Nixon Likes Kennedy, Kennedy Likes Nixon

Seguin, Tex. —(UPI)—It looks like Nixon will vote for Kennedy in the November general election, and there's a good chance that Kennedy will vote for Nixon.

Stan McKenzie, a radio newsman, conducted a poll in both Nixon and Kennedy, Tex., about the presidential election.

The towns are located 36 miles apart in south Texas.

McKenzie said he found that Sen. John F. Kennedy will be a shoo-in among voters in Nixon, while voters in Kennedy appear to favor Vice President Richard Nixon by a slight margin.

PICTURE TAKERS

Photographers, most of them amateurs, snap about five million pictures per day throughout a year. Peak season is in the summer vacation months.

RECEIVES AWARD—Enid Holmes, chief librarian at White City, presents dictionary to Walter Townsend, Mail Tribune columnist, and prize winning writer in the national contest of the Hospitalized Veterans Writing project.

Four Appear in Circuit Court

William David Roach, 26, of 217 South Riverside ave., will be arraigned Monday afternoon on charges of burglary not in a dwelling, according to District Attorney Thomas J. Reeder.

Roach appeared in circuit court Friday on charges of entering a Medford store.

Willard St. Arnold, 47, of 349 West Pine st., Central Point, appeared in circuit court Friday on charges of immorality. He had pleaded guilty to the charges July 15. A pre-sentence report was ordered Friday by Circuit Judge James M. Main.

Robert Duncan, Medford, was appointed attorney for Jack Leroy Vincent, 25, of 509 Austin st., Medford, who is charged with raping a 14-year-old girl.

Raymond Leslie McVay, 27, Forest Creek, Jacksonville, appeared in circuit court on charges of contributing to the delinquency of a 16-year-old girl, and Frank Farrell, Medford, was appointed his attorney. Clothing and apparel comprise the largest industry in New York City.

Oregon State Gets AEC License for Nuclear Research

Corvallis — To keep pace with the rapid expansion of nuclear research and instruction, Oregon State college has been granted a broad by-product material license by the Atomic Energy commission.

It is anticipated that the new license arrangement will stimulate considerable more activities in the radiation research program at Oregon State, according to Dr. C. H. Wang, chairman of the radiation safety committee.

Granting of the AEC license indicates that OSC is doing significant nuclear research and that it has become a "big business" on campus.

Research Programs
Currently, the 44 research programs in progress, associated with ionizing radiation, amount to a total annual expenditure of \$650,000. Six of these are supported by the National Science Foundation.

In addition, there are 38 projected programs in the area of physical science and biological science directly related to the use of ionizing

radiation with the total cost estimated to be \$392,000 annually during the next five years.

Radioisotopes have been used by college scientists as a versatile tool in various areas of research endeavors such as piston-ring wear, plant and animal physiology, insecticides, herbicides, bacteria phage, animal nutrition, and biochemical research.

Present Programs
The present instruction program consists of 13

\$1.4 Million Approved For Green Peter Dam

Washington —(UPI)—A House-Senate conference committee agreed Friday on a sum of \$1.4 million for Green Peter dam in Oregon.

The money was included on a multibillion dollar public works spending bill for projects in every state in the country.

The proposed Green Peter dam, long sought by Oregon congressiona l m e m b e r s, would be located on the Santiam river.

courses designed for the training of personnel in the fields of nuclear physics, radiochemistry, radio tracer chemistry, and radiation biology.

This new license will cover the entire radioisotope program on the campus. Prior to the present time, the use of radioisotopes on the OSC campus was carried out under individual by-product licenses issued to research personnel directly from the AEC.

Expansion of the radioisotope program necessitated the change from individual licenses to a broad AEC license.

Under this license, qualified staff members will be able to produce and use any radioisotopes bearing atomic numbers 3 through 83 for use in research and instructional programs. These radioisotopes are by-products from the reactor operation at the Oak Ridge National Laboratory, Tenn.

OSC purchased a \$165,900 nuclear reactor last year with a grant provided by the Atomic Energy commission to train nuclear scientists.

QUALITY FURNITURE!

Genuine Naugahyde

Sofa & Chair

Comfortable, handsomely built, beautiful Naugahyde covers in choice of 3 colors: russet, ivory, cordovan. Buy as a set or individually.

SOFA \$145⁰⁰

Matching Chair \$59⁵⁰

OVAL RUGS

So right with early American or provincial furnishings. For living rooms or bedrooms. Large 9x12 size and priced at only

HOME REPAIR NEEDS

Your home is your greatest investment... increase and protect its value with these quality repairs.

THE KEYS TO YOUR REPAIR PROBLEMS

DURO FIX-IT PRODUCTS

DURO PLASTIC Aluminum has hundreds of uses. It's real metal in pliable form... mixed... ready to use. Seals, solders, repairs. Applied cold, hardens into metal. Large 1/2" oz. tube only \$1.00

For the first time... ready mixed... ready to use, just as it comes from the handy tube. Liquid STEEL repairs most anything made of metal. It's non-shrinking, non-rusting. Big 6 1/2" oz. tube... \$1.00

3 OUT OF EVERY 4 SAWS USED ARE

DISSTON SAWS \$8.75 up

Jiffy PICTURE HANGERS

NO HAMMER! NO NAILS! SAVES WALLS! HOLDS 15 LBS.

Package of 6 FOR 19¢

Just Moisten and Apply on Tile, Glass, Plaster, Wood.

INSTANT LIGHTING BERNZOMATIC PROPANE TORCH

- install asphalt tile
- thaw frozen pipes
- remove paint
- solder
- sweat copper tubing
- repair gutters

HUNDREDS OF \$7⁹⁵ OTHER USES...

Handy Household Tool! ARROW No JT-21 JUNIOR STAPLE GUN

Handy for hundreds of light household fastening chores, like—shelving, valances, curtains, lining closets.

Steel construction. Built-in staple lifter. Holds 100 staples in its pocket. Loads 1/4" and 3/16" staples.
