Court Hears Debate On Poison Proposal

The Jackson county court heard more than two hours of arguments and explanations of the proposed Compound 1080 coyote poisoning program Friday night, but made no decision.

County Judge Earl Miller indicated this would be made later. Riley Patterson, Roseburg, U.S. fish and wildlife service, said he proposed to set out at least eight, and not more than 12, coyote poison stations roughly in the Lake Creek area toward the head of Salt Creek. These would be well-advertised, posted and carefully controlled, he said.

Of about 50 people attending the public meeting in the courthouse auditorium, only two men, John Walsh, Lake Creek, and John Niedermeyer, Medford, argued for the poison bait.

Many Oppose Program A number of others, led by Mr. and Mrs. Harry Marshall, opposed the program. Mrs. Marshall presented the county court with 18 petitions with 849 signatures of Jackson county property owners or registered voters, opposing the program.

After a volley of accusation by Marshall, Patterson said he was not talking about pure poison when he said a child could not eat enough to kill it. He explained he was referring to the poisoned meat.

"We figure 1 1/2 ounces in a carcass to kill a coyote," the predatory animal and rodent control man said. "It is toxic. Compound 1080 is particularly effective on the canine family. If birds get enough of it it will kill them. However, laboratory experiments did not have much success in killing birds. The victim can be poisonous to another animal if it has enough of the poison in it," he added.

Marshall said, "It is not democratic to put out the poison bait stations when less than 300 ranchers and farmers want the program. The remaining 73,000 some people in Jackson county do not," he argued.

A sharp interchange followed between Marshall and County Commissioner Chester Wendt when the commissioner asked, "Have you any basis for the statement that the other 73,000 citizens do not want the poison bait program?"

Miller said the meeting was called to inform the people of the poison bait station program. "I resent Mr. Marshall's statement that the county court is not informed on what we're doing!"

"I have not denied some ranchers have a coyote problem," Marshall said. "I believe we could get 5,000 signatures on petitions to put WEATHER FORECAST: Fair and mild through Friday. High today 67. Low tonight near 45. High Monday 60. Temp. Highest Yesterday 67. Lowest This Morning 45. Precipitation none. Our Skies Tonight Sunset today 5:07 p.m. Sunrise tomorrow 6:44 a.m. Moonset tomorrow 3:28 a.m. Orion, the constellation of brighter stars, now rises here midnight. In the southeast at 12:18 a.m. Orion will be high in the south at moonset.

C of C Requests City Acceptance Of State Offers

Freeway Construction Hinges on Settlement

The Medford Chamber of Commerce board of directors at a special meeting Friday endorsed a report from its highway committee to stimulate a settlement between the city and the state highway commission concerning the Highway 99 freeway through Medford.

The highway committee noted that the city and state highway commission have differed on two proposals concerning the freeway. The board directed a resolution to Medford Mayor John W. Snider and the city council encouraging action.

The suggestions by the chamber committee are: 1. To accept the \$15,000 offered by the state for fill dirt and gravel to come from a small ridge near the airport with the contractors to sign an agreement to level the area and leave it in a smooth, good looking condition. This, the committee believed, would actually improve the property.

The city council at their last meeting elected to further consider the proposal to determine whether or not the airport property might have some value as a park site and if so to claim possible damages from the state for use of the property.

2. To accept the state highway commission's offer of approximately \$160,000 for the right of way from Jackson st., through to 12th st., so designing of the bridge by the commission might proceed immediately.

The city-owned property between Jackson and 12th st., needed for the freeway, consists mainly of 4.6 acres of Hawthorne park property. The city and state have been negotiating a price on this property for months.

Worked Hard The committee said it has worked hard with the highway commission to step-up the starting date of construction of the freeway through Medford, thus hastening its completion by an estimated two years.

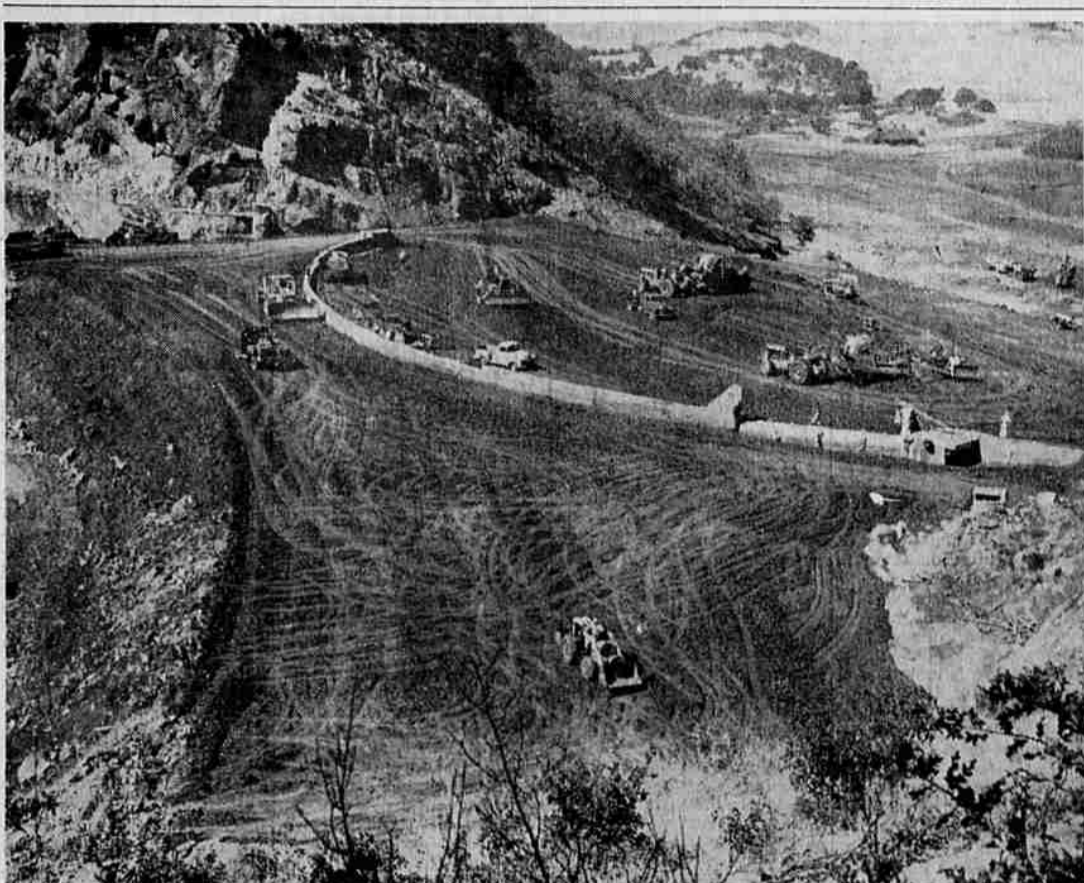

If the city is not able to work out these problems with the commission by Nov. 1, the committee said, this area stands to lose the two-year advantage the committee has secured.

Another reason for reaching its conclusion, the committee said, is from the standpoint of the valley economy. The committee feels every advantage should be taken now to secure these large construction projects at the earliest possible time. Many people will be employed and the funds allocated would be a boon to the economy during the winter of 1960-61.

Contractor Announces Stewart Ave. Closure

W. H. Conrad, Medford contractor, announced Friday that Stewart ave. between Riverside ave. and its intersection with Barnett rd. at the Jackson county shops will be closed to all traffic Monday, Tuesday and Wednesday. Conrad is contractor for installing a sewer in the area, and Stewart ave will be closed the three days because of sewer installation.

Many Die In Ohio Plane Crash

OLD DAM GONE — Construction crews of the R. A. Heintz Construction company, Portland, are shown above as they near the top of the old Emigrant dam. The concrete dam, which serves as a core for the new earth-fill dam, is now completely covered. A bureau of reclamation project, the dam will increase the size of Emigrant lake for irrigation and recreation purposes. (Whitland Locke Photo)

Members of Football Team Are Among Dead

Toledo, Ohio — (UPI) — A chartered airliner carrying the California Polytechnic college football team of San Luis Obispo, Calif., crashed as it lifted off the runway here last night. An undetermined number of persons were killed.

The Ohio highway patrol first reported that 30 persons were killed and 17 were injured. A deputy sheriff at the scene radioed that 17 persons were killed. A newsman at the airport put the number at 20.

The plane carried a party of 44 persons and three crew members when it left Santa Maria, Calif. Thursday to fly for a game with Bowling Green State university. An assistant Bowling Green coach who watched the team board the plane said two ladies also boarded.

The control tower at the Toledo express airport said the plane had just lifted from the runway at 10:25 p.m. when suddenly there was a blinding flash and the plane hit the ground. It broke in half. The front part of the plane was mangled. The rear section was intact.

A dense fog slowed rescue workers trying to reach the airport 20 miles southwest of the city. Curiously seekers jammed the highways. Mercy hospital reported that Wayne Roger Sorenson, Los Angeles, a football player, was dead upon arrival at the hospital. The coaches were taken to Mercy hospital. They were Leroy Hughes, 54, and his assistant, Howard O'Daniel, 52. 28 Survivors

A list compiled by United Press International from the Mercy, Maumee Valley and Toledo hospitals showed 28 survivors. Mercy hospital said eight or nine persons had been admitted, Maumee hospital said it had admitted 15, and Toledo hospital admitted three.

Wendt is chairman of a committee from five southwestern Oregon counties authorizing and financing the survey. Members are Fred W. Flynn, Curry county; Elmer R. Metzger, Douglas county; B. E. Davidson, Josephine county; Wendt, Jackson county; and E. W. Gowen, Klamath county.

Wendt said the committee plans to meet with forestry consultants Mason, Bruce and Girard, Portland, Nov. 14. The survey will be completed not later than May 1, 1961, the county commissioner said. Request for the survey was made by Western Forest Industries association to which a number of local lumber companies belong.

"Purpose of the survey is to determine if all ripe timber is being cut under the present allowable cut program," Wendt said. "If it is not, the committee can merely recommend that a larger cut be made."

Wendt explained that the forestry consultants were selected after interviewing nine firms which replied to the dozen letters mailed following a series of meetings. Wendt said there is no way to estimate the cost, but a budget of \$8,000 has been set up for the program.

Police Nab Suspect In Vancouver Hotel

Vancouver — (UPI) — International fugitive Joseph Corbett Jr. surrendered without a fight in a hotel room here Saturday when a policeman pushed a pistol into his face after Corbett had opened the door a few inches to see who had knocked.

The convicted killer and prison escape artist, long sought in the kidnap slaying of millionaire Colorado brewer Adolph Coors III, got out of bed to answer the door, leaving a luger pistol near his bed. Local police and FBI agents were waiting for him.

Colorado authorities have charged Corbett with kidnap and murder in the slaying of Coors, prominent Golden, Colo., industrialist who was abducted and shot in the back in the Rocky Mountains last winter. Corbett was on the Royal Canadian Mounted Police and FBI most wanted lists. He had been sought since he escaped from jail in Chino, Calif., in 1955.

Porter-Durno Debate To Be Heard Here

Robert Van Leer, Eugene, campaign manager for Congressman Charles O. Porter, said Saturday a tape recording of the Porter-Dr. Edwin R. Durno debate over the Eugene television station last week will be broadcast over radio station KMED, Medford. The debate is scheduled for broadcast between 7:30 and 8 p.m. Monday, Oct. 31, he said. Van Leer said the tape is a verbatim recording of the debate.

Marchers Protest Church Voting Ban In Puerto Rico

San Juan, Puerto Rico — (UPI) — Four hundred demonstrators, carrying black flags, Saturday marched in silence past San Juan cathedral to protest a ban by the island's Roman Catholic bishops against voting for the Popular Democratic party.

In two pastoral letters, the bishops have prohibited members of their dioceses from supporting Gov. Luis Munoz Marin and the other Popular Democrats.

Msgr. Victor M. Nazario, chancellor of the Ponce diocese, reinforced the letters Friday night with a warning that "every Catholic... who supports publicly the Popular Democratic platform or its contents not only commits a mortal sin but could be excommunicated, according to Catholic canon law."

The march of silence was led by two university professors. It went off without incident, moving swiftly in two files through the old, narrow streets around the cathedral. A loudspeaker car stressed that the march was "non-political."

San Juan's woman mayor, Dona Felisa Rincon de Gautier, declaring she is a devout Catholic, said yesterday that the bishops' action had plunged the church "completely into politics."

Oregonians Among Plane Crash Victims

Missoula, Mont. — (UPI) — Twelve persons were killed—including two Oregonians and three former Oregon residents — Friday when a Northwest Airlines DC-4 spiraled out of control and crashed "belly-up" into a mountainside 22 miles northwest of here.

Killed in the crash were Joseph D. Denton, 57, Portland, and Robert E. Leonard, 37, Salem. Former Oregonians killed in the crash were Mrs. Betty Hurl, and her son, John 15, formerly of McMinnville, and one-time Newport resident Ehel Marie De Freese.

Miss De Freese was the stewardess of the plane which was en route to Minneapolis. The four-engine plane originated from Portland and was 23 minutes out of Missoula before it crashed.

Washington — (UPI) — Fidel Castro's government has issued an order banning flights within 30 miles of the north coast of Cuba's westernmost province of Pinar Del Rio and warned it may force down any plane crossing the "forbidden zone."

Marines Take Leave At Guantanamo Base

Havana — (UPI) — U.S. Marines, 1,450 strong, landed at Guantanamo Saturday for a weekend of shore leave. Shortly afterwards Fidel Castro charged that because of the "vile ambitions" of the U.S. presidential candidates Cuba was in imminent danger of invasion.

He denounced Vice President Richard M. Nixon and Sen. John F. Kennedy as "two dopes."

A fresh wave of anti-American feeling swept the island as the Castro-controlled press accused the United States of taking "the first step to armed invasion" by letting the marines spend a week end at the U. S. Naval base in eastern Cuba. Castro himself did not refer to the marines.

Neither did Castro mention the Cuban "Q" Airways plane which was flying from Havana to the Isle of Pines yesterday when the passengers jumped Cuban guards and forced the pilot to fly to Key West, Fla.

At Santiago, possessions of expelled American Texas Oil company officials were seized and passed out to peasants.

Ike Plans Another Television Speech

Washington — (UPI) — President Eisenhower, hoping to capitalize on what the White House said was a "very good" reaction to Friday night's TV appeal for the Republicans, prepared another campaign appearance for next week.

The President made a television tape recording for a broadcast to be given on CBS at 8 p.m. (e.s.t.) Tuesday on behalf of Vice President Richard M. Nixon. Eisenhower will introduce Treasury Secretary Robert B. Anderson, who will give the main address.

Press Secretary James C. Hagerty said the reaction to Eisenhower's speech Friday night at Philadelphia — in which the President sharply attacked Democratic nominee John F. Kennedy — has been "very good" so far.

Leopoldville, The Congo — (UPI) — United Nations officials put Associated Press Correspondent Michael Goldsmith under its protection Saturday after Congolese military police tried to force him out of his hotel and out of the Congo on orders of strongman Col. Joseph Mobutu.

Portland, Ore. — James E. Dicey, 55, vice president of the International Woodworkers of America, AFL-CIO, died in his sleep here early Saturday morning.

Cuban Passengers Hijack Airliner; Seek U.S. Asylum

Key West, Fla. — (UPI) — Eight passengers and the co-pilot on a Cuban airliner bound for the Isle of Pines killed an army guard in an aerial gun battle Saturday and forced the wounded pilot to fly them to political asylum here.

The guard, one of those the Fidel Castro regime has stationed aboard all Cuban airliners to prevent such hijacking, was killed by a burst from his own tommygun. The pilot, co-pilot and a 14-year-old boy passenger were wounded.

There were 38 persons aboard the twin-engine, DC3, three crew members, the guard, and 34 passengers when it took off from Havana. Lands Safely

The pilot, Candelario Delgado, his right arm shattered by a bullet just above the elbow, landed the plane safely. It bounced drunkenly down the runway and ran off the end of the airstrip but remained upright and undamaged.

Edward P. Ahrens, District U.S. Immigration supervisor at Miami, said only nine aboard including co-pilot Gabriel Carrasco, were involved in the hijack. He said these nine requested political asylum.

"Two who were not involved but are glad to be here also want to stay," he said. Ahrens said the remainder, 28 persons, planned to return with the airplane to Cuba.

Russia Charges U.S. With 'Provocation'

Moscow — (UPI) — The Soviet newspaper Izvestia Saturday charged that the arrest in New York on espionage charges of a Soviet U.N. official was a "provocation." Observers expected the Russians to retaliate.

Igor Y. Melekh, chief of the Russian language section at the U.N. office of conference services and one of the highest-ranking Soviet members of the U.N. international staff, was arrested Thursday on charges of attempting to get aerial photographs of Chicago.

Previous arrests or expulsions of Soviet diplomats from the United States have led to reprisals against American embassy staff members here. U.S. Air Attache Col. Edwin Kirton and Economics Attache George Winters were expelled recently after the ouster of Soviet diplomats by the U.S. government.

County To Raise Dog License Fees

The county court plans to sign an order this week raising the dog license fees, County Judge Earl Miller said Saturday.

Fees for males and spayed females will be raised from \$1.50 to \$2, effective Jan. 1, Miller explained. No charge will be made in the \$3 fee for unspayed females, he added, since this is the limit set by state law.

A 25 cent fee will be charged for lost dog tags. Chris Hagler, Jackson county dog control officer, said that the added fees should bring in \$4,000 revenue which will be used to meet current expenses. "Now we're spending more than we are taking in," he added.

Two months ago Herbert Bus Lane and Dennis Hagler were hired as full time assistants to the dog control officer. Before that Hagler had one part-time and one full-time man helping him.
