Behzad came to the United States three years ago and went to Sacramento, where he spent some time with his cousin. It was quite by accident Mansouri found the College of the Siskiyous. Once when passing through Weed he noticed College Ave. and, upon inquiry, found out about the college. He liked what he saw and decided to enroll.

Timber Fund Proposal Explained by Principal

According to Foote, the north state schools must band together in an attempt to prevent dividing the funds on a population basis. People in less populated areas do not have a high assessed valuation of property on which taxes have to be paid for support of schools, Foote said.

The PTA observed Found-

er's Day by introducing seven past presidents. A letter from the Siskiyou County PTA District Nominating committee was read. Mrs. James Tristram has been nominated treasurer and Mrs. Floyd Westby received nomination for treasurer of the county PTA group, according to the letter. The women accepted the nominations.

Foote asked the membership to study purchasing bleacher seats for the athletic field. He said the Siskiyou County High School district would pay approximately 75 per cent of the bleacher's cost. The remainder would have to be raised locally, he indicated. Total cost would be about \$1,200, Foote said.

Yreka High School To Sponsor Summer School

Yreka — Through the joint efforts of the Yreka Union High school district and the county board of education, Yreka High school will hold summer sessions for gifted students this summer.

At a recent meeting in the superintendent's office, the YUHS district board of trustees announced the program. Tom Preece, district superintendent, said the county would allot funds to finance the program and average daily attendance money from the state is expected to cover secretarial and library expenses.

It is being conducted on an experimental basis and students from all areas of the county will be allowed to participate.

Findings based on a grade average for nine Yreka students who entered the University of California during the last three years show a below C average for the students' first semester of work.

Students wishing to participate in school activities from now on will need their teachers' approval, according to a policy adopted by the board of trustees. The policy will be put into effect as soon as possible, Preece commented. He further stated it takes into consideration all extra curricular activities, not just athletics.

The student must have a signed approval from each of his teachers at the beginning of each week before being eligible for activities.
