

Newbry Explains 'Picketing' Bill

Salem - Senator Lyndel Newbry (R-Talent) said Tuesday that the bill he introduced to restrict picketing on farms "will permit Oregon's second largest industry to carry on its operations without third party interference."

The bill would restrict picketing activities on farms during planting and harvesting seasons to actual employees of the farmer. It further provides that picketing would be limited to an actual labor dispute involving wages, hours and working conditions.

Newbry said the bill is not designed to prohibit farm labor from using the picketing weapon where there is a real dispute, nor would it prevent organized labor from organizing farm laborers. It would, however, prohibit third party picketing for purely organizational purposes.

Newbry pointed out that agriculture differs from other industry in that interruptions in most industries result only in the loss of production and wages during the interruption, but in agriculture an interruption may easily result in loss of production and wages for an entire year.

He said the need for the legislation has been brought about by activities of the Agricultural Workers of California in that state. Harassment of farmers in California, according to Newbry, has resulted in loss of entire crops and has meant unemployment for many agricultural workers.

Endurance Record

Dunoon, Scotland—UPI—The U. S. Navy has announced that the U.S. Polaris submarine Patrick Henry set a world endurance record of 66 days and 22 hours submerged during its trip to the new American missile sub base in Scotland.

The sub's skipper, Capt. Harold E. Shears, Groton, Conn., said the time was 12 hours better than the previous record set by the Patrick Henry's sister ship, the George Washington.

Shears said they traveled more than 11,000 miles before surfacing Tuesday night.

Kennedy's War Story To Be Made Into Movie

Hollywood—UPI—President Kennedy will be the first chief executive in history to be depicted as the hero of a motion picture while still in office.

Warner Bros. Studio has announced it will produce "P.T. Boat 109" the boat captained by the President during World War II in a biographical story of his accomplishments as a dauntless skipper under fire in the Pacific.
