1950 Graduate of OSC Earns \$8,000, Study Reveals

Corvallis—The average 1950 graduate from Oregon State college now has three children, earns more than \$8,000 a year, has lived in the same place for most of the 10 years, and is sold on the value of a college education.

The information was obtained from a questionnaire sent to 1,703 of the 1,900 graduates of 1950. Answers were received from 735, or 43 per cent, of the graduates of OSC's largest class. A 1950 class reunion is planned Nov. 19 during Homecoming week end.

Occupations for the 1950'ers, 78 per cent of whom are veterans, range from agronomist and attorney to vocational guidance and veterinarian, according to Ted Hal Carlson, assistant alumni director, who tabulated the answers.

Average 10 Years

And for the 10-year graduates, the married years averaged 10 years, ranging from one-half to 18 years. Only 45 of the 735 who answered were still single, 11 divorced and 4 widowed. Of the 735, 293 were married when attending Oregon State. The divorce rate of 2 per cent is far below the national average.

Nine years in the same occupation shows the stability of the 1950 graduate. Compensation ranges from "unpaid" for the housewife to \$50,000 a year for one alumnus. Average pay is \$8,000 a year.

Fifty per cent of the graduates have lived in the same community for more than five years and 26 per cent have lived in the same area for more than 10 years.

Seventy-eight per cent of the graduates said their education had been of "great" benefit in their employment, while 21 per cent said their education helped them "moderately" and another 1 per cent said "little."

Asked if their college grades have any bearing on their occupational success, 6 per cent said "great," 40 per cent "moderate," and 28 per cent "slight," and 24 per cent "none."

LAW VIOLATORS

Chicago—Sixty-five per cent of the pedestrians killed in cities were using the streets in an unauthorized or unsafe manner, according to traffic studies.

TRUCK AGE

Detroit—An average truck was 5.6 years old in 1941. Today the average is eight years.
