### The Medical Roundup

by Walter Alvarez

Emeritus Consultant in Medicine  
Mayo Clinic  
Emeritus Professor of Medicine  
Mayo Clinic  
(Register and Tribune Syndicate, 1960)

There is Nothing the Matter With You

One of the common practices of well-trained and highly scientific physicians today is to say bluntly, as soon as a patient's tests have all failed to show anything, "There is nothing the matter with you." Some times the doctor who says all he needs to do, except to turn the person over to his bookkeeper so she can get her bill.

For years my contention has been that this is a very poor practice of medicine. Often the unhappy patient goes home disappointed and even frightened, because she still has her severe headache or stomach-ache as bad as ever. What is she going to do to get relief? Often, later, when I sit down for
