The Medical Roundup

by *Walter Alvarez*

After Loved One Dies Right After Family Quarrel
Every so often I see a widow who for months has been ill, perhaps feverish, much depressed, unable to do her housework. When I cannot find anything physically wrong with her, I ask her what made her so unhappy, and finally she tells me that one day she gave her meek, quiet husband an awful scolding because he had not gotten up and gone to work, or during the night she had found him in the kitchen taking a drink of whiskey.

Later, when she came back into the room she found him lying there—dead. Then, when she talked to the family doctor, he said, "But didn't he tell you that he was suffering terribly from pains in his heart? That was why he was taking whiskey to get some relief from the awful pain!" And the wife had to say, "He never said a word to me about any illness, and I did not even know he had been to consult you."

Then the poor woman became ill because she was so ashamed of what—unwittingly—she had done. As she said to me, "I would give anything to have him back for just five minutes to apologize humbly to him. Then perhaps I could sleep again."

When I talk with these unhappy women, I think of the many times when a wife gives her quiet husband a violent scolding. Probably he has an-

nyoned or outraged her; but oh, how unhappy she would be if on the way to his office, he dropped dead, or was run over and killed. Then, for all her days, she would keep saying to herself: "If only our last words had been pleasant—if only I had kissed him goodbye." I remember one very unhappy young woman who, one evening lost her temper and gave her father a terrible scolding about some money matters. He went upstairs and shot himself dead. When she went up there was a note saying: "You can get your money back out of my insurance." As one can imagine, she could never find peace of mind again.

Spring is just around the corner—and with it, for hay fever victims, a season of suffering. To know the symptoms and treatments for allergy, asthma, and hay fever, read Dr. Alvarez' booklet, "Allergy, Hay Fever and Asthma." It may be obtained by sending 25 cents and a large stamped self-addressed envelope with your request to Dr. Walter C. Alvarez, Dept. MMT, The Register and Tribune Syndicate, Box 957, Des Moines 4, Iowa.

Lenten Message

By *The Rev. Frederick H. Arterton, D.D.*

Warden, College of Preachers, Washington Cathedral, Washington, D.C. (Written for UPI)

We keep the 40 days of Lent in remembrance of Jesus' 40 days in the wilderness. As He used this time of testing primarily for the discipling of Himself, so we, as His present-day disciples, are urged to make profitable use of this concentrated and consecrated time for our own self-discipline. Interestingly, the word "disciple" means, literally, one under discipline.

To discipline oneself—make no mistake about this—is very hard to do. It involves strong and sustained determination of mind and emotions and will. It takes discipline to subject ourselves to honest self-inventory—to try to see ourselves as God surely sees us. It takes discipline to let go of long-cherished habits that harm. It takes discipline to stick to resolves we make for the future. (And it is much better to make two and to keep them, than it is to make 20 that go by default within a week.)

Really, there is just one thing that makes it possible for us to keep any spiritual resolutions we may make. And that is the certainty that when we make self-discipling resolves that are in tune with the purposeful will of our loving Father-God, we have the assurance of His ever-present support—His Grace—to help us to keep them. This Jesus discovered in the wilderness. This we can discover too!
