

Be Sure To See the 1960

# FOUR-H and F.F.A.

# FAIR

## JACKSON COUNTY FAIRGROUNDS

Saturday, August 13  
through August 20

The 1960 Fair, which opens at the Jackson County Fairgrounds tomorrow—Saturday—will be bigger and better than ever, with eight full days devoted to colorful and widely varied activities of the Four-H Clubs and the Future Farmers of America. Everyone will want to see the achievements of these fine young men and women who are LEARNING by DOING. Here is a thoroughly practical and time-tried youth movement that builds better citizens for tomorrow—better economy for the Rogue River Valley today! There is no finer encouragement to this worthwhile program than attendance at the Fair and support of the annual livestock auction. There will be something doing every minute during the eight-day Four-H, F.F.A. Fair, from home economics exhibits, agricultural demonstrations and style revue to livestock judging, sheep shearing contest and tractor driving competition. Be sure to attend—it will be an interesting and memorable experience!

Today's Four-H Members Are Tomorrow's  
Community Leaders

## NATIONAL FOUR-H CLUBS

Learning how to be successful farmers is but one of many fine objectives of the Four-H Clubs . . . the achievements of these fine youngsters may be seen at the Fair tomorrow and all next week, yet the training in leadership, self-confidence, cooperation and courtesy are even more important. Four-H members learn the responsibilities of good citizenship, the skills and techniques of better living and finer home life.

The Successful Farmer of Tomorrow Is  
the Future Farmer of Today

## FUTURE FARMERS OF AMERICA

The successful farmer today must be versed in science, skilled in mechanics, able in management. Along with practical training in the many phases of useful and productive farm life, youngsters in F.F.A. learn how to live finer home lives and how to be better citizens. All Jackson County folks are justly proud of the young Future Farmers of America!

# STARTS TOMORROW — DON'T MISS IT!
