Mutiny Reported Among UN Troops

Elisabethville, The Congo - The Katanga provincial government claimed tonight that Mail Federation troops of the United Nations force had mutinied near Albertville and refused to obey their officers.

There was no confirmation of the claim from U.N. authorities here. Informed observers cautioned that Katanga also reported the capture of a central Congolese government minister two days ago, and then admitted the information was false. The Katanga government headed by President-premier Moise Tshombe has seceded from the rest of the Congo and declared itself independent.

Ike Asks Sugar Purchase Cutoff

Washington - President Eisenhower asked Congress today for power to cut off the proposed U.S. purchase of 322,000 tons of sugar from the Dominican Republic. The economic crackdown against the Dominican Republic was similar to the action taken by Eisenhower against Cuba earlier this year.

Cuban Leaders Stay Mum on Charges by U.S.

San Jose, Costa Rica - UPI - Cuba maintained silence today on U.S. charges that it has become a base "to spread the Communist revolution throughout Latin America."

Cuba's Raul Roa declined to include his name with U.S. Secretary of State Christian A. Herter among the scheduled speakers at Western Hemisphere foreign ministers moved into their second day of debate on the issue of Communist infiltration. "We will answer if and when we consider necessary," was his only immediate comment.

He was considered certain, however, to launch a slashing counter-attack against the United States before the conference is over - possibly by Wednesday, when the Cuban delegation has invited newsmen to see some films of "interest."

Other survivors include two sons, Donald Myers and Gene Myers, Shady Cove; two daughters, Mrs. Arthur Guch, Medford; and Mrs. Frank Hixon, Eagle Point; his parents, Mr. and Mrs. George W. 'Duchess' Proves To Be Satisfying Play at Festival

If anyone needed proof that the people of these United States enjoy the theater and in particular, enjoy Elizabethan-type plays, he could have found it last night at the Oregon Shakespearean festival theater in Ashland. Intermittent rain over the past two days had left the open air theater soggy; a chill breeze swept down out of the Siskiyou mountains from time to time; the thermometer stood at little more than 50 degrees at curtain time. But a capacity audience assembled and sat through the entire performance. True, the playgoers wore a weird assortment of warm clothing bundled themselves in blankets, sheets of plastic and parkas, and fortified themselves with hot coffee and other beverages. But they were on hand. Satisfying Performance They came, they stayed and they were rewarded with a vital and satisfying performance of John Webster's "The Duchess of Malfi." This was the first time the Oregon Shakespearean theater, now in its 20th season, had ever produced a play by any writer other than the Bard, and some murmured against the idea. If they were in the audience last night, they must have been convinced that the idea is a sound one.

Population Expert Requests National Birth Control Plan

Washington - (Science Service) - A national policy of birth control may be required to overcome the serious and dangerous consequences of the current growing population explosion in the United States, Dr. Philip M. Hauser, director of the population research training center at the University of Chicago, warned here.

The simultaneous increase in the birth rate and decrease in the death rate has added about 48 million persons to the U.S. population in the past 20 years. "As a matter of sound national policy," declared Dr. Hauser, "it seems clear that we cannot indefinitely maintain our present national rate of increase - a rate which would double our population in less than 40 years."
