Appropriations Asked to Reseed Burned Areas

Baker - (UPI) - Oregon Congressman Al Ullman said here Friday that the United States Forest Service and the Bureau of Land Management have asked supplemental appropriations from Congress to finance the reseeded of burned-over forest and range areas.
Ullman originally asked that the two agencies take quick action in order to make it possible that funds were made available during the remaining weeks of the current session of Congress.
Ullman was notified in a telegram from Edward P. Cliff, acting chief of the forest Service that \$800,000 was requested for emergency rehabilitation in hearings before the Senate Appropriations committee, of which \$90,000 was earmarked for use in Oregon.
The supplemental appropriation will probably be added to the Mutual Security appropriations measure now before the committee.
BLM officials told the committee that \$1,500,000 was needed for reseeding of devastated western range lands.
Ullman was confident that the request would be approved by both the Senate and House and that the money would be available for use in time to take advantage of favorable weather conditions for seeding.

Portlander Indicted For Manslaughter
Portland - (UPI) - Peter Sanna, 64, Portland, was indicted on a charge of manslaughter Friday in connection with the shooting of another Portlander Friday morning.

King, greenskeeper at the club, died at 8:45 a.m., four hours after the shooting, while in surgery for a bullet wound in his chest.
Sanna was originally booked on first degree murder charges, before the grand jury returned its manslaughter indictment.
