Detergent Advised for Grass Stain Removal

Ithaca, N. Y. – (UPI) – With summer here can grass stains be far behind?

Grass stains can be difficult to remove from clothing, but specialists at the New York State College of Home Economics, Cornell University, suggested a treatment that usually does the trick.

Try lubricating the stain with a mild liquid detergent, or a soapless shampoo, they say. Simply rub the detergent or shampoo into the spot and leave it for one-half hour. Then work the spot with your fingers, or a brush, and rinse it in clear water.

The specialists cautioned against using soap, because the alkali in soap may set the grass stain.

Lubrication with a mild liquid detergent or soapless shampoo also is an effective way of removing stains from lipstick, tracing paper, and india ink, providing the stained fabric is not harmed by moisture, the specialists said.

When Oregon State college students and faculty members talk about "BITE" they mean Beaver Invitation to Education, and pictured here are four of the 50 persons who attended Jackson county's BITE program. Shown are (left to right) Miss Judy Barry, Lakeview, Ore., Jack Hanel, Medford, president of the OSC Alumni association here; Miss Marianne Samuelson, Medford BITE chairman, and Robert Knoll, alumni director of the college. The meeting was held at the home of Miss Karen Culbertson, 2615 Hillcrest road, county chairman for the student project.
