

Drivers Warned of 'Summer Ice' Here

Chief of Police Charles P. Champlin recently warned local driver to beware of "summer ice" on the road, caused by rain storms at this time of year.

The first rain after a dry summer can be treacherous. Chief Champlin said, when it hits, a road surface coated with a summer-long collection of dust and oil.

"Summer ice" needs the same driving skill as winter ice, the chief added, and gave these tips for driving safely when faced with these conditions: slow down as if on winter ice; if a skid occurs, turn the steering wheel in the direction of the skid; and don't brake until the skid is controlled.
