, a half each in Chesapeake & Ohio and Louisville & Nashville.

Electronics, among the better gainers all session, fell out of favor toward the finish. Motorola and IBM were off around 1 or more. Varian picked up around 2.

DOW-JONES AVERAGES
New York (UPI) — Dow-Jones final stock averages: 30 industrials 630.24, off 1.08; 20 railroads 138.89, up 0.43; 15 utilities 93.99, off 0.11, and 85 stocks 208.16, off 0.13. Sales today were about 2-140,000 shares compared with 2,480,000 shares Thursday.

Gold Hill Man Visits Desert Area

Gold Hill — Earl Moore returned to his home in Gold Hill recently after four days spent in the desert area of eastern Oregon searching for Indian articles to add to his collection.

He found 246 arrow points while on this trip as well as a large mortar, which weighs between 80 and 90 pounds, two large pestles, and a boat anchor for an Indian canoe.

50th Day Without Rain Noted Here

This is the 50th straight day for Medford and vicinity without measurable precipitation. There has been none since May 26, and none is immediately in prospect. June, however, had a trace of rain.

The five-day forecast for western Oregon and western Washington predicts a few showers about Sunday and Wednesday but no rain from this storm front is expected in this area.

Annexation of Business Site Is Recommended

Medford's city planning commission last night recommended that a potential business site be annexed to the city. The commission had been informed that a firm employing 35 persons may locate on the site.

The site encompasses some five acres of land located to the northwest of Crater Lake highway near its intersection with Delta Waters rd., adjacent to the existing city boundary.

Ervin Hogan, an attorney for the property owners, told the commission that annexation is one of the prerequisites to the business deal.

Hogan said the Cummings Diesel Sales company, with headquarters in Columbus, Ind., is thinking of locating a \$150,000 building on the site. It would employ about 35 men year around, and would serve as a sales and repair shop.

Recommend Annexation
The commission also recommended that the area be annexed as a limited commercial zone. It was pointed out that there are existing limited commercial zones near this area and which are already in the city.

The city council will have to act on the commission's recommendation.

The commission tackled three conditions onto its recommendation. They are, that the property have only two exits to the highway; that the building be set back 100 feet from the highway; and there be no storage of equipment in the front yard.

City Manager Robert Duff said the company owners have already indicated that it will comply with the conditions.

Action Against Journal Dismissed

Portland (UPI) — District Judge Ray D. Shoemaker has dismissed a criminal action against the Journal Publishing company for unauthorized use of the Allied Printing Trades Union label.

Judge Shoemaker's ruling followed a delayed hearing on the case. Journal Attorneys Manley B. Strayer and Cleveland Cory submitted a brief in support of their argument that "intent" of the corporation's officers was necessary to prosecution of the alleged crime.

No evidence and no case was put up by the district attorney's office. The state was represented by Deputy District Attorney Oscar Howlett.
