Glimpses at Glamour

From DOROTHY ELLIOTT

Are you one of the many women who feels that you have a "too heavy" look? Do you feel your present hair styling does little or nothing to bring out your best features? Often we have had new customers come to us asking if we might help them with these problems. Here is our answer. We feel, first, you should have a permanent that will bring you natural, soft, wide waves rather than the small, tight ones so often seen. You'll be able to see for yourself that the soft, wide waves are a great deal lovelier around a full face. We also believe in this situation, it helps to put a little "height" into your hair style unless you happen to be quite tall. What's more, the contours of your head should always be sculptured and sleek... busy bouffants just aren't right for you.

A well-groomed look is the result of regular neck trimmings in between hair stylings. Here at De-Na's Beauty Salon, we have five operators to not only style your hair but keep you looking neat as a pin every day. Just call SP 2-2096.
