

**Ranch and Modern Homes**

By HIAWATHA ESTES  
A really well designed home with good circulation, that can be built on a narrow lot, is hard to find. Here is such a home that not only meets these requirements but many more.

If the garage were detached and built at the rear of the house, the house itself would be less than 30 feet in width.

**Smoking Drops Among Graduates**

St. Petersburg, Fla. (Science Service)—The lowest percentage of current regular male cigarette smokers was found in the college graduate group in a study reported here.

Males who had attended but not graduated from high school showed the highest percentage of current regular cigarette smokers. Fewer women by far were found among those who inhale and who are heavy smokers of cigarettes. Cigar and pipe smokers tend to inhale the smoke to a far lesser degree than do cigarette smokers.

The proportion of cigarette smokers is less in farmers, teachers, members of the legal profession, clergymen, doctors, dentists and veterinarians than in the general population.

The study was based on a sample of 43,068 persons who answered a questionnaire including questions on smoking habits of men and women. Volunteer researchers of the American Cancer Society enrolled approximately 1,085,000 persons in a prospective study planned for a six-year period of follow-up.

Dr. E. Cuyler Hammond and Lawrence Garfinkel of the American Cancer Society's statistical research section made the study, which they reported at the Society's science writers' seminar in St. Petersburg.

**Missouri Mules Are Becoming Scarce**

Kansas City, Mo. (UP)—Missouri's once-famed mules have become so few that records on them no longer are kept, according to an annual report from the Kansas City Stockyards Co.

The report counted by the million the number of cattle, calves, hogs and sheep received last year, but there was no mention of the mule. "We just don't get enough mules any more to count them separately," a stockyard official said.

**ACTRESS' CAR CRASHES**

Atascadero, Calif. (UP)—Actress Ann Southern, 50, suffered minor injuries Wednesday when an auto driven by her 16-year-old daughter, Patricia, slammed broadside into another vehicle at an intersection on U.S. 101. The actress and her daughter were treated at a hospital for minor cuts and bruises and released.

Yet, both the interior and exterior have that big house look. The house is ideal for entertaining and still boasts virtues for everyday living as well.

The living, sleeping and working zones are clearly defined, yet hall space has been kept to a minimum. From the entry, there is access to the kitchen, living or bedroom hall.

The bedroom wing has been located at the front of the home so that both the living and family rooms face the rear yard and have access to the covered patio.

The master bedroom's private bath and the family bath are back-to-back to save plumbing costs. Both baths feature pullman lavatories.

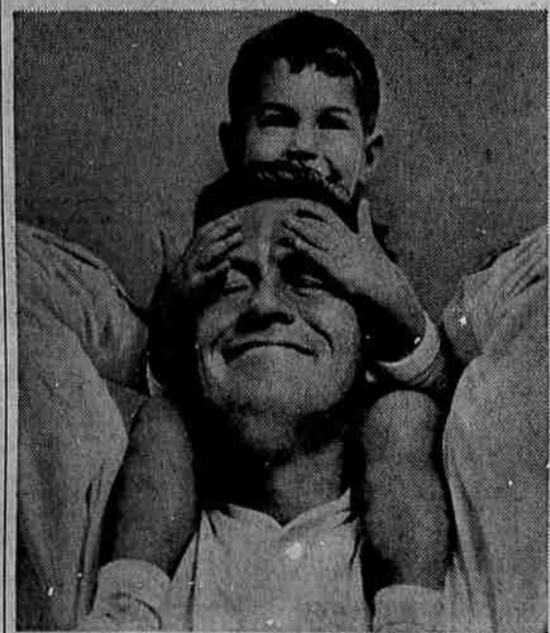

Twin beds can be used in both of the front bedrooms. All three bedrooms have roomy wardrobe closets. Note the size of the linen closet together with the extra storage closet in the hall plus the wide entry closet.

The delightful and convenient kitchen is spacious yet step-sparing. Its walls are lined with efficient work areas, built-in equipment and cabinets. An oversized eating bar and cabinets partially separate the family room and kitchen. A door leads directly from the family room to the garage where the laundry, water heater and forced air furnace are located.

Shoulder high windows are on each side of the fireplace to provide additional light and still not interfere with furniture arrangement.

The brick planter next to the roofed porch ties in with the brick veneer along the side of the house and adds accent and interest to the interior.

Complete working drawings for this plan can be purchased at a cost of \$7.50 for the first set and \$3 for each additional set when ordered at the same time. This plan will be available at these prices until April 25, 1961. Please allow two weeks for delivery. If the above home does not entirely meet with your approval, a new home plan book, Ranch & Modern Homes can be purchased for \$2. Send all orders for either plans or books to Hiawatha Estes, P.O. Box 404-T, Northridge, Calif.

**You can own this smile when you save with us**
