

Local and Personal

No Meeting—There will not be a regular meeting of the Upper Applegate Grange Friday, Aug. 26, Grange officials have announced. The next regular meeting will be in September.

Rummage Sale—The Gold Star mothers are sponsoring a rummage sale tomorrow in the Fehl building. Those wishing to donate articles may call Spring 3-2419, Mrs. Oscar Anderson.

Hit and Run—Lynn L. Knight, 522 King st., told city police yesterday afternoon of a hit and run accident involving his motorcycle while parked at 702 Grape st. Officials are investigating.

Dance Planned—The Presbyterian and Methodist church young people will sponsor a square dance at the home of Dr. and Mrs. Bert Elliott, 2186 Hanley rd., Medford, starting at 8 p.m. Friday. Douglas Fosbury, Medford, will call squares.

Bike Stolen—Michael Dennis O'Hara, 416 West 11th st., recently reported to city police the theft of his bicycle from the Rogue Valley Country club.

Auto Accident—Cars operated by Donald John Rausch, 19, of 3081 Table Rock rd., and Ethel Lillian Smith, 49, of 417 Pearl st., collided Wednesday morning on North Front st. between Second and Third sts. Rausch was cited for entering a public highway from a private road without stopping.

Potluck Dinner—The Pocatohas lodge will hold a potluck dinner Friday in the Redman hall on Apple st. at 8:30 p.m. A business meeting will follow at 9 p.m., and a social card party will close the program. Refreshments will be served.

SIXTH LARGEST
The Republic of Indonesia with a population of 84 million is sixth largest in the world. Indonesia consists of more than 3,000 islands.

OBITUARIES

PETER DeYOUNG, 68, of 15 Third st., Eagle Point, died this morning in a Central Point hospital. Funeral arrangements will be announced by Siskiyou Funeral Service, directors of Chapel in the Trees.

ARDILLA MAY NEWLAND, Mrs. Ardilla May Newland, widow of John W. Newland, Roseburg, died at her home Aug. 9.
She was born in Sams Valley, Ore., the daughter of Judge Christopher C. Galli, pioneer resident of that area. She had lived in the Roseburg area all of her married life.
She is survived by a daughter, Carmel, and two grandchildren, all of Melrose.

MRS. LENA RAY CAVIN, Hornbrook—Mrs. Lena Ray Cavin, 77, died yesterday in the Siskiyou General hospital after an illness of several months.
She was born May 16, 1883, at Keno, a daughter of Mr. and Mrs. S. M. Stough. She was married in Yreka Dec. 29, 1910, to Fred Cavin, who survives. The couple have lived in Hornbrook since 1910.

Discoverer Has Good Insulation
Washington—(Science Service)—The interior of the 30-by-27-inch Discoverer XIII capsule is sufficiently insulated to protect a small animal on its return to earth, Lt. Gen. Bernard Schriever, Commanding Air Research and Development command, has told Science Service.

ISAAC THOMAS ROBINSON, Ashland—Funeral services for Isaac Thomas Robinson, 92, of 724 Iowa st., Ashland, will be held at 2:30 p.m. Friday, Aug. 26, at Litwiler's Mt. View chapel.
Mr. Robinson died Wednesday at a local rest home. He was born Nov. 2, 1869, in Carthage, Mo., and moved to Ashland in 1946 from Montana. At the time of his death he was a retired mining engineer.

Survivors include his wife, Jane E. Robinson, and a stepdaughter, Mrs. W. O. Yates, both Ashland; three daughters, Mabel Robinson, Mrs. Lilla North, and Mrs. Fay Bishop, all of Missouri; and one brother, John B. Robinson, San Lorenzo, Calif.
The Masonic lodge will be in charge of the graveside services, and the Rev. Duane Alvord will officiate. Interment will be in Mt. View cemetery.

Discoverer Has Good Insulation
Washington—(Science Service)—The interior of the 30-by-27-inch Discoverer XIII capsule is sufficiently insulated to protect a small animal on its return to earth, Lt. Gen. Bernard Schriever, Commanding Air Research and Development command, has told Science Service.

FESTIVAL PLAYS

Tonight: "The Tempest"
Friday: "Richard II"
Saturday: "Taming of the Shrew"
Sunday: "Julius Caesar"
Curtain time 8:30 p.m.
Bus leaves Medford hotel at 7:30 p.m., and Jackson hotel at 7:35 p.m. for Festival plays.

"TORCHY" OREGON'S LAMP OF LEARNING

PREPARED BY OREGON STATE SYSTEM OF HIGHER EDUCATION

OREGON'S SCHOOL OF THE AIR
ORIGINATING AT KOAC IN CORVALLIS
PROVIDES RADIO AND TELEVISION PROGRAMS FEATURING SCIENCE, ART, HEALTH, SOCIAL STUDIES, LITERATURE AND MUSIC FOR ELEMENTARY IN-SCHOOL VIEWING AND LISTENING.
THIS STATE OWNED AIR CAMPUS IS AN EXAMPLE OF EXCELLENCE IN EDUCATION IN OREGON. TAPES FOR TEACHING ARE FILMED, RECORDED AND DISTRIBUTED FROM KOAC.

Space Vehicle Has Trailing Reactors

Stockholm—(Science Service)—A strange space vehicle—speeding along on a two-year trip to Jupiter—was described here today. Trailing behind the vehicle were three glowing balls, nuclear reactors.
Dr. R. H. Olds, a Lockheed Missiles and Space division scientist told the 11th International Astronautical Congress here that the proposed system would have no moving parts. He said a series of small nuclear reactors about two feet in diameter would produce 1,200-degree centigrade temperatures to banks of thermionic generators. These would convert the heat to electricity.

State Seeks Funds For Health Plans

Salem—(UPI)—The State of Oregon is going after federal funds for mental health research projects.
Members of the board of control today approved a suggestion of Secretary of State Howell Appling Jr. which would seek federal grants and set up a priority program of proposed research projects.
Making up a committee which will look into possible projects for federal grants will be Appling, J. N. Peet, secretary of the board of control, and the heads of all the state institutions.

SNIFFING FISH

Madison, Wis.—(Science Service)—Fish can locate their homes by the sense of smell, C. W. Threinen, administrative assistant in the Wisconsin Conservation department has reported. He said that in experiments made in Indiana with longear sunfish some of the fish were blinded, the sense of smell was destroyed on others, and both sight and smell were destroyed on a third group. The fish were then displaced from their homes in a stream and watched. Those with undamaged sense of smell got home safely even though they could not see, Threinen said.

Jet System To Propel New Boats

New York—(Science Service)—A new jet propulsion system for small speedboats was introduced here today. Its big feature: it can be effectively steered in reverse.
There is no rudder and no propeller. The system shoots a jet of water out the rear of the boat. Vanes that look like venetian blinds can be moved to direct the jet in different directions and thus change the direction of the boat.

Driver Wanders Away After Crash

Orland, Calif.—(UPI)—California highway patrolmen investigating an accident east of here today quickly found the wrecked car and three passengers.
But the patrolmen and 50 deputies, firemen and volunteers searched another two hours and 15 minutes before they could locate the driver.
Officers said that driver Edward Stirewalt Jr., 20, of Portland, Ore., had wandered dazed into a wooded brushy area while going to seek help. Stirewalt, who lost control of his car and ran it into a ditch, was not seriously injured, nor were the three teen-age girls riding with him. All four, however, were thrown from the car in the accident.

SHIP MATERIALS

Boston—(Science Service)—Extreme temperature-resistant flexible materials to be used in space ship deacceleration devices are the goal of \$250,000 worth of contracts recently awarded by the Air Force to two Boston-area companies. This or similarly-oriented research must be successfully completed before the Air Force can launch, and recover intact, a technically sophisticated manned space vehicle. There are several approaches to space vehicle recovery, each with the same goal: the kinetic energy of a moving vehicle must be absorbed by some mechanism during re-entry into the atmosphere in such a way that the vehicle itself, perhaps destroying the vehicle and creating unbearable temperatures for any human occupant. This goal must be attained before a manned space vehicle can be launched. The

DEATH RATES

Nevada had the highest accidental death rate of the states in one year with 157.8 per 100,000 of population. By contrast New Jersey ranked lowest with a 41.2 ratio.
About 95 per cent of Montana's coal output is cut and loaded mechanically.
Two firms are Arthur D. Little, Inc., Cambridge, and F.R.C. Research Laboratories, Inc., Dedham.

Six Box Cars Derailed In Crash

La Grande—(UPI)—Six box cars were derailed here early Wednesday when two switch engines pushing cars on adjoining tracks in the same direction collided at a crossover.
The Union Pacific, which investigated the mishap, said no one was hurt and the tracks were only slightly damaged.

Weather

FORECASTS
Medford and vicinity: Fair tonight and partly cloudy Friday. Low tonight 42. High tomorrow 80.
Central Oregon: Mostly cloudy tonight with occasional showers. Cloudy Friday morning. Partly sunny Friday afternoon, north half South half partly cloudy through Friday and warmer. Low temperature tonight 45-55. High tomorrow 70-80.
Northern California: Fair tonight and Friday. Warmer and drier.
LOCAL DATA
TEMPERATURE: Mean yesterday 61; below normal 9.
Record high this date 106 in 1916. Record low this date 44 in 1955.
PRECIPITATION: 2.41 inches to midnight, none. Midnight to 10 a.m. none.
Total this month .03 inch, .09 inch below normal. 15.96 inches. 2.12 inches below normal.
HUMIDITY: Lowest yesterday 32%; highest this a.m. 69%.
