

Parts Embargo Threatens Cuba Sugar Grinding

Havana - (UPI) - A United States embargo on spare machinery parts will cause trouble during the forthcoming sugar grinding season, according to reports from Cuban provinces.

The grinding starts in January and already the mills have run out of replacement gaskets for heavy duty compressors. Hardwood rings are being fashioned for makeshift substitutes.

Rings Sabotaged
The same type of gaskets are being used in compressors at the Texaco oil refinery in Santiago, which the government now operates, and workers are reported sabotaging the rings by picking wood with defects.

Similar sabotage probably can be expected in the sugar mills.

Government engineers at the expropriated Esso refinery are reported having difficulties with the catalyst. This is an agent used for transforming one petroleum product into another.

Russian Catalyst Used
Formerly the catalyst was sent back to the U.S. producer for reactivation after it had been used. Since the U.S. embargo on shipment of most material to Cuba, a Russian catalyst has been used.

Oil sources say the Russian catalyst contains an excess of impurity and is giving poor results. Soviet technicians are reported trying to solve the problems.

Severe Effect Seen

The lack of machinery parts could have a severe effect on Cuba. The national economy depends in a large degree on the amount of sugar sold overseas.

With the U.S. market curtailed, Fidel Castro's revolutionary regime is seeking other outlets. If it gets them and then cannot produce enough to meet commitments this would severely cramp efforts to build up foreign confidence in the regime.

QUITS COMMISSION

Salem - (UPI) - Bill Rogers, newly elected mayor of Springfield, has resigned from the Oregon Fire commission.

THREE LOVES OF MARILYN - Marilyn Monroe, nee Norma Jean Baker, was 16 years old when she married for the first time. The man was James Dougherty, 21, who was then working in an aircraft factory, top inset. In 1954 Miss Monroe married Joe DeMaggio, center, Yankee baseball star. And in 1956 she wed Pulitzer Prize-winning playwright Arthur Miller, bottom. (UPI Telephoto)

Marilyn Monroe, at Peak of Fame, Has Desire Unfulfilled

Editor's note: This is the third and last in a three-part series on Marilyn Monroe's quest for love.

By ROBERT LILES
United Press International
Marilyn Monroe was the

hottest property in Hollywood by the mid-1950s. Audiences around the world couldn't see enough of her and what they did see set off a pandemonium of whistles and hoots. She had achieved her ambition to be a great movie star, a burning desire spawned in the run-down Los Angeles neighborhood in which she was born close by the film studios.

Still, she was not fulfilled. An early marriage to James Dougherty, the boy next door, and a nine-month match with baseball star Joe DeMaggio had not satisfied her craving for real love, a home-and-for children.

Higher Plum Sought
The beautiful and alluring Marilyn Monroe, who grew up as Norma Jean Baker through 12 foster homes and one orphanage, had made it in the movies. Now she was stretching out to pluck a plum higher on the tree.

Her first brush with intellectual life had been through reading, and as a student at the actors' lab in Hollywood where the theory of acting based on the Stanislavski method was taught.

She had forced 20th-Century Fox to make a deal with Marilyn Monroe productions which guaranteed to her fabulous salaries and the right to make independent productions.

Sought Foremost Actor
She sought the foremost actor of the British stage and screen, Sir Laurence Olivier, to co-star in a movie called "The Prince and the Showgirl."

She also married playwright Arthur Miller in 1956 in a highly touted wedding chase through New York and Connecticut. It was billed as the marriage of "beauty and brains."

The romance with Miller had been a carefully kept secret for some time before the marriage. They went to parties separately to meet casually in a group. Miller divorced his first wife, by whom he had two children, so he could marry Marilyn. She became converted to Judaism and said she felt like a daughter to Miller's father and mother.

Another Blow
During their four-year marriage she tried to have children, but three times she suffered a miscarriage. This was another blow to the girl who had become the goddess of love and who by all rights should have had all that she ever dreamed.

Marilyn Monroe's ambition seemed boundless, but her temperament had begun to be noticed by directors and others on sets and off. She was always late, sometimes as much as 24 hours for an appointment.

She would soak in the bathtub for hours and let the time slip by. And the movie star known as Marilyn Monroe would never leave her mirror until she felt she had achieved

just the right look. This sometimes took hours.

Survived Critical Brickbats
Still, her personal quirks could not dim her popularity. The movie with Sir Laurence, released in 1957, was not the best she had made, but she survived critical brickbats. Just to see Marilyn Monroe was enough.

The Millers' married life began with a prediction that this, finally, was the love Marilyn had been looking for. She compared the lanky Miller to Lincoln, whose picture she had kept on her wall as a girl.

Tiros Camera Operating Poorly

Washington - (UPI) - The trouble-plagued Tiros II storm-spotting satellite circled the earth Thursday transmitting photos of weather patterns. But one of its two TV cameras was operating poorly.

The National Aeronautics and Space Administration said the larger of the television cameras aboard the 280-pound drum-shaped satellite was giving a "poor performance." The satellite is "generally operating well," however, NASA said.

It said wide-angle photos taken by the larger camera "are not of the same good quality received from Tiros I," sent into orbit last April 1. Tiros I took nearly 23,000 cloud cover pictures.

The space agency said scientists were investigating the trouble in the wide-angle camera and hoped to have an explanation in a day or so.

Pictures from the narrow-angle camera are "of generally good quality," NASA said.

Tiros II was launched into orbit from Cape Canaveral, Fla., Wednesday. It is circling the earth once every 98.2 minutes at a height ranging from 406 to 431 miles.

LOAN APPROVED

Salem - (UPI) - Public Utility Commissioner Jonel C. Hill has approved a \$176,000 loan sought by the Blue Mountain Telephone Co. for expansion of facilities.

Five Traffic Crashes Reported in Medford

Five traffic accidents, one of them involving four cars, were reported to Medford city police Wednesday. None of the accidents resulted in any reported injuries.

The four car smashup occurred about 2:20 p.m. during heavy rain in front of Medford High school on Monroe st. Police said a car operated by Ronald Warren Myers, 17, of 1101 Woodrow lane, hit the rear of one car and knocked it into two other cars in front of it.

Police cited Myers for violation of the basic rule even though he was going only 20 miles per hour in a 25 mile per hour zone. They charged him with not having his vehicle under control.

Range of Damage

Damage to the four vehicles ranged from minor to considerable, police said. The drivers of the other three vehicles were Helen Douglas McCollom, 1425 South Whitman ave.; George Michael Monroe, 17, of 445 Old Stage rd.; and David Roy Caldwell, of 860 Wabash ave., Medford.

In another accident, police cited Emma Hanby, 40, Hood River for an improper left turn after a vehicle she was operating turned in front of a car operated by Wayne Henry Vinson, 39, Ashland, about 1:55 p.m., on Central ave. at Eighth st.

Heavy damage was done to a vehicle operated by Thomas Edward Barry, 18, of 1916 Military rd., after it collided with a car operated by Florence Arden Antony, 54, of 401 South Modoc ave., according to city police. The accident occurred about 3:27 p.m. at the intersection of Eighth st. and Riverside ave. No citations were issued.

Police cited Everett Rolland Christian, 43, of 340 Mae st., for failure to yield the right of way after his vehicle collided with a car operated by LeRoy Clive House, 71, of 215 North Ivy st., in front of Christian's residence at 1:50 p.m. Wednesday.

James Boyd Named Editor of Emerald

Eugene - James Boyd, formerly of Medford, was named editor of the Oregon Daily Emerald, student newspaper at the University of Oregon, at a meeting Nov. 22 of the Student-Faculty Publications board. He assumes his new duties next winter term.

Boyd, a senior majoring in journalism, is the present managing editor. He announced that no staff positions would be filled until next week.

Boyd is the son of Mr. and Mrs. H. J. Boyd, formerly of Medford. He is a member of Tau Kappa Epsilon fraternity.

Ottawa - the forested area of Canada is exceeded only in size by the forest land of the United States and Brazil.

A fifth accident occurred when a car operated by Robert William Warne, 16, of 31 North Orange st., rounded a corner on Oak st. and struck a parked car about 8:06 a.m. Police cited Warne for violation of the basic rule.

FREE PARKING BEHIND STORE ON CENTRAL

Easy way to do your new-car sampling—

Drive Chevy once around the block at your Chevrolet dealer's one-stop shopping center!

Just drop in and take a drive in one of the 30 spanking new '61 models your Chevy dealer now offers under the same roof. With every drive, your dealer is giving away free Dinah Shore Christmas records while they last. So hurry! And you'll find that here's the easy, one-stop way to shop for the car you want. There's a model to suit almost any taste or need—at a price to suit almost any budget. There's a whole crew of new Chevy Corvairs, including four family-lovin' wagons. New Biscaynes—the lowest priced full-size Chevrolets. Popular Bel Airs. Sumptuous Impalas. And America's only true sports car—the Corvette. Come on in and pick your new car the easy way—on a one-stop shopping tour!

New '61 Chevrolet IMPALA SPORT SEDAN

You'll see five '61 Impala models—the most elegant Chevies of all. They're sensationally sensible from their more parkable out size to their remarkably roomy in size. And note that trim roof line!

New '61 Chevrolet 2-DOOR BEL AIR SEDAN

These beautiful Bel Airs, priced just above the thriftest full-size Chevies, bring you newness you can use. Roomier dimensions reach right back to the big easier loading new deep-well trunk.

New lower priced '61 CORVAIR 500 CLUB COUPE

See what Corvaire's got in store for you in '61! Thriftier sedans and coupes with nearly 12% more room up front for luggage. That rear engine's spunkier, too, and there's a gas-saving new axle ratio for it.

New '61 Corvaire 700 LAKEWOOD STATION WAGON

There's room for almost everything but antifreeze in these one-and-only new 6-passenger Lakewoods. They're the only wagons with lockable trunk under the hood. Be sure to see the new Greenbriers, too.

New '61 Chevrolet 2-DOOR BISCAYNE 6

NOW—Big-Car Comfort at Small-Car Prices

These new Biscayne 6's—lowest priced full-size Chevrolets—let you save money in a big way, yet give you a full measure of Chevy's new roominess—larger door openings, more leg room in front, more foot room in the rear.

*Also available as V8 model
