Finch's attorney, Grant Cooper, switched from his tough cross-examination methods Monday to question Marie with a polite but determined attempt to shake her incriminating story.

Cooper repeatedly pointed up minor conflicts in Marie's testimony and her original statements to police, hours after the gunshot slaying, causing the blue-eyed blonde gravely to say:

"I tried pretty hard to explain what happened to police. But I didn't do it in exact order. I didn't think it would make any difference."

### Barbara Finch's Daughter Awaits Turn as Witness

Los Angeles - (UP) - A girl waited today to testify about hearing angry voices and screams in the night which ended in the death of her Finch.

Patricia Dee Daugherty, 13, will be a witness for the prosecution seeking to convict her stepfather, Dr. R. Bernard Finch, 45, and his paramour, Carole Tregoff, 23, of the slaying of her mother.

Patti stood by to follow Marie Ann Lidholm, 19, to the witness stand. Marie, the pretty Finch maid from Sweden, was called back today for the second day of cross-examination by the defense in the murder retrial.

Marie, Patti and her brother, Raymie, 6, the natural child of Finch and his second wife, Barbara, were the only persons in the \$65,000 suburban West Covina home July 18, 1959, when Barbara was slain.

Finch's attorney, Grant Cooper, switched from his tough cross-examination methods Monday to question Marie with a polite but determined attempt to shake her incriminating story.

Cooper repeatedly pointed up minor conflicts in Marie's testimony and her original statements to police, hours after the gunshot slaying, causing the blue-eyed blonde gravely to say:

### Humboldt Coast Quake Recorded

Berkeley, Calif. - (UP) - A sharp earthquake off the northern California coast was recorded late last night by the University of California seismologic station.

Seismologist Don Tocher said the quake was about 325 miles northwest of here, probably off the coast of Humboldt county.

He said it was unlikely it would cause tidal waves because, for some reason, we don't know about yet, that just doesn't happen along the California coast.

The shock, recorded at 11:40:27 a.m. (p.d.t.), registered a Richter magnitude of 6. There were no reports of damage.

### Ghost Disrupts Nightly Fare of Television for Family in England

London - (UP) - History's first television-viewing ghost flitted eerily around the home of George Leek and his family today waiting for its nightly fare of private eye and Western programs.

The ghost-invisible but given to making chuckling noises - joined the TV circle at the Leek household in the town of North Shields several months ago.

The visitation alarmed the Leeks but they could not find another apartment so they accepted the haunt as a sort of unwelcome lodger and told only a few close friends about it.

**Ghost Gets Familiar** - But in ghosts, as in humans, familiarity apparently breeds contempt. The spook advanced from simply making sounds to touching the Leeks - George and his wife, Margaret, 40, their daughter Vivian, 16, and baby David.

"The noises were bad enough but this is going too far," snapped Mrs. Leek as she marched off to ask her local vicar, the Rev. Clement White, to conduct a rite of exorcism.

White listened to her story and agreed to help, if he could.

"There is a set procedure in cases like this and I will follow it," he said.

### Jordan Calls for Cultural Committee

Amman, Jordan - (UP) - The Jordanian government has instructed its ambassador in Washington to comply with an Arab League memorandum setting up an Arab cultural committee there to present the Arab viewpoint to Americans and "correct Zionist false allegations."

### Television Set Burns in Ashland

Ashland - The current heat wave became just too much for a TV set here last night. Ashland firemen received a call from the Max Click residence, 25 Gresham st., at 7:37 p.m. saying that the family's set had suddenly burst into flame. A truck was dispatched to the scene but the fire had destroyed the set by the time the truck arrived.

Firemen listed cause of the blaze as unknown.

Mrs. Leek implied that if the service did not work she would ask the town council to provide her with new quarters.

**Some Nerve** - "The ghost bothers us night and day," she said. "Why on one occasion I was admiring a woman's hat on an afternoon television show when it brushed right across my face.

"This awful spook will drive us all to destruction."

The Leek phantom may have its place in psychic literature. It is the first reported in connection with television viewing. It is one of the very

few ghosts alleged to haunt a new house - the apartment building is only three years old.

Local wags have suggested that if the Leeks fail to drive their tele-spirit away they should charge it a pro rata share of the \$11 a year they pay for a television viewing license.
