

### Harvey Aluminum Hearing Continued

Portland — (UPI) — Harvey Aluminum Co. has been granted a 45-day continuance on a public hearing on alleged air pollution in The Dalles area. The continuance was granted at a special meeting Tuesday after the company promised to cooperate with the state Sanitary Authority in evaluation of possible air pollution of the area by the company's plant at The Dalles. Fruit growers in the area have complained that trees are being damaged by fumes from the aluminum plant. Harvey agreed to furnish the authority with stack samples and the authority's technical staff will work with Harvey officials in evaluating samples in the company laboratory. The lab is being moved to Hood River.

Six provinces comprise the present Yugoslavia nation.

### Series of Dances Are Scheduled by DAV

A series of dances sponsored by the Jackson county chapter, Disabled American Veterans, will be held Saturday nights, starting April 8, in the Knights of Pythias hall, Fifth and Grape sts. Proceeds will help replenish the rehabilitation fund and establish a special fund by the DAV for transient indigent veterans. A snack bar will be operated by women of the DAV auxiliary.

## Merger of United Air Lines With Capital Receives Approval of CAB

Washington — (UPI) — The Civil Aeronautics board has officially given United Air Lines permission to acquire Capital Airlines, climaxing the biggest merger transaction in U.S. commercial aviation history. United plans to begin consolidated operations over Capital's routes by June 1.

The CAB's long-awaited decision will make United the nation's biggest air carrier, supplanting American Airlines in terms of route miles, aircraft, personnel and potential passenger traffic. Another 30 days must elapse before the CAB's decision becomes effective — 20 days in which objecting airlines can file petitions for reconsideration, plus another 10 days for filing of rebuttals. But the waiting period was a mere formality because the CAB was not expected to change its mind.

**To Announce Plans**  
United President W. A. Patterson planned to announce in Chicago Thursday the airline's final arrangements for consummating the merger of the country's second and fifth largest carriers.

The CAB decision joined Capital's 7,500-mile route system serving nearly 80 cities with United's 14,000-mile system going into 82 cities. United is retaining only 41 of Capital's 56 jet-powered Viscounts, the only modern aircraft in the latter's fleet. It hopes to sell Capital's DC3s and DC4s and probably will return to Pan American World Airways the seven DC6Bs that Pan-Am has leased to Capital for nearly two years.

**Will Use Jets**  
Eventually, United will dispose of all Viscounts when it acquires short-range Caravelle and Boeing 727 jetliners. It will operate the prop-jets only

### Richfield Company Has Flower Seeds

Richfield Oil Corporation, according to Ernie Kennedy, Richfield agent. Packets containing a collection of seeds from flora native to the Pacific slope and adjacent states of the west are now available without charge at Richfield outlets. The seeds are ideal to help brighten yards or other planting areas, Kennedy said.

**SHIPMENT AWAITED**—Two American helicopters, assembled for the U.S. Marines, sit on an airfield somewhere in Thailand, awaiting shipment to Laos. Five similarly assembled whirlybirds arrived in Vientiane this week and joined four older helicopters in supplying government troops manning the hard-to-find front lines in Laos. The helicopters are among 16 new ones being delivered to the Laotian government. (UPI Telephoto)
