

Authorities Convinced Figure in Estes. Case Was Slain

Three Suspects Said To Be Under Surveillance

Franklin, Tex. (AP)—One of the highest sources investigating the death of agriculture official Henry H. Marshall said today authorities are now convinced that Marshall was murdered, and that three suspects are now under constant surveillance.

The source said there is a possibility that the slaying was connected with the Billie Sol Estes case, with a motive of either revenge or silencing of a threat.

The three suspects have been under surveillance since the grand jury was first called last week, the source said, and one has been questioned at length. The suspects were not identified.

"I believe Sheriff Howard Stegall also now believes that it was murder," the source said.

Suicide Insisted
Stegall has in the past insisted that the verdict of suicide was correct.

Stegall, Justice of the Peace Lee Farmer, who returned the suicide verdict, and Deputy Sheriff E. P. Elliott were the first three witnesses before the grand jury today.

A preliminary report by a pathologist Tuesday indicated that Marshall, 52, the Agriculture Department official who first began checking agricultural deals of Estes, was murdered.

Dr. Joseph Jachimczyk, the pathologist who is directing the autopsy on Marshall's body, said it appears he was shot once in the back and four times from the front.

Other Injuries
Manley Jones, a funeral director who had suspected murder instead of the official verdict of suicide when Marshall was found dead in a field last June 3, said there was evidence of other injuries.

"There were indications that there had been quite a struggle," Jones said. "This had not been brought to light. There were wounds like blows from something . . . there were indications of body and facial lesions."

"There is no doubt in my mind that Henry Marshall was murdered."
FBI on Case
Texas Rangers and the FBI, armed with the latest report from Jachimczyk, resumed their investigation of Marshall's death—the latest phase of the mushrooming Estes scandals.

The autopsy was conducted Tuesday to help a grand jury investigating the case to "clear the air" and find any connection, if there is any, with Estes.

In Washington, Sen. John McClellan (D - Ark), chairman of the Senate investigations subcommittee which is now inquiring into the Estes case, said he was "not at all surprised."

Republican National Chairman William E. Miller said the tentative ruling by the pathologist further emphasized the need of a thorough investigation of the case.

Nine Holes Visible
"We need a thorough, impartial and non-political investigation of the whole sorry mess — no matter who is hurt by it," Miller said.

Stegall disagreed with Jachimczyk about Marshall being shot in the back.

There were nine bullet holes plainly visible in the body, Jachimczyk said he assumed that Marshall was shot five times and that four of the nine holes were made by bullets that went all the way through the body and came out.

The bullets were never recovered.

Stegall said the shirt that Marshall wore had two holes in its back. He said two of the bullets must have been nearly spent and did not "have enough steam left" to punch through the cloth. One of the holes is what causes the disagreement.

Stegall said threads around the hole were "pulled out" in such a way as to indicate an exit wound. Jachimczyk said it was an entry wound.

Jachimczyk said he hoped to finish his examination of the body and be able to give the grand jury a complete report Thursday.

Widow Relieved
Mrs. Marshall, who hired a private investigator because she did not believe that her husband had killed himself, was relieved.

"I hope the truth has been found out," she said. "I wanted to know the truth from the beginning."

Secretary of Agriculture Orville Freeman said last week that Marshall took some of the secrets of the Estes case to the grave with him.

Continuation of Tuesday's Selloff Pushes Stock Market Prices Lower

New York (AP)—Widespread selling pushed stocks lower today in a continuation of a selloff that sent stocks Tuesday to their lowest level in 16 months.

Tobacco was about the only group spared as wave upon wave of heavy selling hit nearly all sections, causing approximately six dozen issues to fall a point or more during the early hours of trading.

Electronics, finance shares, aircrafts, autos, foods, drugs, stores, metals, oils, cosmetics, insurance issues, entertainments, and chemicals were among those badly hit. Steels lost mainly fractions.

Among the blue chips, American Telephone, Eastman Kodak, Ford, General Electric, General Foods, Du Pont, and Sears Roebuck buckled under selling pressure.

DOW JONES AVERAGES
New York (AP)—Dow Jones final stock averages: 30 industrials 636.34, off 12.25; 20 railroads 134.73, off 1.48; 15 utilities 120.59, off 1.58; and 65 stocks 220.63, off 3.55. Sales Tuesday were about 3.64 million shares compared with 2.26 million shares Monday.

Foreign Briefs

KHRUSHCHEV TO VISIT ROMANIA
Moscow (AP)—Premier Nikita S. Khrushchev and a delegation of top Soviet officials will visit Communist Romania next month, according to the official news agency Tass. Tass said Tuesday the trip will take place in the latter part of June at the invitation of the Romanian government. Khrushchev recently visited Bulgaria, Romania's neighbor.

AGREEMENT SIGNED FOR AGRONOMIC CENTER
Paris (AP)—France, Greece, Italy, Portugal, Spain, Turkey and Yugoslavia have signed an agreement to set up an international center for advanced Mediterranean agronomic studies, the organization for economic cooperation and development announced here Tuesday.

RED CHINA ISSUES 'SERIOUS WARNING'
Tokyo (AP)—Communist China Tuesday issued its 203rd "serious warning" against alleged intrusions by U.S. warships into its territorial waters. In a broadcast monitored here, the official New China News Agency said the latest intrusions occurred Tuesday in waters south of Tsingtao in Shang Province.

800TH TON OF MAIZE DROPPED
Dar-es-Salaam, Tanganyika (AP)—U. S. Army and Air Force personnel dropped their 800th ton of maize over the flooded Rufiji Delta Tuesday. The relief operation, which has helped an estimated 50,000 persons, began three weeks ago.

UNDERGROUND CALLS FOR UNITED FRONT
Madrid (AP)—Underground opposition groups called today for a united front of all anti-Franco groups in support of 90,000 workers on strike. In manifestos circulated throughout Madrid, the clandestine groups urged the population to start "acts of civil resistance" against the government of Gen. Francisco Franco.

Disability Workshop Set at University

Eugene — A workshop designed for public school personnel who are concerned with disability, including home teachers, special class teachers and counselors, will be held from July 2-13 at the University of Oregon. Dr. Beatrice A. Wright, department of psychology at the University of Kansas, will be guest professor. Application deadline is June 1. Application forms may be obtained by writing Dr. R. H. Mattson, school of education, University of Oregon, Eugene.

BEST BET: SEE THE SMILING LITTLE INDIAN AT SIXTH AND GRAPE

Why is he smiling? Cause little ol' Chief Pontiac knows that when all three cars sell so close in price . . . and the other two raise their cost factor to pay for trips and cash bonuses . . . that he can out-trade them!

A Chevy Impala 4-dr. with 170 h.p. V-8, powerglide and heater delivers for \$3113.10. A Ford Galaxie 500 4-dr. with 164 h.p. V-8, Fordomatic and heater delivers for \$3111.10. A Pontiac Catalina 4-dr. with 267 h.p. V-8, hydramatic and heater, delivers for \$3202.34. (All prices quoted from Automobile Invoice Service Co.)

See how close the Pontiac is priced to Chevy and Ford! And we can give you more for your trade-in since we're giving no cash or trips. So you can probably buy a Pontiac for the same difference . . . and you'll get a lot more car!

THE FUTURE IS INSIDE

... the future of "COMMUNICATIONS - Key to Universal Understanding," both on and outside this planet of ours is inside the Bell System Exhibit Building at Seattle's Space-Age World's Fair. As you enter the main amphitheater, the house lights dim and you experience the feeling of being in space as you view the backdrop of shimmering stars, glowing planets and twinkling galaxies. Before you, images appear and disappear, while words and music trace the exciting evolution of communications from the first earthbound, whispered word to tomorrow's communication by satellites deep in space. In the short space of five minutes, thousands of years of telephone science have flashed by. The lights are raised and you move away from the amphitheater to explore other communications displays throughout the building. You'll see how it is possible to talk over a light beam - use sun rays for electrical power - see the telephone office of the future - test phones of tomorrow - watch machines "talk" to one another at incredible rates of speed. Other exhibits portray thrilling new aspects of communications research and development. A portion of the Building is devoted to colorful scenes of the Pacific Northwest. Here you will find a seating area where you can relax in an entertaining and restful atmosphere. The complete free tour has taken you about thirty minutes. Come in and visit us when you are at the Fair.

WELCOME

THE WELCOME MAT IS OUT... THROUGHOUT OREGON

"This summer Oregon will become a tourist corridor to the Seattle World's Fair. We will have an opportunity to impress an unusually great number of visitors with Oregon as a vacationland, as well as a wonderful place to work and live."

Gov. Mark O. Hatfield

Pacific Northwest Bell's welcome mat is out too. We are joining with others in extending a friendly welcome to visitors this travel season. We invite all loyal members of the Oregon Booster Corps to help us show visitors the wonders of our state so that they will love it while they are here and help us "Tell The World About Oregon."

PACIFIC NORTHWEST BELL
