

Azalea Festival Plans Announced; Parade Scheduled

Brookings — The annual Azalea Festival will get under way here Saturday, May 26, with a parade starting at 10 a.m., and coronation of the queen at Azalea State park at 11 a.m.

Other first day events include a seafood luncheon at the Sporthaven on the south jetty, and a rodeo at 2:30 p.m. at the rodeo grounds.

Events scheduled throughout the day include the Azalea Garden club flower show from 1 to 3 p.m. both Saturday and Sunday at the Azalea school gymnasium.

From noon to 8 p.m. both days there will be an exhibit of the Pelican Bay Art association in Fern street studio. From 9 a.m. to 9 p.m. both days, the Mt. Emily Gem and Mineral club will conduct an exhibit in the Veterans of Foreign Wars hall.

On Saturday from 8 p.m. to midnight, a square dance jamboree will be held in the high school gym. Square dancers from 70 clubs from Oregon and northern California have been invited.

The Sunday program includes church services at 11 a.m., when a community worship service will be conducted. The annual beef barbecue will be served at 12:30 p.m. and at 3 p.m. a Sunday concert is scheduled. All three events will be held in Azalea State park.

District Judge and Mrs. Sam Hall and Curry County Judge and Mrs. Fernley Long will assist in serving the barbecue.

Queen for the festival will be Miss Elaine Nonemaker, 17, daughter of Mr. and Mrs. Robert Nonemaker of Harbor.

Cherry Fruit Fly Appears in Valley

The cherry fruit fly has emerged in the valley and growers should spray within seven days or by May 25, according to County Agent Don Berry.

The chemicals Methoxychlor or Diazinon should be used in the amounts recommended by the county extension service. If growers do not spray in seven days the fly will deposit its eggs within the fruit, Berry said.

The extension service has installed an ultra-violet light trap at the old experiment station near Talent to trap the peach twig borer and other moths. The trap was provided by the state department of agriculture, and all trapped specimens are sent to the state department of agriculture.

The light attracts the insects, they hit a baffle and fall into a funnel attached to a cyanide jar. So far the light has attracted only tiger and cutworm moths, Berry said.

When the trap was first installed a week ago, Berry said the Talent police and county dog catcher located adjacent to the old experiment station received quite a few calls. The weird purple glow attracted the attention of passing motorists, he said.

The first pear drop came last week, Berry noted. This is normal, he said, and the pear crop still appears to be a good one, according to early indications.

Young Mothers Win Regulation Change

Yreka — A group of young mothers Thursday night won a change in regulations governing swimming instruction for children at the new municipal pool here.

The mothers complained to the Yreka city council when they discovered earlier in the week that only children from the third grade up would be accepted for swimming instruction.

After listening to the mothers' complaints, councilmen voted to lower the requirement to include children of any age who are at least 48 inches in height.

In other action, the council introduced a dog leash ordinance, providing for keeping all dogs off the streets. Owners whose dogs are picked up and impounded will pay a fine of at least \$5.75.

The resignation of Sgt. Lou Price, Yreka's unofficial assistant chief of police, was accepted by the council. Richard Humiston, a member of the city force for nine years, was moved up to take his place, and a new patrolman, Charles Eason, was added to the department.

The council also agreed to proceed with surveying in connection with improvements to Third st. between Miner and Lennox sts. Curb, gutters and sidewalks will be installed.
