

# LATIN TROOPS MOVE ON REBELS

## Kennedy and Nixon Have 'Very Cordial' Meeting

Regional Edition 55th Year Price 10 Cents  
**MEDFORD MALL TRIBUNE**  
 20 PAGES MEDFORD, OREGON, MONDAY, NOVEMBER 14, 1960 No. 204

**TAKES CHILDREN AWAY**—A New Orleans mother who identified herself as Mrs. Graf, leads her children from previously all-white McDonough elementary school after three Negro children were integrated into the first grade today. The children are, from left, Doryk, 8; Paultette, 11, and Margaret, 5, who is not yet in school but accompanied her mother. (See story on page 2). (UPI Telephoto)

### Problems of Transition Aired At Vacation Site

#### Pair Arranges To Meet in December

Miami—(UPI)—President-elect John F. Kennedy and Vice President Richard M. Nixon today had what Kennedy described as a "very cordial meeting" for about an hour at Nixon's vacation headquarters. They arranged to meet again in Washington, probably early next month.

The president-elect said he found Nixon "very cooperative" in discussing problems of the transition from a Republican to a Democratic administration and they discussed "the many problems facing the United States." Kennedy saw reporters briefly after the meeting, but Nixon had nothing to say immediately.

Speaking for the Democrats, Kennedy said, "We are assuming responsibility in a most hazardous time and I think it would be helpful to see the vice president again."

**Foreign Affairs Problem**  
 Kennedy also said he thought this was a time for bipartisanship in foreign affairs and he thought both parties respected the situation.

Asked about the possibility of using Nixon in his administration, Kennedy said, "Mr. Nixon has a responsibility as the leader of his party and perhaps he could better describe that responsibility than I could."

Asked if he had offered the vice president a post in his administration, Kennedy said they did not discuss it.

Kennedy laughed when a newsman asked if Nixon indicated he would try to run against him again in 1964.

Another asked if there was discussion of the recently concluded 1960 campaign.

"We discussed it from a professional point of view," Kennedy said amid more laughter. "I asked him how he took Ohio."

**POLITICAL RIVALS MEET**—President-elect John F. Kennedy is greeted by Vice President Richard M. Nixon in front of Nixon's hotel at Key Biscayne, Fla. Kennedy interrupted his Palm Beach vacation to visit Nixon who is vacationing at Key Biscayne. (UPI Telephoto)

### Guatemalan President Says Rebellion Halted

#### Bombardment of Positions Stopped

By United Press International  
 Government troops in Guatemala, Nicaragua and Costa Rica moved to crush armed rebel forces on their territories today.

Guatemalan President Miguel Ydigoras Fuentes announced "liquidation" of the rebellion in his country. He called off around-the-clock bombardment of rebel positions in northeast Guatemala, saying he wished to avoid useless bloodshed. He said there still was scattered resistance but called it unimportant.

In Nicaragua, one rebel group of 14 men surrendered to government troops and gave up unarmed 200 children they had held as hostages. A second rebel group fled toward the Costa Rican border in an attempt to escape.

**All-Out Assault**  
 In Costa Rica, the government launched an all-out assault against guerrilla bands trying to invade neighboring Nicaragua.

The insurgent forces were described by all three governments as Communists and "mercenaries" supported by Cuba's Fidel Castro.

Only scattered casualty figures had been published, but losses at some points were believed to be heavy.

Latest reports said loyal forces were in control in all three countries, but did not discount the possibility that reinforcements from Cuba might change the picture at any moment.

**Part of Cuba Plot**  
 Officials in Guatemala charged flatly that the week end uprisings were part of a plot hatched in Cuba to clamp Communist control on all of Cuba.

Cuban officials denied any connection with the attacks. Central America.

In Guatemala and Nicaragua rebel forces scattered by government attacks had seized hostages in the hope of insuring themselves a safe getaway.

**Wear Cuban Uniforms**  
 In Costa Rica, loyal troops were battling forces wearing the green fatigues of Castro's Cuba. The guerrillas were using the country as an assembly area and a supply base for the invasion of Nicaragua.

The rebel forces operating along the Costa Rican border were said to include bearded Cubans. Two-engine planes believed to be Cuban were shuttling in and out of the area.

### Flag Gives Nixon Belated 'Support'

Vice President Richard M. Nixon, unsuccessful candidate for President, got some belated "support" from the Russians this morning—at least according to a flag flying in Hawthorne park.

Inscribed with a large hammer and sickle the flag reads the "USSR is for Nixon." The flag, two by three feet in size, was flying on a flagpole normally reserved for the American flag.

The American flag was missing and presumed stolen. An employee of the parks and recreation department told Medford police the American flag was placed on the pole Sunday morning. It was not taken down that night, he said.

Police contacted the local office of the FBI; however, they were not interested in the case. They doubted that the flag was placed in the park with Khrushchev's knowledge.

### Hunter Finds Cache Of Dynamite, Wire

Thirty-six sticks of dynamite and two rolls of wire were found under an old shack near Gold Ray dam Sunday, state police said.

A Sunday hunter found the explosives about a mile from Gold Ray and on the road into Gold Hill, officers said. The hunter said the dynamite looked old and wet and is believed to have been there for some time.

## 8 Perish on Oregon Roads

### Computer Speeds Counting of Vote Returns in State

Salem—(UPI)—State elections director Jack F. Thompson announced today that electronic computing of state election returns has proved so successful that the division has converted.

The switch-over is effective immediately and returns coming in from counties from last week's general election are being put on cards and run through a computer in the secretary of state's accounting division. The machine was installed last year, for accounting purposes.

This will not take the place of the work the counties have to do but replaces the tedious job in the elections division of canvassing the total official vote.

### Job Cut to Eight Hours

When returns from all 36 counties are in, the elections division will be able to canvass the entire state vote in less than eight hours, Thompson said. Before, it took about two weeks to do this.

A test was made in last May's primary and was "very successful," Thompson said.

The new system will save roughly 400 work hours but Thompson said "speed and accuracy are paramount." The computer has proved to be much more accurate than the clerks.

Thompson has asked the counties to get their tallies in by Nov. 28 and if they do, the official canvass of last Tuesday's election will be completed before the end of the month.

### NO MEETING

Ashland—The Ashland City council will not meet Tuesday night, the regular meeting date. Councilmen and city officials are attending the League of Oregon Cities convention in Salem. The next council meeting will be held Tuesday, Nov. 22.

Augusta, Ga.—(UPI)—President Eisenhower, pronounced in "great" health at the age of 70, helps his wife celebrate her 64th birthday today.

### Heaviest Rain This Fall Recorded Here

Medford vicinity had its heaviest rain of the fall this morning as 38 of an inch of precipitation fell from midnight until 10 o'clock at the weather bureau station at the airport.

Today's rain brought to .83 of an inch the total amount from a stormy period which began last Thursday. Actually, two storm fronts were involved.

Snow was seen on the hills surrounding Medford this morning as the freezing level dropped to 4,000 feet and the now level to 3,300 to 3,400 feet above mean sea level.

With the week end's heavy rains throughout western Oregon came announcement from the state forester's office that fire season will end at midnight tonight. The order issued today affects the Rogue River National forest, and private lands within it, as well as lands under protection of the state department of forestry.

Permits for burning no longer will be required until fire season is decreed again.

Curt Nesheim, warden of the state's southwest district, reported that forests are too wet for slash burning after the week end storms. Rain, he said, "definitely put a damper on slash burning." He said more will be done if the weather dries off.

Robert Torheim, fire control officer of the Rogue forest, stated that the Applegate district received its "first real rain of the season." A total of .69 of an inch was reported over the week end. There has been no slash burning in the district, but it probably will begin this week, Torheim indicated. Slash burning in other districts has been completed for some time.

Torheim said that the Rogue forest received "a pretty fair soaking" from the rains. The rain in the Applegate area was the most that has fallen there since last May.

Six inches of snow were reported at Union Creek this morning and two inches at Butte Falls, according to the fire control official.

The week end rains began with .10 of an inch on Thurs-

### Train-Car Crash Instantly Kills Aumsville Family

By United Press International  
 Traffic accidents claimed at least eight lives, including three in a car-train collision, in Oregon during the week end.

The traffic safety division in Salem listed the 1960 toll to date at 402, six under the figure on the same date last year.

Three members of the William C. Gilbert family of Aumsville were killed instantly Sunday afternoon when their car hit a Southern Pacific freight train near the community of West Stayton about 15 miles east of Stayton. State police in Salem identified the victims as Gilbert, 67; his wife, Nellie, 55, and a daughter, Irene Gilbert, 26.

State police said the accident occurred when the car driven by Gilbert struck the lead engine of the train. John R. Stout, 49, Portland, the engineer, said the locomotive was traveling 25 miles per hour at the time of the crash and that the engine's warning horn was sounding when the accident occurred.

Killed in separate accidents were Grant B. Marshall, 34, Lemon, Calif.; Frank R. Jones, 29, Klamath Falls, and Oswald Newell Stock, 61, Oroville, Calif.

Marshall suffered fatal injuries early Sunday in a bus-car accident in Portland. Eleven other persons, either passengers in the car or the bus, escaped serious injury and only two were hospitalized.

Jones was killed Saturday night when his car went out of control on U. S. highway 97 about 40 miles north of Klamath Falls and went into a ditch.

Stock died Friday night in a two-vehicle accident near the Nevada-Oregon border.

Buster Norman Howard, 25, Bend, was killed Sunday night in a one-car accident just east of La Grande when the vehicle struck a bridge. The driver, W. Joseph Kemp, about 70, Portland, was killed when struck by a car Sunday evening.

### Deadline Tuesday For Tax Payments

A long line of property tax payers were lined up this morning in the county tax department. The deadline for paying county property taxes is tomorrow.

Mrs. Marjorie Brooks, chief tax deputy, said that over-the-counter receipts so far total \$1,503,281.85. Tax collections are neither ahead nor behind previous years, she said. Yet to come in this morning were checks from such major tax contributors as Bear Creek Orchards, California Oregon Power company, California-Pacific Utilities, Southern Pacific railroad and Medford corporation.

After tomorrow's tax deadline, taxpayers will be penalized two-thirds of 1 per cent a month for the first quarter, Mrs. Brooks said.

### Moderate Quake Jars Washington Seismograph

Seattle—(UPI)—A two-hour earthquake recorded as moderately strong on the University of Washington seismograph here, struck beneath the Pacific ocean about 300 miles south of Umnak Island in the Aleutian chain Sunday.

The quake struck so far out beneath the Pacific that no damage was reported to inhabited areas of the Aleutians. The tremor sent the seismograph to a point of six of a Richter scale of eight and one-half.

Prof. Frank Neumann, University of Washington seismologist, said the quake began at 3:26 a.m. and lasted about two hours.

The tremor triggered a statewide tidal wave alert in Hawaii, where 64 persons were killed last May 23 as the result of earthquakes in Chile.

There was no report of a wave being generated by Sunday's quake, but Civil Defense officials on Oahu sounded the alarm as a precautionary measure at 2:50 a.m. Other islands in the Hawaiian chain followed suit in a matter of minutes.

On most of the islands, few people had time between the sounding of the sirens and the all-clear to dress and leave their homes. But at Hilo, where the May tragedy still was a vivid nightmare, neighbors of the 64 victims were out of their homes within minutes.

"We Didn't Do So Well Either"

"We Didn't Do So Well Either"

Both women in the other car told police they heard the truck's siren but did not see any red light, nor did they see the truck until they were right on top of it. Police noted that the red light cannot be seen by cars approaching at right angles to the truck.

The fire truck sustained moderate damage to the left front fender. The car was demolished.

Each candidate must file a personal report even though a political committee is filing a report in his behalf, according to law.

### Radiant Heat Started Fire, Not Explosion, City Firemen Report

Contrary to a Saturday report, the ceramic furnace did not explode Friday at the home of Dr. and Mrs. C. W. Lowery, 200 Windsor ave., city firemen said today.

They reported that the fire was started from radiant heat from the furnace which was too close to a wall. The furnace had been opened to cool and the heat ignited the wall. Fire damaged the garage and kitchen and resulted in extensive heat and smoke damage through the entire house.

### Vote Canvass Gets Under Way Today

The official canvass of general election ballots started this morning in the Jackson county elections department.

No deadline is set for the final tabulation, but state election directions merely state "as soon as possible."

Those making the official count did not have any idea when they would be through. They said it may take them longer than usual since a record number of ballots were cast in the county last Tuesday—32,603 cast ballots for president, including absentee votes.

Meanwhile two candidates have filed their election expense accounts with the county elections department. Ed Taylor, successful Democratic candidate for county commissioner, filed total expenses of \$267, and Karl Janouch, Democratic candidate who was reelected to county treasurer, filed a total of \$158.

Taylor listed only one contributor, Dave Whittle for \$5. His major expenses were for advertising.

Janouch's major expenditures listed \$95.10 for advertising. He did not list any contributors.

Candidates for district attorney and state representative must file their election expenses with the secretary of state's elections department. All candidates have 15 days after the election, or until Wednesday, Nov. 23, in which to file their expenses.

All political organizations, parties and other contributors have a deadline of 10 days after the election, or until Friday, Nov. 18.

All individuals who contribute or expend over \$50 for political purposes must file a separate financial report with the appropriate elections official and a duplicate report with the political candidate or organization, the elections department stated.

**Records Include**  
 Candidates, political agents, committees and others filing must include in their records the name and address and amount given by persons contributing \$5 or more; and receipts or other evidence of payment for each expenditure in excess of \$9. Also, anyone receiving or spending money for a candidate or his agent, or a political organization must give a detailed account to the candidate within 14 days after the expenditure, including all receipts for payment over \$5, according to the Oregon Corrupt Practices act.
