your
breathing

... EVEN FOR 1 MINUTE!

Pill-action found too slow for severe attacks. Discover mist medication that brings free breathing relief in seconds!

Medicated mist, inhaled into the mouth, goes directly to lungs. Acts on contact.

Unlike tablets which may take as long as a half hour to act, you feel Asthma-Nefrin's relief in less than a minute. Its instant-action medicated mist is inhaled through the mouth—speeds directly to your lungs. On contact, spasms relax, air passages open, blocked mucous plugs are released.

Easy to use and carry. Medically approved. No prescription needed. Relief guaranteed or money back. Don't suffer needlessly another day or night. Get breathing relief in seconds with AsthmaNefrin. Take this ad to your druggist today!

HOW TO STOP PIPE DRIP IN 3 EASY STEPS

1 Go to any hardware, plumbing or building supply store.

2 ASK FOR

Tongue Twisters

1. Georgie Gordon got Great-Grandmother a gorgeous green glass gadget.
2. Stacia Stacy's sick of stacking slick stacks of sandwiches Saturdays.

Let's Draw a Snail

By Ann Davidow

A tasty cream puff

With a tail

Makes a very pretty snail.

Come on Out!

By Mike Morse

Put a cloth on a table. Place a dime in the center and two nickels on each side of it. Put a glass over the dime with the edges resting on the two nickels.

The stunt is to bring out the dime without touching it, the nickels, or the glass.

Do it this way: scratch the cloth with your forefinger very close to the glass. Pretty soon out comes the dime!

Don't Get Alarmed

By Robert Beach

This stunt is great for a party. Players kneel at a starting line with hands clasped behind them. Beside each player is an empty pop bottle. Place a row of paper cups (one for each person) about 10 feet away, and put a gumdrop in each cup. A timer sets an alarm clock. When it goes off, players must scoot on their knees towards the cups, keeping hands behind them, and pick up the gumdrops with their teeth. Cups can be tipped over. Then they hurry back to the starting line and place the gumdrops in the bottles—still no hands. Those who make it before the alarm stops ringing are winners. The first to succeed, of course, should get the biggest prize!

See Anything in That Glass?

By Betty Kahn

Fill a glass with water, but secretly place a penny beneath the glass, and then cover the glass with a saucer.

Ask your friends (looking at the glass from the sides), "Do you see anything in this glass of water?" Of course they will say, "No."

Now take off the cover and let them look down from directly above the glass. There they will see the coin seemingly inside the glass of water. A good trick!

DESENEX!

compounded with undecylenic acid, a standard

Athlete's Foot Treatment used by the U.S. ARMY!

MEDICAL SCIENTISTS REPORT:

"amazing results" "dramatic improvement!"

Probably nowhere is the control of athlete's foot more important than in the Army, Navy and Air Force, with millions of men in service. Thanks to a remarkable Desenex preparation, it no longer is the problem it once was.

The treatment (undecylenic acid) is so simple and dependable, it is now a standard Athlete's Foot Treatment used by the U.S. Armed Forces!

This Desenex treatment is also most often prescribed and recommended by physicians, for it works where others often fail. It promises new freedom from athlete's foot itching, pain and danger of spreading, as evidenced by clinical studies involving over 6200 men and women.*

What Desenex does

Desenex seeks out, attacks and kills not only common athlete's foot fungi, but also checks bacteria that often cause more stubborn cases. Maddening itch is relieved, healing rapidly promoted. Simply use Desenex Ointment at night; Powder during day. It's guaranteed to work or money back! Desenex—at all drug counters.

*Clinical results were described professionally as "dramatic," "immediate," even "amazing." Key facts from these studies by leading hospitals, medical schools and clinics are available to your physician or your foot specialist.
