Beauty Business Open To Women of All Ages

By GAY PAULEY
UPI Women's Editor

New York (UPI)—That over-40 stage of age often discourages the woman planning a job with a future is not just a job. But five women, all successful, past 40 and some of them grandmothers, say that age is no bar to success in their field—the beauty business. The five oversee a total of more than 100 beauty saloons in various parts of the country. Some are licensed beauticians. Others have moved into top spots without knowing much more about hair-dressing skills than how to put in a pin curl.

But all supervise hundreds of employees, including salon managers, hair stylists, hair colorists and manicurists, and deal with temperaments, talents and ages of a kaleidoscopic variety. Frequently they deal with the temperamental customer. "That's a matter of fact as taking off your hat and coat when you get to work in the morning," laughed Else Sieff, supervisor of about 30 salons in department stores and specialty shops in the New York area.

Age No Handicap
Age is no handicap in a beauty culture career, if you have devotion to the duty, love your work and the challenge it offers," said Mrs. Sieff.

"Of course," said Jill Harrison, supervisor of 32 shops in the Philadelphia, Baltimore and Washington, D.C., area. "Your chances are better if you've had previous experience in business. You don't just move in, as a supervisor, from 25 years of keeping house."

"Anyone coming into the field must... like people," said Rosemary Clark, supervisor in the Los Angeles area. "You have to like them even better if you want to last 21 years as a supervisor." She has, and encouraged other women to enter the field.

"Every job gets discouraging at times," said Pauline Fox, supervisor of salons in Atlanta, as far south as Miami, and north to Washington, D.C. "But I don't know of a field with a better future for women."

Said Grace George, a San Franciscan with 33 years in

the beauty business, "Age doesn't interfere with success in this work as it does in many other jobs."
"Women as a rule are better supervisors than men, because men look at a customer's costume. Women look at her hair," said Iris Segal.
Miss Segal is a vice president of Seligman & Latz, a 50-year-old firm operating a chain of salons internationally. She is the one who has the overall assignment of selecting supervisors, some of whom earn \$15,000 a year and higher.

Requisites For Job
She said a supervisor should like people and must be fairly free to travel because not only does she visit established salons regularly but she opens new ones.
"But a career in the beauty field holds promise, too, because the business itself is burgeoning internationally," she said. And new supervisory personnel will be needed.

"We talked with two of Miss Segal's supervisors personally; the others gave their views by letter.

Mrs. George, grandmother of three, recalled that she started after graduation from Tulane University and at a time when "my family protested... they thought only women of questionable character went into the beautician's profession."
"Today," said Mrs. George, "salons are sounder, more fascinating and have more future than ever before." Her advice to others coming in: "The only pitfall is to think it's easy. And don't go into it for the glamour. The glamour is all on the customer's side of the fence."

Birthday Party Honors Woman; Relatives Here
Trail—A surprise birthday party for Mrs. Byron E. Craven was given recently at the home of Mrs. Lynn Bronson. Refreshments were served, and gifts presented to the honored woman.

Another surprise for Mrs. Craven was the visit of her two sisters and a brother-in-law, Mr. and Mrs. Ruskin Golden, who arrived from Miles City, Mont., and Mrs. Harvie Roberts, who came down from Portland. All continued to Hawthorne, Calif., to visit the sisters' mother and father, Mr. and Mrs. Gustave Schultz. Mrs. Craven will stay there for a week.

Many Travel to Eugene For Philadelphia Concert

A concert in Eugene yesterday afternoon by the Philadelphia orchestra under the sponsorship of the Eugene Civic Music association drew a large number of members from Jackson county. They were part of an audience of several thousand music lovers from all over the state who heard a program of fine music superbly played under the direction of one of the nation's most outstanding conductors, Eugene Ormody.

Conductor Ormody, known for the "opulent tones" which he achieved with his large group of perfectly trained and talented musicians, opened yesterday's program with the tone poem, "Don Juan" by Richard Strauss.

The orchestra's major offering was the Beethoven "Symphony No. 7 in A Major, a composition which was first played in Vienna in 1813 at a benefit concert for wounded Austrian and Bavarian soldiers. Beethoven himself conducted the work, considered the most joyous of this composer's nine symphonies, and he was known to have referred to it as "one of my very best."

According to the program notes, this symphony has been given countless and widely varying interpretations and "well-nigh expresses the inexpressible." If Beethoven thought his Seventh Symphony one of his best, surely he would have given a nod of approval yesterday for the Philadelphia orchestra and Conductor Ormody's interpretation as one of the best. The audience approved it with thunderous applause.

Offering a sharp contrast in mood and period was the third number on the program, "Night Music" by George Rochberg, an American contemporary composer. This evocative work features beautiful solo passages for the violin and the gifted Lorne Munroe. As is often the case, the audience was less responsive to the contemporary music, even though it was played with exquisite feeling and perception.

The arranged program closed with another composition by Richard Strauss, the Suite from "Der Rosenkavalier." Surely few other works

are better suited for use as a closing number for a concert for thousands of listeners of all ages and tastes. This suite is lyrical, colorful and utterly delightful and Conductor Ormody and his great group brought the audience to its feet with the closing passages.

After many returns to the podium to acknowledge the persistent applause, Conductor Ormody led his musicians in Bach's "Arioso" as an encore selection. It is not everyone who likes and appreciates Bach's music, but when it is "sweetened" by the Philadelphia orchestra, no one could resist it.

Many in Medford will be interested to know that yesterday a spokesman for the extremely large Eugene Civic Music association said that he deplored the fact that the famous orchestra had to play in such an unsuitable place—McArthur court, and added that civic committees are at work on plans for an auditorium to house such attractions. These are familiar words.

Whatever the circumstances of time and place, Oregonians were fortunate to have been able to hear such a program as was given in Eugene yesterday. O.S.

Tasty Box Lunch Made With Tuna Salad

New York (UPI)—Fresh vegetable-tuna salad, spooned into individual paper containers, makes a tasty dish for lunch box carriers. Drain 1 (7 ounce) can of tuna. Toss lightly with 1/2 cup of cold cooked fresh snap beans, drained, 1/4 cup each of diced celery and shredded carrots, 1 teaspoon each of salt and fresh lemon juice, and 1 1/2 teaspoon of ground black pepper. Spoon into 4 paper containers large enough to allow for mixing with dressing. Pack separately in 4 small covered paper cups 1 tablespoon of mayonnaise or salad dressing. Mix dressing in lightly before eating.

Flipped

New York (UPI)—We Americans ate nearly 200-million home-baked pancakes during the first two months of the year—one-fifth of all the home-baked pancakes we eat throughout the year. Several candid pictures of the bride and bridegroom cutting the cake are more apt to produce good results than one carefully posed picture.
