A DISHWASHER WILL SAVE HER 500 HOURS A YEAR

Your wife washes 50,000 or more dirty dishes, pots and pans—plus glass and silver—every year! This year give her freedom from drudgery, 265 days of the year—give her a new G-E Automatic Dishwasher! She'll love you for it—and she'll love that

extra twelve hours a week she'll have, free to be with the family. The cost? About 10¢ a meal. So get her out from under that stack of dirty dishes—give her new leisure for Mother's Day! (She won't ask you to wash the dishes again, either).
