

"you'd think  
they were reading  
a story book!"

# the educational books young people *enjoy* reading most

**18 OF THE MOST ENTERTAINING, MOST INFORMATIVE BOOKS EVER COMPILED ON SUBJECTS OF GREATEST INTEREST TO STUDENTS! and parents too!** Educators have often said that the best way to arouse, stimulate and develop the young mind is through facts and ideas presented in a manner that makes learning fun—not work. *Our Wonderful World* is designed along these lines. From thousands of important books, *Our Wonderful World* has taken the best written, most interesting articles on subjects determined by a nationwide study as having the most appeal and benefit for children and young adults. Each selection—carefully authenticated—is sparked with helpful, thought-provoking illustrations and set within a pleasurable, easy-to-read format. The result is a progression of fully-developed articles which unfold the story of man, nature and events in a naturally related manner—the way young people think and learn best.

*Our Wonderful World* is fully encyclopedic in its wide scope of subjects but it's excitingly different in presentation. The subjects are presented in a natural, continual flow—like a story—instead of a mere alphabetical sequence of abbreviated, unrelated items. This fascinating arrangement stimulates the reader... takes him deeper and deeper into the world of knowledge... opening doors of interest that can set the pattern for future achievements.
