Tic Douloureux
I get so many requests every week from elderly women with attacks of terrible jabbing pain in one side of their face that I feel that I must mention this disease. Fortunately, the trouble is rare, but this means that the average doctor may never have seen a case.

Verbal Attacks Increased
Asked whether he would advocate such a step, Bridges said "Certainly not to start. I would just defend to keep the base."

repeated a study of 294 cases, in which a pregnant woman got German measles. Among those who got it during the first eight weeks of gestation, half of them had a dead baby.

FAT OVERWEIGHT
Available to you without a doctor's prescription, our drug called ORDINEX. You must lose weight fast in 7 days or your money back. No strenuous exercise, laxatives, massage or taking of so-called reducing candies, crackers or cookies, or chewing gum, ORDINEX is a tiny tablet and easily swallowed. When you take ORDINEX, you still enjoy your meals, still eat the foods you like, but you simply don't have the urge for extra portions because ORDINEX depresses your appetite and decreases your desire for food.

4-H NEWS
Valley Experimenters
The Valley Experimenters 4-H club held their annual election of officers Sept. 18. Those who were elected were Jerry Clark, president; Mike Burrell, vice president; Clifton Mitchell, reporter; Tony Glidden, secretary; Tom La Fay, sergeant of arms.

Gurgling in the Bowel
One of the most disturbing things about writing a column is that it is almost impossible to say something so clearly that thousands of people who read it will not misunderstand it. For instance, a while ago, in describing the early symptoms of a cancerous obstruction in the large bowel, I remarked that one of the symptoms is an unusually loud gurgle in the large bowel, such as the person never had before, and which comes at the end of a crampy pain and relieves it. If a grandfather, whose bowels have always been quiet, suddenly begins to get labor-like pains with gurgling sounds so loud that his children can hear them from the other side of the room, grandfather had better go immediately and get x-rayed. But if some nervous young woman in the house gets a little extra gurgling in her bowel when she goes out with her beau, this is quite another thing, it is not a sign of disease, but only of nervousness and emotion.
