Early Graduate Of SOC Recalls Student Days

One of the first graduates of Southern Oregon Normal school when it was re-established in 1926, was Mrs. Eva Taylor, who now teaches at Riddle, Wash. Mrs. Taylor is again enrolled at the school, taking summer courses.

Recalling her days as an undergraduate, Mrs. Taylor says that there were many student activities. There was no gymnasium, so the basketball team used the old armory. They played their first game with Oregon State college - and won. The coaches, volunteers from the teaching staff, were psychology and geology instructors.

The first classes ever given at Southern Oregon college were summer session classes in 1926, with 206 students enrolled. By fall, the enrollment had gone up to 273. Now it is at the 1250 mark. J. A. Churchill was president of the college, and Mrs. Taylor recalls that the present administration building was named for him.

Original members of the faculty still with the college are Dr. Arthur S. Taylor, Miss Marian Ady and Bertha Stephens. Dr. Taylor reports that there was no tenure or academic rank, and that every instructor taught 12 months out of every year. Sometimes in the summer an instructor sat around with nothing to teach, but he was there.

Mrs. Taylor says that every one lived off campus in those days, as there were no dormitories. There was no going home every week end either, because the buses made fewer trips to fewer places and almost everyone traveled by train.
