GARAGE PARKING - An addition to the Park and Shop parking system here is the garage building on North Front st. According to Fred Robinson, Park and Shop official, the building will be open for parking 24 hours a day. The doors have been removed from the garage, formerly the Keith Schulz garage, so that entry may be made from Front st. with vehicles leaving the building through the

alley. Robinson said that the same rates apply to the building as to the other Park and Shop lots in the downtown area. Since the program opened in August, 1959, nearly 210,000 vehicles have parked in the lots. The garage is the first building to be added to the program. Currently more than 70 stores participate in the Park and Shop program, Robinson said.

Reorganization Committee Will Meet on Tuesday

The Jackson county school district reorganization committee will meet Tuesday, May 23, in the county courthouse to consider the Barnett rd. area annexation problem, and perhaps complete some unfinished reorganization pro-

cedure, according to County School Superintendent Alf B. Mekvold.

The committee will decide whether part of the general rd. area annexation problem, and perhaps complete some unfinished reorganization pro-

nix district. It would not include the Rogue Valley Manor. The proposed shift would include the area generally north of a line east along the Charlotte Anne rd., which jogs north to keep the manor in the Phoenix district, and then extends east into the foothills. The most highly populated part of the district lies inside the Medford city limits.

Continue Final Steps

Mekvold said the committee probably will continue with final steps to make Central Point and Prospect administrative districts. The committee had been awaiting the outcome of state legislation. Now, because of recent legislation, such districts can be continued under the present school boards since no boundary changes are involved.

Further action may be taken on reorganizing such districts as Pinehurst and Ashland, Eagle Point and Butte Falls, possibly Applegate Valley and Medford, and Evans Valley and Rogue River, Mekvold indicated. The reorganization committee has been awaiting legislative action before proceeding.

No major changes have been made by the recent state legislature on the school district reorganization law. Some changes which would apply to this area are the rural school board becomes the boundary board 90 days after the adjournment of the legislature.

The rural board assumes duties of the school district reorganization committee effective July 1, 1962, according to recent legislation. According to another new law a school administrative district can be so declared without a vote. The state legislature repealed the 60 per cent vote margin required in each affected district in order for school district reorganization to be approved.

"There were quite a few changes in the law but these do not affect our county," Mekvold said.
