

HORSEMAN TAKES FLIER—Capt. W. A. Ringrose, of the Irish Army Horse Show team, flies through the air when his mount, Cloyne, behind hurdle, refused the fourth jump of the second event of the International Low Score jumps of the Pennsylvania National Horse Show at Harrisburg. (UPI Telephoto)

SCHOOL NEWS

Hedrick Junior High

By Sarah Madden, Steve Root, John Hughes and Gayle Grow
Class officers for the school year were elected in a general election last Thursday.

Elected by the ninth grade were Chris Bartels, president; Jim Henry, vice president; Sandra Joyce, secretary; and Greg Gande, treasurer.

Eighth grade officers are Fred Hauerperl, president; George McNair, vice president; Penny Roach, secretary; and Jim Root, treasurer. Also elected were Janice Prouditt, yell queen; and Kathy Bevis, Sandra Wilson, Darcy Johnson, and Janet Prouditt, yell leaders.

Seventh grade chose Terry Tibbutt, president; Cathy Root, vice president; Robert Flyte, secretary; and Bob Dames, treasurer. Also elected were Jonni Six, yell queen, and Jo Dell Moore, Claudia Potts, Barbara Collins, and Sue Morris, yell leaders.

Several students returned to journalism class Thursday to tell of their first experience in interviewing Venita Burch, Anita Townsend, Jane Zier, Karen Meadows, and Janet Howard were assigned to interview stars of the Grand Ole Opry. Despite the autograph hounds they were able to gather some information on the personalities.

This year students taking foreign languages will have an opportunity to gain more listening and speaking practice through the use of a language laboratory which is now being installed.

This involves the building of individual booths with tape recording units connected to and controlled by a master control panel.

Boys between the ages of 12 and 16 who were interested in the junior order of the Knights of Pythias met for an organization meeting at the Pythian hall Monday night.

A special announcement was made last week to remind students that the office counter telephone is a business phone and only to be used in case of emergency. There is a phone booth in hall for students convenience in making any regular calls.

Girls from Miss Phyllis Black's cooking classes have had "blue teeth" this week. Blueberry muffins were the cause of the sudden coloring as they sampled their own project.

Mrs. Dorothy Sneed's sewing classes are nearing the completion of their first clothing project, a gathered or pleated cotton skirt. Some of the girls have also been making blouses to go with their skirts.

At the student council meeting held Wednesday morning, Principal Glenn Linn announced that Hedrick Junior High will have an annual this year. Hugh Shurtleff has been named advisor.

Future Homemakers have been holding election meetings and their state of officers will be named next week.

Carroll Graber was the contact man for Civic Music association memberships during the annual drive for members which was held last week.

The ninth grade Hornets were beaten by the Crater Comets by a score of 28 to 14. Jim Henry and Walter Verstrate made the two scores for Hedrick.

Phoenix Grade School

Reporters: Marcia McGeary, Karen Bolz, Becky Bertrand and Linda Rasmussen

We have 431 students enrolled in the Phoenix Elementary school at this date. We have 19 teachers.

Mrs. Gertson has 23 pupils in her room and they are reading in a new reader.

There are 23 pupils in Mrs. Germer's first grade room also; they too are in a new reader and are making sound charts. In science, they are learning about seeds, and the many types of weather, and how the weather affects our living. The children are having fun making pumpkins from paper bags, and learning many new songs.

In Mrs. Swingle's first grade room, there are 9 girls and 13 boys. They are learning about the autumn season; the leaves are turning red, yellow, and brown. The little seeds are finding new homes. They made squirrels carrying acorns to new homes. They too are making jack-o-lantern

pumpkins for Halloween.

There are three second grade rooms this year. Each room has 23 pupils. Mrs. Woolen's room is making science booklets about how animals and plants get ready for winter.

Mrs. Ramirez's room went for a science walk and looked for signs of fall, seeds and caterpillars. They found many kinds of seeds and discovered the many ways seeds travel. They also saw a movie that told them all about seeds.

Mrs. Walker's second grade has been studying spiders, how the trap-door spider builds its home in the ground and puts a door on it.

Mrs. Brown's room has 10 girls and 15 boys. This third grade group has been studying about the different types of homes around the world. They made cut-paper houses for the covers of their social studies booklets. They have learned a new type game for PE; it is called "Goofy-ball" and is similar to baseball.

Mrs. Scott's room also has 25 pupils. They have finished studying homes and buildings, and are now starting to study foods. They are planning to visit a bakery soon. The three third grade rooms have a combined harmony band. They play for Spring open house.

Mrs. Bessonette is one of our third grade teachers. She has 25 students in her room at this time.

We have three fourth grade rooms again this year, our fourth grade teachers are Mrs. Kannasto, Mrs. Pramann and Mrs. Stack. The fourth grades have been learning some new rhythms in PE classes, and many new songs in music classes. They are doing finger painting in art.

Mrs. Praman's room has been doing gadget printing to make attractive covers for library lists.

Mrs. Kannasto's room has elected room officers for the first nine weeks. They are Mitch Burrell for president, Nena Moore for vice president and Janis Barker for secretary. All the fourth grades are making salt and flour maps of North and South America.

The students of Mr. Eri's fifth grade held election of class officers in their English class; Leslie Logan for president; Cathie Holly for vice president; Gary Logan for secretary; Glenda Furry for treasurer and Arthur McTevia

HIGH efficiency

LOW COST OF GOVERNMENT

By using modern management practices and new techniques Secretary of State Appling's department has effected a savings of a quarter of a million dollars in state government costs!

showing all the planets in their orbits was made in their science class.

Mr. Hale's sixth grade class are doing a radio play. The title of the play is "Blue Willow." The cast includes Charlyn Quackenbush, Gregory Lubbers, Mary Johnson, Margaret Grochocki, Mike Brabbin, Mark Anderson, Jim Anderson, and Lauren Sauers. Everyone in Mr. Hale's class has drawn a map of Canada and put in the provinces.

In Mrs. Stancliffe's fifth grade room, the officers elected were Janet Hughes for president; Lanny Quackenbush for vice president; Jay Birkland for secretary, Sharon Scott for treasurer, and David Coffman as sergeant at arms. Wall murals of the colonial period in history have been keeping Mrs. Stancliffe's room busy in the social studies class. A large mural of the solar system

interesting field trip to the weather bureau, the airport, and KBES-TV station recently. Some interesting compositions were written about the experiences.

All the fifth and sixth grades are participating in the annual magazine sales again this year. The winning room will be awarded an ice cream party.

Your Stake in Advertising

The American way of life, with its extremely high standards, is built on the foundation of advertising.

At first glance, the consumer might well think that a certain item would sell for less if the cost of advertising was deducted from the retail price.

But, before drawing conclusions, let us look at the wonderful mass production machine we call the American Marketing system.

A manufacturer brings out a new product, spending thousands upon thousands of dollars in designing, experimenting, perfecting, testing and setting up production and distribution. In some cases millions of dollars are invested before there is a single sale.

At this point the item would be priced too high for popular consumption. Only a few would know about it and only a few could afford to buy.

But the manufacturer has a solution. He invests additional dollars in advertising. With these sales messages he is able to tell millions of people about the new product . . . its advantages and desirability.

If a product is good, people buy many of them.

Manufacture is increased as sales climb. Mass production is in full swing and the cost to the consumer comes down and down.

The electric refrigerator is a good example of what we are talking about. The first ones sold for something like \$750. Now you can buy a vastly superior refrigerator for a couple of hundred dollars.

Mass production, sales through advertising . . . lower cost and a better product.

YOUR stake in advertising, and that of your children, is big and it is vital. Protect it as you would the Freedom of Speech.

We Protect Advertising, Too....

The Mail Tribune has an exacting code of advertising ethics for both its display and classified departments.

Every ad must measure up to certain standards. There can be no misrepresentation by any advertiser.

As a consequence, the Mail Tribune rejects many thousands of dollars worth of revenue every year.

We are happy to do this because we firmly believe in protecting advertising and in protecting you, our subscribers.
