Televised Education Discussed at College

Asland - Televised education in the local area was discussed when Mrs. Doris Prentiss of the Oregon state system of higher education, the general extension division, met recently with the faculty of Southern Oregon college. One of the numerous problems involved in this effort to get regular college credit classes on a televised instruction basis was given by Dr. E. C. McGill, assistant to the president and director of academic affairs.

Reforestation Plan Announced by State

Salem - The state reforestation program for the coming winter contemplates the planting of some 5 1/2 million trees and the seeding of some 11,350 pounds of Douglas fir seed on state forest lands managed by the state forestry department throughout Oregon. It is anticipated that the project will cost about \$265,000. Some 4,675,000 of the tree seedlings will be planted in the Tillamook burn while 9,500 pounds of tree seed are being aerial seeded in the area. About 3,895,000 of these seedlings will be planted by crews under the direction of state forestry department personnel and a 60-man parolee crew which is available through agreement with the state penitentiary. The bulk of the tree seed and about 780,000 tree seedlings will be planted in the burn under private contract. The remaining 825,000 tree seedlings and 1,850 pounds of tree seed will be used to reforest old burns and recent cutover areas on state lands in eight different counties.

Court Records
