In keeping with a state-wide program of "Lights On for Education," a meeting was held in the high school library Thursday to discuss legislative issues of interest to education in Oregon. Similar meetings were conducted in other schools in the district at the same time. Although many of the elementary schools and the junior highs reported good turnouts, the senior high group numbered less than 20, many of whom were MHS teachers.

Juniors and seniors who took the preliminary scholastic aptitude tests several months ago were notified last week that their scores had arrived. Included with each student's score was an explanatory booklet interpreting those scores in terms of national norms. The PSAT is a small preview of the scholastic aptitude tests required by many private colleges as a condition for admission. All of these tests are administered through the College Testing service.

Seniors were reminded last week that applications for "Senior Week End," an annual campus visitation for seniors at both the University of

The school's chess players returned from vacation to greet a "New Year" chess tournament being arranged by the Chess club. Those interested signed a bulletin board list, and pairings will be announced later. Play will begin as soon as the pairings are completed.

The Girls League announced last week that their choice for January girl of the month was Linda Hess. Linda is a popular, active, senior girl who is known especially for her music activities, high scholastic standing, and participation in MHS's newest competitive sport, swimming.

The first pep assembly of the basketball season was held Friday afternoon. Because of the size of the student body, only one half of the students are able to attend each assembly. The first rally was held in the boys' gym.

Semester exams will be given Jan. 12, 13, and 16. All students who have not cleared make-up time will be given F's for the exams.

A series of ski trips has been planned for January and February. For further information, students should contact Paul Evensen. Four trips to Shasta plus lessons are scheduled. The total cost will be \$22.50.

Bank Board Head Said Improving

Roseburg — (UPI) — Edward Sammons, chairman of the Board of the United States National Bank, was reported in improving condition at a hospital after suffering a light stroke Saturday.

Sammons, 89, suffered the stroke after driving to Roseburg Friday to attend the opening of a new branch bank. The investigation of his trouble will continue.

He will remain here the remainder of the week and then be brought to Portland for further treatment.

Vote on Change in Filibuster Rule Is Expected in Senate

Washington — (UPI) — Senate leaders hoped for the first test vote today in the week-long fight over bipartisan efforts to make it easier to choke off filibusters.

Foes of any change in the filibuster rule were confident they had enough votes to defeat a proposal which would curb debate whenever a majority of the members — 51 senators — approved. Agreement by two-thirds of the senators voting is required now to cut off a filibuster.

Even if the majority plan were defeated, the Senate still faced arguments and votes on a proposal to allow three-fifths of the members voting to curb debate.

The first vote was expected on a motion — not yet made — to table and thus kill the majority plan. A tabling motion is not open to debate and means an immediate vote.

Southerners, who traditionally have used the filibuster to talk to death civil rights legislation, argued at length against the rule change proposals in the fifth day of debate Monday.

Other congressional news: **Herter:** Secretary of State Christian A. Herter was called to the Capitol to give the House Foreign Affairs committee a closed-door briefing on such world trouble spots as Cuba and Laos. He gave a similar report to the Senate Foreign Relations committee last week. Afterward, committee members said his statements did not paint an encouraging picture of the international situation.

Teamsters: Senate investigators prepared to open a new investigation of alleged hoodlum control of Teamster Union locals in New York City. Teamster President James R. Hoffa will be called as a witness later. The investigating subcommittee is headed by Sen. John L. McClellan (D-Ark.), who was chairman of the Senate Rackets committee that conducted a long inquiry into teamster affairs.

Purge: Speaker Sam Rayburn (D-Tex.) and Chairman Howard W. Smith (D-Va.) of the House Rules committee remained deadlocked in their struggle for control of legislation. The two veteran lawmakers met for 45 minutes Monday without reaching a

compromise. The failure to break their impasse increased chances that Rayburn would launch a drive to purge from the rules group Rep. William M. Colmer (D-Miss.). Rayburn wants to break the GOP-Southern Democratic coalition which dominates the rules committee and has blocked welfare-economic legislation of the kind President-elect John F. Kennedy has requested.

Farm: Chairman Allen J. Ellender (D-La.) of the Senate Agriculture committee, warned that the government's farm price support program might collapse unless Congress and the Kennedy administration got together on a new plan to curb the mounting wheat surplus. The growing cost of the wheat program might persuade Congress to abandon the entire farm program, Ellender said.

Jumpy Cubans Fire On Own Airplane

Havana, Cuba — (UPI) — The Cuban press printed a terse announcement today hinting that jumpy anti-aircraft gunners may have shot down one of their own air force planes.

The stories said two officers and one civilian were killed in the mysterious crash of a Cessna plane near Varadero Airfield. They hinted that overzealous militiamen, tense from a 10-day "invasion" alert, may have shot the aircraft by accident.

The newspapers listed as having "died in the line of duty" rebel Air Force Capt. Martin Klein Schiller, 2nd Lt. Heriberto Martin Guzman, and a civilian named Osvaldo Sanchez Cabrera.

The accident drew this comment from the Communist Socialist party:

"In doubly painful tragic circumstances three members of the revolution died victims of painful confusion due to a zeal to fulfill revolutionary duties and a desire not to waste a single minute from the tasks required by the fatherland and the revolution."

Government-controlled unions today started daily anti-American rallies, which will build up Friday to a "gigantic" demonstration of support for Premier Fidel Castro against the "Yankee invasion threat."

Jesus Soto, leader of the CTC Union Federation, described the rallies as "spontaneous" demonstrations to support for Castro and his chief lieutenants and "an overwhelming notification to

Yankee imperialism of our determination to conquer our aggressors or die defending the homeland."

Individual unions will hold mass meetings in various parts of the city today, Wednesday and Thursday to drum up enthusiasm for Friday's "gigantic concentration" outside Cuba's "white house."

doctors versus printers

If you buy two newspapers daily, plus three general magazines monthly, your yearly bill for printer's ink is about \$86. That's twenty dollars more a year than the average family spends on doctor bills. It's \$48 more than is spent for drugs and medicines.

Ferry Boat Crews Strike in New York

New York — (UPI) — Ferry and tug boat crews went on strike here today, cutting off commuting service for 30,000 persons and halting barge delivery of fuel and food.

Extra buses and other forms of alternate transportation were put into operation to get the commuters to work this morning from New Jersey to Manhattan, and supplemental cargo deliveries by truck and train moved to fill the gap left by the halted cross-harbor barge service.

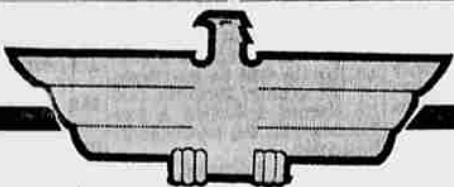

The walkout, which began at 12:01 a.m. (EST) was called when negotiations broke down despite federal mediation between three unions and 11 railroads which operate

the tugs and ferries. The 14-month-old dispute centers over contract demands on work rules and pay.

Negotiations were to resume today with both sides pessimistic in their outlooks for an early settlement.
