

Significant Upturn in Steel Output Said Needed To Get Nation's Economy Out of Present Rolling Readjustment

New York — (UPI) — It will take a significant upturn in steel operations to rock the nation's economy out of its present rolling readjustment. And the way it looks now steel production will not pick up substantially at least until November and maybe not until next year.

LUCKY TO BE ALIVE — Eddie Bobo, 2, is lucky to be alive after a bout with an automobile a few days ago in front of his home. The youngster was knocked down and dragged for half a block underneath the car. He suffered two broken legs, lost five teeth and had many cuts and abrasions on his body. But now he is getting along fine even if both legs are in traction in a Houston, Tex., hospital. He is the son of Mr. and Mrs. Douglas Bobo. (UPI Telephoto)

But there will be some slight pick-up in steel production, if only through auto industry buying, and this might give the economy the appearance of moving out of the status quo it has maintained most of the year. There will be no boom in the fourth quarter, however, because there are far too many adverse factors to contend with.

Fulbright Raps Nixon's Bid To Shelve Criticism

Washington — (UPI) — Chairman J. William Fulbright of the Senate Foreign Relations committee says Vice President Richard M. Nixon's proposal to shelve for the time being campaign criticism of the President was "utterly inconsistent with the democratic system."

Fulbright's comment followed appeals from the Republican presidential candidate asking for a moratorium on criticism of the administration's foreign policy while Soviet Premier Nikita S. Khrushchev was in the United States.

"The appeal of Mr. Nixon to the country and the candidates," Fulbright said, "that during this period we should not examine and if warranted criticize policies of this government seems to me utterly inconsistent with the democratic system."

Experience in Failure The Arkansas Democrat also labeled Nixon's two terms as vice president "largely an experience in failure."

Besides his specific criticism of the vice president, Fulbright also leveled a number of general charges against the administration.

He said the various "mistakes" in the handling of foreign affairs during the Eisenhower regime were largely attributable to "a lack of maturity and judgment and affirmative control at the top."

Fulbright said he thought President Eisenhower was "a fine man."

"But how can anyone in his right mind expect a man who has spent forty years in military affairs to become a great political leader. This just isn't in the cards," he said.

He said Eisenhower should not be criticized "with reference to errors or mistakes of foreign policy."

Should Criticize Voters "If anybody is to be criticized in this," he said, "it would be the voters of the United States who with all the evidence before them, chose a man who had absolutely no previous political experience."

In other areas, Fulbright said he thought the United States had given the appearance "of being petulant and sort of adolescent" in its decision to confine Khrushchev to Manhattan.

"Because we may think he has very bad manners is no reason why we should have bad manners, or to give like for like," he said.

He said the Cuba problem could not be pinned to any specific state department mistake but rather an unwillingness "to strive to understand the course of events and to do something about it."

RIBBON WINNER — "Cymri Tonette," a blue point Siamese, hisses at the also-ran felines after winning the blue ribbon at a Philadelphia, Pa., cat show. Exhibiting the cat for its owner is Kristin Leopold, 10, of Malvern, Pa. (UPI Telephoto)

Hampton Beach, N.H. — (UPI) — Just about everyone knew each other's last name during a recent convention at Hampton Beach. It was the annual reunion-dinner of the National Association of Leavitt Families. Descendants of John Leavitt, who settled in Hampton, Mass., and Thomas Leavitt, who settled in Exeter and Hampton, were invited.

Guidance Association To Hold Convention

Corvallis — Oregon's Personnel and Guidance association will hold its fall convention Oct. 8 at Oregon State college with "Counseling: Concept and Challenge" as the theme.

About 400 high school counselors from across the state plan to attend.

The president of the American Personnel and Guidance association, Dr. Daniel D. Feder, will be keynote speaker. Dr. Feder, who is professor of psychology at University of Denver, will discuss "Interpretation and Use of Tests in the Counseling and Guidance Program" and responsibilities and opportunities of the counselor.

Seven special sectional meetings are planned. Topics will include achievement testing, scholastic aptitude testing, self-reporting, and projective techniques.

Leaders Listed Leaders of the seven sessions will include Dr. David S. Brody, Oregon College of Education; Dr. William R. Crooks, OSC; Dr. James W. Sherburne and Dr. Harold W. Bernard, general extension division, state system of higher education; Dr. John S. Helmick, educational testing service, Los Angeles; Dr. Bernard Murstein, Interfaith Counseling center, Portland; and Dr. Leona E. Tyler, University of Oregon.

New association officers will be installed. Dr. Paul

Man Owes Life to Contents of Pocket

Memphis, Tenn. — J. D. McBride, 56, probably owes his life to a screwdriver, a pair of glasses and a ballpoint pen he was carrying in his shirt pocket.

A .22 caliber slug fired accidentally from a distance of six feet struck the articles and fell harmlessly in McBride's pocket. The bullet passed through the glasses, case and the pen, then flattened itself against the screwdriver.

U.N.'s WELL LIGHTED United Nations, N.Y. — (UPI) — In U.N. headquarters there are 44,907 one-unit lamps, ranging from fluorescent to round-bulb incandescent types.

New Faculty Members At SOC Are Announced

Ashland — New faculty members on the Southern Oregon college campus have been announced by the president, Dr. Elmo N. Stevenson.

To make their homes in Ashland for the next academic year are:

Vern W. Backens, an instructor of mathematics, who received his bachelor's degree in secondary education at Spear Fish, S. D., in 1957, and gained masters at the University of Wyoming in 1960.

Mrs. Audrey Bartlett is an instructor of violin and string ensemble who earned her bachelor's in music at the New England conservatory of music at Boston. The University of Oregon awarded her masters degree in music and she has studied under the director of the Eastman School of Music.

Robert Bennett is serving as the assistant professor of physical education, wrestling coach, and assistant football coach. He attended Augustana college in Illinois where he received his bachelor's in physical education and later went to the University of Col-

Wall Street Chatter

New York — (UPI) — Martin Gilbert of Van Alstyne, Noel & Co. feels that if the market is given a bit of heartening news, it would stimulate buying.

The analyst points to the Tuesday performance of American Can Co. which bounded upward to what was considered a good news item—the maintenance of its dividend rate.

Stocks showing strong counter-trend action pointing to higher levels, according to Hayden, Stone & Co., are: Korvette, New York Air Brake, Spiegel, Warner Pictures, Decca Records, Garrett, Peabody Coal, Lorillard, Richfield Oil, Ronson and Pacific Lighting.

Thompson & McKinnon has a list of "buy-worthy" stocks for long term investment of which the highest yielding are: Allied Mills (5.7), Cities Service (5.6), Columbia Gas (5.0), Liggett & Myers (6.0), Northern Pacific (5.8), Pullman (6.3), Southern Railway Gas (5.3), Southern Railway (7.0), Jersey Standard (5.6) and U.S. Rubber (5.0).

Movie star Terry Moore writes in Family Weekly

"I WATCHED MY BABY BEING BORN"

At first she dreaded giving birth and then through natural childbirth, a time of fear became a time of spiritual elation.

With your Medford Mail Tribune

"I MADE IT MYSELF!"

... but I'll tell you a secret. With Spruance... anyone can make the most delicious home made bread... golden crust and perfect every time.

YOU JUST ADD WATER

Everything else is in the mix and Spruance mixes in minutes. Mother nature and your oven do the rest. A single package makes four big loaves but you need only make as much as you choose. Spruance Bread Mix keeps indefinitely. Use any deep-dish ovenware if you haven't conventional bread pans.
