Older Persons in Hospitals Increase

Washington - (Science Service) - The proportion of older persons in mental hospitals is increasing at "a disturbing rate," the Senate Subcommittee on Problems of the Aged and Aging reports. One out of three patients in public mental hospitals is 65 or over.

Sen. Pat McNamara (D-Mich.), chairman of the subcommittee, said in releasing the report, "By 1970, it is estimated there will be a 34 per cent increase over 1959 in the number of aged patients in mental hospitals."

Freeze-Drying Process Studied

Philadelphia - (Science Service) - Vacuum freeze-drying, a new food processing method, is being made available for trial purposes by F. J. Stokes Corporation's laboratory facilities here. By this method, water is extracted from the foods to be preserved by the freezing by reducing pressure in a vacuum container at low temperatures. The extracted water is changed into a gas, and the food is frozen, free of ice crystals. Nearly 50 foods, including meats, fruits, juices, vegetables and seafoods have been successfully processed in the Stokes laboratory by freeze-drying.

The majority of the equipment being used in this country for the production-scale freeze-drying of foods is built and supplied by Stokes.

UNEXPECTED WINDFALL

San Diego, Calif. - Mrs. Ruth Alexander, 27, was caught one name short Wednesday in the maternity ward at Doctors Hospital. She had chosen the name Karen for a girl, and a girl was born. Douglas was her chosen name for a boy, and a boy was born too. But Mrs. Alexander was still caught off guard, with no name for a third child, a girl.

"We had no idea we would have triplets," said Mrs. Alexander. "We didn't even expect twins!"

CHARGES AIR VIOLATION

Tokyo - (UPI) - Communist China charged today a U.S. Navy patrol plane violated its air space Wednesday by flying over Yunghsing Island off the mainland. It issued its 123rd "serious warning" against alleged territorial violations.
