

**ILLEGAL ENTRY**—An illegal immigrant enters Hong Kong the hard way, dashing off after forcing his way through barbed wire underneath a bridge, rushing by a Hong Kong farmer's wife doing her washing in the streams. It appeared the Communists had taken positive action to curb the refugee exodus when gangs worked, throughout the week, repairing individual breaches like this, laying down new barbed wire obstacles behind the original border fence. (UPI)

**NEW NUMBERS**—This telephone number is not that of Pacific Northwest Bell Operator Sylvia Gardner, above, nor is it a real one. It is to remind area residents that starting this morning they must dial all seven digits of the number in order to have the call completed. The all number dialing system went into effect in Medford, Phoenix, Talent, Jacksonville, Central Point and Gold Hill.

**GLARE AT EACH OTHER**—West German police (foreground) and East German police (background), each bearing arms, glare at each other through a hole in the Berlin wall Saturday after an explosion ripped the barrier. Unknown persons—possibly anti-Communists—tried to blow up a quarter mile section of the East-West Berlin wall. Although West Berlin police said they had no clues as to who set off five explosions along the wall, they did not rule out the possibility that it might have been done by an organized resistance group of East Berliners. ## County Residents Attend GP Meeting

Chester Irish, president of the Jackson County Tuberculosis and Health association, accompanied by Mrs. Irish, Mrs. Virginia Kyer and Mrs. Grover T. Mulkey attended the annual meeting of the Josephine County Tuberculosis and Health association in Grants Pass last week.

Arlington J. Ailes, administrative assistant of the State Tuberculosis and Health association, Portland, reviewed the history of the Josephine County association.

Dr. Charles Wilson, manager of the medical department in Roseburg and consultant advisor for veterans hospitals in southern Oregon and northern California, spoke on negative vs. positive reaction in tuberculin testing.

When nitroglycerine explodes, the volume of gas released is said to be 10,000 times greater than the original explosive agency.

## Study of Lumber

Washington—UPI—President Kennedy has instructed a staff aide to look into problems of the Pacific Northwest's lumber industry and determine whether it would be useful to set up an interdepartmental committee on this matter.

This was reported Friday by White House Press Secretary Pierre Salinger, who said the action stemmed from a query submitted by a newsmen who had been unable to ask the president about the situation at his news conference.
