On the night of October 12, 1961 fire destroyed the operating center of our old elevator. Salvage and demolition of the old structure started immediately. Through the 6 months restoration period feed manufacturers in Portland, Klamath Falls, Eugene, Grants Pass and Medford "pitched in" and helped us continue our feed services. Now, with the additional investment of over \$50,000.00 we are proud to show you our new elevator which features increased speed and efficiency. Drop in and visit.

VISIT THIS WEEKEND... Coffee and refreshments for your enjoyment! See the only complete feed manufacturing plant between Redding and Eugene. Join your friends. Be among those who tour these facilities this weekend.
