

Cuba Victor In U.N.; U.S. Answers Khrushchev

House Passes Clinic Bill

Salem — (UPI) — Speaker Robert Duncan praised the House for its "finest hour" when it approved a pioneer community mental health clinic program Friday — but troubles loomed ahead for the bill.

Duncan described the local clinics for treatment of the mentally ill as "a tremendous step forward in the field of mental health."

The bill would provide \$300,000 to match county funds for four clinics.

"I am hopeful and confident," Duncan said, "the Senate will now take up the burden of carrying this program over the finish line."

The clinics would fit into a new mental health division, the first part of Gov. Mark Hatfield's reorganization plan to pass the House.

But in the Senate, Sen. Walter Pearson, a valiant backer of the rest of the reorganization program, was cool and non-committal.

The Portland Democrat said he would have to study the revised bill. Taking a job at the House, he declared it has been "so unpredictable I haven't had time to outguess them."

It was another sign of a House-Senate feud. Many bills supported in one House are stuck in the other. The biggest is Pearson's supported three-way workmen's compensation, locked in a House committee.

Longest Assembly Session Ever Comes To Close

United Nations, N.Y. — (UPI) — The United Nations General Assembly dealt a diplomatic blow to the United States and a victory to Fidel Castro's Cuba Saturday by blocking a plan for settling Cuban-U.S. friction within the Western Hemisphere.

The Assembly ended an all-night session at 6:02 a.m. (e.s.t.) by voting 88 to 32, with 8 abstentions, against a key paragraph in a resolution approved Friday by the required two-thirds majority of the political committee.

The resolution was supported by seven Latin American countries, Mexico, Brazil and several other countries that had intended to be co-sponsors withdrew in an anti-American reaction to the rebel landings in Cuba.

The remaining seven, Argentina, Chile, Colombia, Honduras, Panama, Uruguay and Venezuela, asked that members of the Organization of American States be requested by the U.N. to help bring about a peaceful settlement of the dispute between Cuba and the United States.

The proposal was fought right down to the final wire by Cuban Foreign Minister Raul Roa. His victory was the last official action of the 15th general session, which began last Sept. 20 with a parade of world leaders led by Soviet Premier Nikita S. Khrushchev and President Dwight D. Eisenhower.

After declaring the session at an end, Assembly President Frederick H. Boland of Ireland said it was the longest session in U.N. history but not necessarily the most fruitful. A number of items still were on the agenda when the session ended.

MORE MONEY PROBLEMS

City Revenue Shows Decrease This Year

(Continued From Page 1)

Duff estimates the total 1961-62 general fund revenue at \$905,536. With over \$500 less than they have this year then, the city administration is asked to meet the ever-increasing demands for city services from a growing city.

A few examples of these demands:

—The demand for higher salaries for city employees so that the city is able to compete on the labor market with private enterprise. There will be no salary increases this year.

—As the city grows and becomes more densely populated there is a greater demand for added fire protection.

—The crime and accident rate rises higher each year, calling for more policemen.

Record Construction

—More construction is going on in the city now than ever before, requiring more personnel in the building department to check plans and make on-the-spot inspections.

—More city park area is needed, and there is a call for increased and varied city-sponsored recreation activities.

—There are more streets in the city requiring more street maintenance and more street lights.

—Dog control and air pollution control is demanded by the citizens. Yet there are no funds with which to do either.

—Costs of everything are going up. For example, next year's needed new police patrol cars will be more expensive than last year's. (The department is already using economy cars.)

There are many, many more.

Costs City More

It should be pointed out that when a new area is annexed to the city the value of its property automatically becomes a part of the city's tax base. But, it is also true that a new area usually costs the city more in expenditures than it adds in revenues, at least for the first few years.

New buildings and other construction within the boundaries of the city do not become part of the tax base.

The city will adequately get by next year, Duff makes an emphatic point of this, and possibly even the year after that. But, it is also clear that city services are not increasing as fast as the city is growing, and the longer the city administration is asked to get along on its existing tax base, the farther and farther these city services will fall behind.

State Department Pledges Endless Battle for Rights

Washington — (UPI) — The State Department, speaking on behalf of President Kennedy, retorted swiftly Saturday to an angry message from Soviet Premier Nikita Khrushchev on Cuba.

The department announced that Kennedy has decided "not to be drawn into an extended public debate" with the Soviet ruler on details of the Cuban invasion controversy.

But on Kennedy's behalf the department pledged an "endless struggle" for attainment of "fundamental rights" and the "popular will" in Cuba and elsewhere.

Firm Policies

In broad strokes, a formal State Department statement laid down firm U. S. general policies on the Caribbean island.

"We regret," the statement said, "the right of any narrow political grouping or any country to arrogate to itself the power to determine the real will of the people."

Khrushchev in his message had challenged Kennedy on U. S. assertions for freedom, saying, "What freedom do you mean?"

The U. S. statement, read to reporters by department spokesman Lincoln White, said: "Our answer is simple. This nation was committed at its birth to the proposition that the people of all countries should have the right freely to determine their own future by democratic processes and freely to cooperate with their neighbors.

Fundamental Right

"The people of the United States believe that the right of self-determination is fundamental and should apply throughout the world."

Review Due for Intelligence Network

Washington — (UPI) — President Kennedy Saturday assigned retired Gen. Maxwell Taylor to review U.S. intelligence and guerrilla warfare capabilities in an obvious follow-up to the ill-fated anti-Castro invasion of Cuba.

The White House said Taylor, former Army chief of staff, was asked to make a speedy government-wide survey and report back to Kennedy within 60 days.

His appointment was announced after administration sources said two wrong estimates on the extent of Fidel Castro's military and political strength doomed the rebel-led invasion.

The sources said U.S. intelligence underestimated Castro's military power, his ability to mobilize it and his troops' loyalty. Castro's hold on the Cuban people, which prevented a general uprising, also was underestimated, they said.

Taylor, a scholarly ex-paratrooper decorated for heroism in combat, attended a special National Security Council meeting yesterday on the Cuban crisis.

A White House spokesman said that Taylor was not being named solely to investigate the Central Intelligence Agency (CIA), which has come under some criticism for its appraisal of the Cuban situation.

Washington — (UPI) — American newspaper editors who took part in a special poll Saturday opposed U. S. military intervention in Cuba at this time by a 2-to-1 margin. The vote was 83 to 41.

States Plan Meeting On Railroad Sale

San Francisco — (UPI) — Utilities commissioners from six western states plan to meet informally in San Francisco tomorrow to discuss the proposed sale of Western Pacific railroad.

Those planning to attend are from Arizona, Colorado, New Mexico, Oregon, Utah and Washington.

Both the Southern Pacific Co. and the Santa Fe railway have asked the Interstate Commerce commission for permission to control Western Pacific.

Record Construction

—More construction is going on in the city now than ever before, requiring more personnel in the building department to check plans and make on-the-spot inspections.

—More city park area is needed, and there is a call for increased and varied city-sponsored recreation activities.

—There are more streets in the city requiring more street maintenance and more street lights.

—Dog control and air pollution control is demanded by the citizens. Yet there are no funds with which to do either.

—Costs of everything are going up. For example, next year's needed new police patrol cars will be more expensive than last year's. (The department is already using economy cars.)

There are many, many more.

Costs City More
