

Your kitchen needn't be angular. This one, called "Innovation," utilizes a classic corridor plan with appliances lined along two walls—but the "walls" are curved. Push-button snack table rotates soiled dishes toward left to centered main sink and dishwasher. At left (see below) is the auxiliary sink, handy for pretreating clothes before they are laundered in the nearby washer-dryer combination unit.

3 DREAM KITCHENS

Aptly named "Bouquet," this kitchen encourages flower-growing under a lovely skylight. Separate units include: surface burners (see right), wall ovens at left, laundry off to right, and handsome desk.

These are really "dream-come-true kitchens" that are practical and brimming with ideas

YOU MAY FIND it difficult to believe, but standard, production-line appliances and cabinets are the foundation of these handsome, superstandard kitchens. They're superstandard because the basic appliances are supplemented with the efficient planning and thoughtful, labor-saving details which are hallmarks of efficient, contemporary kitchens—and then topped off with conversation-piece accessories. The planning emphasizes the first rules for modern kitchens—few steps between the refrigerator, range, and sink areas which are involved in three-times-daily meal preparation and cleanup chores; and convenient storage of small equipment and food at each area. The details include durable vinyl flooring; stain-resistant melamine plastic counter tops, cleaned with the swish of a sponge; and

honest lighting—be it bubble lamps (left) or strategic ceiling spotlights (below left, and below). And the accessories—these, or your own selection of treasures—are set off by the array of colors in which these standard appliances are offered. They're available in turquoise, pink, yellow, or a mellow copper which blends well with natural wood tones as well as white.

Designed in Western motif, this "Cabana" kitchen emphasizes fun and informality. An array of appliances and cabinets lines the brick-papered wall, leaving space for table and chairs, TV, and one part of a pool, which continues inside when sliding doors are opened. The conical hood over the range adds a bright note, while it wafts away cooking odors and smoke. There's even a soda fountain to the right of range. (See photo, right).

Shrinks Hemorrhoids New Way Without Surgery

STOPS ITCH — RELIEVES PAIN

For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute.

This substance is now available in suppository or ointment form under the name Preparation H®. Ask for it at all drug counters.
