

**Labor Program Has Chance Says Meany**

Washington - UFW - AFL - CIO President George Meany said Saturday he believed the election of President-elect

John F. Kennedy insures that organized labor's legislative program will be "favorably received" by Congress. The head of the labor fed-

eration said he did not believe the "strengthened" conservative coalition of Republicans and southern Democrats

would be able to block labor's program. Asserting that the coalition will operate under "entirely different circumstances" than

when it "frustrated" labor's efforts during the last two years, Meany said: "This time the President will be an opponent not an

ally of the obstructionists. This time the President will be a man who has personally fought for wage-hour improve-

ments, an old-age medical care, area redevelopment, aid to education and public housing."

Nova Scotian anglers took more than 5,000 Atlantic salmon during the 1958 season. There were few streams that didn't do better than their 1957 catches.

**STATEMENT from Bill Saxbury . . .**

Folks, this is my 8th Christmas Sale I have had since starting business here in the Valley. This I believe is to be the biggest Value Sale I've ever had.

Due to my self-service type of operation with no salesman employed I have been able to drastically cut my prices on good old time quality lines.

Thanks folks for your wonderful support this past year.

**Sincerely-BILL SAXBURY**
