SCHOOL NEWS

Howard School

In Ronald Quackenbush's sixth grade room, new class officers have been elected for the second six weeks. Elected were: Greg Gresham, president; Mary Wong, vice president; and Cherolyn Vosika, secretary-treasurer.

President Greg Gresham appointed new monitors to help with various room jobs such as cleaning the blackboards and handing out papers.

Retiring president, Kenny Smith, organized a Halloween party before officers were elected. We appreciate the way Kenney conducted class meetings, and we are all learning the order of business and the proper way to make motions.

William Colley's sixth grade room has completed a study of Canada. Each student made a free-hand drawing of Canada. On our maps we put the provinces, territories, rivers, lakes, and cities. We are now starting a study of Mexico.

In science, we made drawings of the ear and the eye. Each student turned in a project on sound. Various projects were musical instruments such as drums, guitars, bottle xylophones, and bongos.

Our new room officers are Julie Cummings, president; Bob Kline, vice president; Linda Wolfe, secretary.

We have a new student in our room. His name is Bob Kline and he came from Wilson school.

Jack Bailey's fifth grade room has been studying about the Civil War. We have learned much about Abraham Lincoln, Jefferson Davis, Daniel Webster, and Henry Clay.

We elected new class officers. They are President Greg Ingram, Vice President Greg Friesen, Secretary Phillip Reynolds, Room Cleaners Janice Horton and Jim Fuller, and Messenger Sandra Whisler.

In Mrs. Nita Birdseye's fifth grade room, Vicki Bower is our new president for the second six weeks. We are working toward a more courteous attitude toward teachers and students, a quieter classroom, and a more careful observance of safety rules – in other words, better citizenship.

In our art class, we have been learning how to paint trees. We have noticed that trees have many interesting shapes, and the bark of each variety of tree differs in texture from that of others. Since the foliage of many trees has been brilliant with autumn colors, we have been using the "pat pat" method of painting leaves.

We have a new girl in Mrs. Flossie Murray's fourth grade room. Her name is Katherine Britton. She is from Sacramento, Calif. Darwin Samp moved and is now going to the Washington school in Medford.

Oct. 27 was B-E Day. Five business men visited our school.

Our room mothers gave a Halloween Party Friday, Oct. 28. Our room mothers are Mrs. Burns and Mrs. Marshall.

Mrs. Elva Edler's fourth grade is enjoying the standard school programs.

Several of our boys have gone out for football and doing well, especially Dennis Chapman.

Last Friday we told Frank Reagan goodby. He was going to Idaho. Monday morning we were all glad to be able to say "Good Morning" to him. He didn't have to move because his father got a job.

Mrs. Hukill and Mrs. Taskey are our room mothers. They baked cup cakes and decorated them with cats, witches, and chocolate turkeys. They served these with cider at our Halloween party.

Mr. Ruef from the First National Bank visited our room on B-E Day.

In Mrs. Audrey Berry's third grade room we made 3-D pumpkins, bats, and witches to decorate our room.

We have made a chart showing the different kinds of nuts that we enjoy. Curt Charley brought some English and black walnut leaves, nuts in the hulls, and some that have already come out of the outer hull. We have eight kinds of nuts on our chart.

Linda Casper brought a large sugar beet so that we could see how sugar looks before it is really sugar.

We are learning to borrow in subtraction.

In Mrs. Huldah Fisher's third grade we are learning how to borrow in subtraction. This is one of the big steps we take in third grade arithmetic, but we are working hard for a better understanding of it.

In science, we are learning about animals. We have learned that mammals have certain things in common. All mammals have a back bone, they have hair or fur, they are warm blooded; most mammal babies are born alive and are fed with milk from their mother's bodies.

This is report card time. Some of us have decided to do better next time.

In social studies, we have been studying about food. Most recently we have been learning about wheat and its process from the field to our table as bread.

Mrs. Margaret Mann's second grade room enjoyed having Peter Ruef and Glen McCullough visit us on B-E Day. Ruef is from the First National Bank and McCullough is from the Atkins, McCullough Insurance company.

Our room mothers, Mrs. Betty Smith and Mrs. Robert Kruggel, had a surprise for us on Halloween.

In Mrs. Aina McDaniel's second grade room, we were getting ready for Halloween. We made masks for our party Friday. Mrs. Bolls and Mrs. Carpenter are our room mothers. They planned our Halloween party.

In science, we are studying weather. We are going to make an anemometer.

We are learning to write from 100 to 200 in arithmetic.

There are two new students in Miss Mary Klocker's first grade room. They are Pamela Bryant from Florence, Ore., and Connie Clement, who transferred from Washington school.

This second six - weeks period we are beginning new readers and workbooks. In art classes, we made Halloween decorations, ghosts, witches and jack-o-lanterns. Our room mothers, Mrs. Don H. Steinmetz and Mrs. Donald Moser, planned a Halloween party for our class.

Medford business men, Glenn McCullogh and Mr. Walker, Pacific Telephone co., visited our classroom during Education-Business Day. They observed classes in reading, music and arithmetic.

Mrs. Dorothy Arney's first grade room had a Halloween party Friday. Our room mothers, Mrs. Jim Trueblood and Mrs. Joseph Madden, had the party for us. We made jumpy-jack - o - lanterns for decorations. We also made party hats and place mats.

Rodney Samp has moved away and is going to Washington school.

Our visitors on B-E Day were Mr. Chinn from Pay Less Drug Store and Mr. Ruef from the First National Bank.

In Mrs. Evelyn Winningham's room we have been writing stories about things we have done. We have been getting ready for Halloween, making decorations for our room, carving a Jack-o-lantern for our party, and decorating the tables in the cafeteria for our Halloween lunch.

Now we are starting to learn about the meaning of Thanksgiving and all the things we have to be thankful for.

Jackson School

An interesting and informational United Nations display is on the lower hall bulletin board. Dave Wisely and his students arranged the educational display.

Green and gold school hats will be here soon. The lettering will be Jackson Indians.

All the students celebrated Halloween with room parties. The home room mothers arranged and gave the parties.

We were happy to have Mrs. Doris Caldwell from Mann's store, Paul Doe from Ross Lumber company, Miss June Meredith, Pacific Telephone company, Mrs. Bernard Rice Jackson PTA president, Ruel Rians Jr., Copco, and Don McNeil, of the Chamber of Commerce as our guests for Education Business Day.

The 6M Science Reading Research is progressing. The work is integrated with the regular reading program. The 6W have started the reading program and meet at 8:15 a.m. every day, for four weeks, for an orientation period.

Aunt Jemima visited Jackson school Oct. 27. Most of the students knew of or had heart about Aunt Jemima.

Dave Wisely and the students in his home room presented an interesting UN program.

Several children from Jackson school participated in the window decoration for Halloween. This project is sponsored by the Moose lodge. The children made the first drawing on butcher paper, and transferred the scene to the windows.

Shawn Lees, treasurer for Jackson school student body, presented Mrs. Rease Braley with a $10 check for the UNICEF program. The children will help collect pennies for this cause.

The second grade curriculum parties were held in Jackson school, Tuesday, October 25, from 9 to 10:30 a.m. The parents had been extended a special invitation to visit in their child's classroom. No special program was planned. The regular morning classes were observed in action.

At 10:10 the parents met in the cafeteria for coffee and a brief discussion period. Bruce Metzger was moderator for this question and answer period. About 36 parents attended.

Jackson's Indians have given a good account of themselves on the football field this season. The squad has been made up of some 56 players, and the games have been well attended by parents.

Mrs. Angela Thompson's fourth grade won the intra mural flag football tournament. These games were held during the noon hour.

A hand tennis team of All Stars made up of the players from the fourth grade teams have been playing each of the fifth grades and Linda Emerson was the fifth and sixth grade hand tennis champion.

Because of his outstanding work in patrol work, Kenneth Murray has been named as the "Patrolman of the Month" for Jackson school Safety Patrol. Kenneth was chosen by ballot from votes cast by the patrol members, the principal, and by Safety Director Dexter Kinnaird.

LEGAL NOTICES

No. 10926
NOTICE TO CREDITORS
IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR JACKSON COUNTY
In the Matter of the Estate of BYRON N. ELLIS, deceased.
NOTICE IS HEREBY GIVEN that the above court has appointed Ivra Ellis, the undersigned, executrix of the estate of BYRON N. ELLIS, deceased. All persons having claims against said estate are hereby required to present the same with proper vouchers within six months from this date at the offices of Frohnmayer, Lowry, Hogan & Deatherage, Cooley Theatre Building, Medford, Oregon.
Dated and first published this 26th day of October, 1960.
IVRA ELLIS, Executrix

NOTICE TO MINING CLAIMANTS
Published pursuant to section 5 of the Act of July 23, 1955 (69 Stat 367).
To whomever it may concern:
PROCEEDING NO. FS 61-2 (Oregon 010487).
Notice is hereby given in pursuance of a proper Request for Publication heretofore filed in accordance with section 5 of the Act of July 23, 1955 (69 Stat. 367), and the regulations thereunder (43 CFR 185.123 - 185-127).
1. That on July 12, 1960, the Chief, Forest Service, Department of Agriculture, whose address is Washington 25, D.C., filed in the Land Office of the Bureau of Land Management, Department of the Interior, at 809 N.E. Sixth Avenue, Portland 12, Oregon, a request for publication of notice to all mineral locators or any person claiming under them involving a mining claim or claims located on lands in the Counties of Douglas and Jackson, State of Oregon, described as follows, to-wit:
Oregon 010487 (FS 61-2), the Union "B" Area, 6-SR-10-10, Rogue River National Forest, Douglas and Jackson Counties, Oregon:
Willamette Meridian, Oregon
T. 31 S., R. 1 E.: Secs. 13 to 15 incl.; Secs. 21 to 29 incl.; Secs. 31 to 36 incl.; and those parts of Secs. 9, 10, 11, 12, 16, 17, 19, 20 and 30 within the boundaries of the Rogue River National Forest T. 31 S., R. 2 E.: Sec. 8; W½ Sec. 9; W½ Sec. 16; Secs. 17 to 21 incl.; Secs. 28 to 34 incl.; and those parts of W½ Sec. 4; Secs. 5, 6, and 7 within the boundaries of the Rogue River National Forest, T. 31 S., R. 1 W.; That part of Secs. 25 and 36 within the boundaries of the Rogue River National Forest, T. 32 S., R. 1 E.; N½ Sec. 2.
2. That if any person claiming or asserting under, or by virtue of, any unpatented mining claim located prior to July 23, 1955, any right, title, or interest in the vegetative surface resources and other surface resources, under such mining claim, contrary to or in conflict with the limitations or restrictions specified in section 4 of said act, as to the above-described lands or any part thereof, shall fail to file in the Land Office of the Bureau of Land Management at 809 N.E. 6th Avenue, Portland 12, Oregon, and within 150 days from the below-stated date of first publication of this Notice, a verified statement which shall set forth as to such mining claims:
(1) The date of location;
(2) The book and page of recordation of the notice or certificate of location;
(3) The section or sections of the public land surveys which embrace such mining claim; or if such lands are unsurveyed either the section or sections which would probably embrace such mining claim when the public land surveys are extended to such lands or a tie by courses and distances to an approved United States mineral monument;
(4) Whether such claimant is a locator or purchaser under such location; and
(5) The name and address of such claimant and names and addresses so far as known to the claimant of any other person or persons claiming any interest or interests in or under such unpatented mining claim; such failure shall be conclusively deemed (i) to constitute a waiver and relinquishment by such mining claimant of any right, title, or interest under such mining claim contrary to or in conflict with the limitations or restrictions specified in section 4 of the Act of July 23, 1955 (69 Stat. 367), as to unpatented claims located after that date, and (ii) to constitute a consent by such mining claimant that such unpatented mining claim shall be subject to said limitations and restrictions, and (iii) to preclude thereafter, prior to issuance of patent, any assertion by such mining claimant of any right or title to or interest in or under such mining claim contrary to or in conflict with said limitations or restrictions. Section 4 provides, generally, that unpatented mining claims located after July 23, 1955 shall not be used for purposes other than prospecting, mining, or processing operations, or uses reasonably incident thereto; that such claims located after July 23, 1955 shall not be used for purposes other than prospecting, mining, or processing operations, or uses reasonably incident thereto; that such claims will be subject to the right of the United States to manage and dispose of the vegetative surface resources thereof and to manage other surface resources thereof; and that, except to the extent required for mining operations and uses reasonably incident thereto or to provide clearance for such operations or uses, claimants of such claims shall not use or dispose of vegetative or other surface resources thereof; and that, except for clearance for such purposes, any permitted severance or removal of timber must be in accordance with sound principles of forest management. Said section 4 also provides that any use of the surface of any such mining claim by the United States, its permittees or licensees, shall be such as not to endanger or materially interfere with the prospecting, mining, processing or reasonably incident uses by the mining claimant.
The date of first publication of this Notice shall be Oct. 26, 1960.
Dated: Sept. 30, 1960.

SUFFERS CRITICAL BURNS

Lamesa, Tex. – (UPI) – Residents five blocks away heard Homer Lightfoot, 20, scream and found him on top of a house critically burned and all his clothing charred. Lightfoot was trying to take down a television antenna from a vacant house Tuesday when it fell across a high power line and sent 12,000 volts of electricity through his body.

SKATING QUEEN–Oregon's newly crowned roller skating queen is Jeanie May Bell, 16, of Portland's Grant high school. She won the title during statewide competition at Portland's Oaks Roller Rink. Miss Bell will fly to Miami, Fla., Nov. 12 to represent the state during the National Roller Skating Queen contest Nov. 13-16 for a $2,500 scholarship as first prize. (UPI Telephoto)

Small Worlds Around Us

By Lynn M. Watkins

Fundamental Weather Fact Discovered Over 100 Years Ago

A Dutchman by the name of Buys Ballot, who lived over a hundred years ago, discovered a fundamental fact about storms that is as accurate today as it was when he observed the peculiarities of wind action in relation to storm centers.

Without the benefit of mechanical aids, or even the most meager principles of weather reports, he discovered a law of atmospheric behavior that can make anybody his own weather prophet.

By careful observation and, of course, profound thinking, he established the fact that if the observer's back is to the wind, his extended left arm is pointing toward the storm center, which would be the area of low pressure. Of course, in the southern hemisphere, the reverse would be true. But Buys didn't know that, he'd never been there.

Influences on Weather

The constant rotation of the earth on its imagined axis, along with the varying differences in the weight and speeds of air masses, all have their influence on the weather. The weather scientist today knows that the weather we have today is the result of varying conditions that existed in some distant place, yesterday, or several days or weeks ago.

The intense heat of a tropical sun beating down on vast reaches of water, expands a great amount of air which rises into the upper atmosphere, carrying with it vapor. The result may be a partial vacuum which brings the cooler air, which is heavier, in from all sides. Actually, the cold air is sliding downhill into the valleys of the ascending hot air that, being lighter, is hurrying to get "upstairs."

This action often imparts an ominous rotation to the entire mass, and forms a storm center; the part your left arm points at when you stand with your back to the wind.

Ballot's Law

This has become known as Buys Ballot's law, and was the basis of the weather predictions he was able to make long before any weather bureau was ever thought of; for he applied this "law" away back in 1855.

Since that time weather stations have been established all over the world and meteorologists know that accurate weather predictions must, of necessity, be the combination of many reports from widely separated locations, as weather is usually generated many days, and often thousands of miles from where it actually happens.

Scientific weather predictions undoubtedly would have made miraculous advances without the law of storms studied and practiced by Mr. Ballot, but let it be said to his everlasting credit that he did give to meteorology a head start, as well as giving the rest of us a very simple method of locating a storm center.

Smith Charges Mrs. Neuberger's Advertising False

Portland –(UPI)– Elmo Smith, Republican senatorial candidate, charged Tuesday his opponent, Mrs. Maurine Neuberger, was using "false and misleading advertising" in television commercials.

Smith told an East Multnomah County rally that Mrs. Neuberger "has brazenly violated all the precepts of honest advertising and ethics of journalism by implying that she has editorial endorsemen by Oregon newspapers who actually oppose her candidacy."

Smith added, "Her advertising further implies that she has widespread editorial endorsement by Oregon newspapers when as a matter of fact the papers have actually endorsed me by at least a four to one majority over her."

He said, "Our campaign office has received strong complaints from eidtors of three newspapers–the Newberg Graphic, the Canby Herald and the Beaverton Valley News–wanting us to do something about Mrs. Neuberger's implication that she has the support of these newspapers. She displays them among a stack of papers on her TV commercial."

Jackson County Needs a Man With EXPERIENCE for the Office of
COUNTY COMMISSIONER
PAUL RYNNING
Has It!

PAUL RYNNING will look after the interests of the taxpayers.
PAUL RYNNING is interested in the preservation of county resources.
PAUL RYNNING favors the development of recreational areas.
PAUL RYNNING will continue expansion and development of the County Road System.
