### Law Day Speakers Are Available

Members of the Jackson County Bar association will furnish speakers for valley schools, clubs and other groups during April and the first week of May in observance of Law Day. Organizations which wish to include a discussion of American law in their programs may contact any county attorney to make arrangements.

Law day will be observed throughout the nation May 1 by proclamation of the president and the governors of several states. This year's theme is "Liberty Under Law." The observance is planned "in order to keep fresh in the minds of the American people our valuable heritage of liberty, which is expressed and enforced by our laws."

Discussions presented by members of the bar will concern "American law, its development and the manner in which it expresses and enforces the basic principles of our society," the association reported.

If the program chairman for any organization is not acquainted with an attorney, he may address a request for speaker to Law day chairman, Suite 7, The Mall, 1005 East Main st., Medford, including the name and location of the organization, time of meeting and desired length of talk.

### Gold Ownership Is Speech Topic At Rotary Meet

The U. S., Russia and Red China prohibit personal ownership of gold because the word is synonymous with power, Norman L. Easley, Portland attorney, told Rotarians here Tuesday.

Speaking at the Rogue Valley Country club at a luncheon which climaxed the Rotary district 511 conference in Medford, Easley pointed out that gold has been an important commodity for more than 3,000 years and, because of its "durability, scarcity and acceptability," has been the base of all successful economic systems.

The speaker, whose law firm of Sitz, Easley and Whipple has had long experience in mining cases, pointed out that the U. S. has deliberately destroyed the gold mining industry in this country, while Russia is mining the precious metal around the clock and Red China is accumulating it at a rapid rate.

The Roosevelt administration took the gold from the people and put it in government hands as an inflationary "shot in the arm," the speaker said. He predicted that the privilege of gold ownership would never again return to private citizens.

U. S. gold has long been subject to international manipulation, he declared. Today U. S. reserve at Ft. Knox is \$19 billion, while foreign credits exceed \$28 billion. "It's a simple problem in arithmetic to see that we're broke," Easley said.

Because mining gold is economically impossible at the "pegged" 1944 price of \$35 per ounce, U. S. gold mining has come to an abrupt and complete stop, according to Easley. It would take five years to establish the industry again to a point that it could meet commercial needs alone for gold.

Loren Palmerton, Klamath Falls, was elected governor of district 511, Rotary International, succeeding William H. Lush.

### Police Investigate Reported Kidnaping

Buel Vesley Kincheloe, 918 Maple Park dr., told city police Tuesday evening that four persons forced him into a car in downtown Medford about 10 a.m. and drove him throughout the valley for about six hours before releasing him.

Kincheloe admitted to police that he had had "several beers" before the four young men forced him at knife point into their car at Bartlett and Main sts. He said they forced him to pay for wine purchases during the day, and was later released at the corner of Sixth and Front sts.

The man was unable to give a description of the four men or the names of any of the stores where the car stopped. Numerous scratches were found on his body when examined by a doctor, but none needed medical attention, police said.

Police checked several local taverns and learned that the man had been seen there during the afternoon. The case is still under investigation.

### Minimum Five-Year Prison Term OK'd

Salem—(UPI)—A bill requiring judges to set a minimum five-year term for persons sentenced to the state penitentiary passed the house Tuesday.

Prisoners still would be eligible for parole before the sentence was completed. The bill, which goes to the Senate, is one of the key proposals of the Interim Committee on Criminal Law.

Aim is to give parole officers time to study and plan supervision for prisoners, and to do away with some of the disparity now evident in short-term sentences.

### Skelton Declares Legislative War

Salem—(UPI)—The key sponsor of a three-way workmen's compensation bill declared total war on House opponents and said the fight is "far from over."

Keith D. Skelton, Eugene attorney and former legislator, said there will be an attempt to "force" the three-way bill from the House Labor and Industries committee by a two-thirds majority vote of the House membership. It takes that to get a bill out of an unwilling committee.

The committee voted 6-3 Tuesday night to put off action on the Senate-passed bill indefinitely. Industry is pressing for the bill and organized labor is equally opposed.

The bill would split workmen's compensation coverage between the State Industrial Accident Commission, private insurance companies and self-insurers. The state now has a monopoly on this and private companies want a crack at it.

### House Approves Salary Increases

Salem—(UPI)—Oregon's \$50-a-month representatives today voted salary increases of several thousand dollars for the governor and five other top elected state officials.

The house gave overwhelming approval to a raise for the governor from \$17,500 annually to \$25,000. Only three members dissented.

The Secretary of State, State Treasurer, and Attorney General, who now get \$12,500, would get \$15,000.

The State Labor Commissioner and Superintendent of Public Instruction, now making \$11,500, would also get \$15,000.

Approval for the bill, which now goes to the Senate, came after the House rejected a move by Rep. Mel Gordon to send the bill back to committee for an additional \$8,000 raise for the governor.
