

Recreation Report Of National Forest

Applegate District — Many of the roads and trails are still blocked by snow in the high country of the Applegate district. If the weather improves they should be open soon. Roads now open may be difficult to drive during and immediately following rainstorms.

Fishing has been fair in Squaw lakes and in the Applegate.

Ashland District — Fishing at Fish lake continues good in spite of poor weather. Stream fishing is reported poor. Facilities are available at Fish lake for picnicking, camping, and house trailers. Cabins and trailer space may be rented at the Fish lake resort.

Daley creek and Beaver dam picnic grounds are open. Picnic facilities and piped water are provided at these sites. Camping is permitted. Mushroom hunters are having success on the district in exposed areas up to about 4000 feet in elevation.

The Big Elk rd. has been graded and is in good condition. The Mt. Ashland Loop rd. beyond Bull Gap, the Fish Lake-Lake of the Woods rd., Fourmile Lake rd., the road from Dead Indian - Soda Springs to Big Elk guard station, and the Owens rd., are still closed.

Butte Falls District — The mountain lakes are free of ice and should provide some good early-season catches. Carey Lake and Pear Lake should be especially good.

The Black Bear rd. is open and in good condition. The Blue Rock rd. is partially open but is in poor condition.

Several feet of snow remain on the trails leading into the mountain lakes but should be packed enough for easy walking.

Births

DEVOS — To Mr. and Mrs. Jimmy, 20 Kenwood, Medford, June 1, 1962, a girl, 9 1/2 pounds, at Rogue Valley hospital.

GOODRICH — To Mr. and Mrs. Robert, 1464 South Ivy st., Medford, May 31, 1962, a boy, 7 1/2 pounds, at Rogue Valley hospital.

GENAW — To Mr. and Mrs. John R., Maple lane, Gold Hill, June 1, 1962, a girl, 5 1/4 pounds, at Rogue Valley hospital.

HUSSEY — To Mr. and Mrs. Marvin, 2712 Merriman rd., Medford, June 1, 1962, a girl, 8 1/4 pounds, at Rogue Valley hospital.

All campgrounds are open and in good condition. Rehabilitation of Snowshoe and Willow Prairie campgrounds will start soon. The work will involve the installation of new tables, stoves, and toilets. A closed-pipe water system will be installed at Willow Prairie campground.

Many wildflowers including dog-tooth violets, hyacinth, flowering dogwood, and trilliums are in full bloom.

Prospect District — The main roads on the district are open and passable to sedans, except at elevations over 4500 feet. Most of the unrocked roads are still soft and should be avoided.

Fishing has been fair in the streams. The weather has been cold at night and cool during the day. As a general rule, the temperature has been 10 to 12 degrees cooler than that recorded at Medford.

Union Creek District — Most forest roads on the Union Creek district are closed by snow at some point. Forest roads at lower elevations are free of snow below the Diamond Lake junction. All of the Mt. Stella rd. is now open.

The district is still plagued with cold weather and high water making fishing conditions fair. Reported catches were few and only fair.

With the exception of Huckleberry mountain all campgrounds are now open. Campers are advised to have plenty of warm clothing. Beckies Cafe is now open 7 a.m. to 8 p.m. (PST). Tourist accommodations are available at the Union Creek resort.

Portland Livestock

Portland—(UPI)—USDA—Weekly livestock: Cattle 1400. High good steers 21.25, mixed good steers 20.75, mostly choice heifers 20, standard good heifers 21-25.30, canner-cutter cows 12-13; utility bulls 19-21.30.

Calves 280. Standard slaughter calves 23-25; medium-good feeders 25.

Hogs 1380. U.S. 1 and 2 butchers 18-18.50, whole 270-330 lb. 12-16, sheep 2700. Slaughtered lambs 20-20.21 for choice-prime; No. 1 per 13.50-16; utility shorn old crop lambs 13-15; ewes cull-good 2-4.

Portland Produce

Portland—(UPI)—Dairy market: Eggs—To retailers: AA extra large 38-42, AA large 35-40, A large 34-37, AA medium 29-35, AA small 24-29; cartons 1-3c higher.

Butter—To retailers: AA and A prints 67c; cartons 1c higher; B prints 65c.

Cheese (medium cured)—To retailers: 48-49; processed American 49-50 lb. loaf, 48-49 lb.

Portland—(UPI)—Dressed chickens—No. 1 grade dressed to retail: Fryers, whole drawn, 31-38c; cut-up, 30-42c; lbs. hens, light type, whole drawn 23-26c; B, light type, cut-up 26-34c; heavy whole 38-39c lb.

PRESIDENT'S RETREAT — President Kennedy will seek more privacy during his summer vacation this year by using the summer home of singer Morton Downey on Squaw Island, at Hyannis Port, Mass. White House sources said the President would turn over his summer house in

the Kennedy compound at Hyannis Port to his sister and brother-in-law, Mr. and Mrs. Sargent Shriver. The President's family will occupy the 2 1/2-story Downey cottage, shown above, for about a month beginning around July 4. (UPI)

Motel Owners Holdup Victims

Two men held up the owners of the Bear Creek Motel on Highway 99 south of Medford about 12:45 o'clock this morning and took approximately \$100, according to state police.

Police issued an all-points bulletin with a general description of the men about an hour after the hold up. Road blocks were maintained most of the night, officers reported.

Because neither man wore a mask, state police were able to get only a general description from the motel owners, Mr. and Mrs. Harry Morris Watson.

The two men, one young and the other older, entered the offices as if to rent a motel room, Watson told police. As Watson turned to get a registration card, one of them pointed a gun and demanded money.

Both Mr. and Mrs. Watson received several blows about the face and head, police said, but they did not require hospitalization.

The couple was tied up with strips torn from a pillowcase. Watson untied himself later, and called state police shortly after 1 o'clock this morning.

The money was kept in a drawer in the motel owners' bedroom. The couple could not describe the gun other than to say it was a revolver.

South Vietnamese Pursue Guerrillas

Saigon, Viet Nam — (UPI) — South Vietnamese troops today were reported in pursuit of Communist guerrillas who invaded a leper colony and kidnaped three American missionaries, including a woman doctor.

A U.S. Embassy spokesman said Vietnamese army units at Ban Me Thuot, about 200 miles north of Saigon, had started a search in the rugged mountainous terrain covered with lush rain forest.

Some jungle-trained members of the U.S. Army Special Forces are stationed at Ban Me Thuot, but it was not known if they were participating in the search. They are instructing Vietnamese in jungle warfare.

Little World's Fair To Open on Saturday

Damascus, Ore. — (UPI) — The Little World's Fair opens here Saturday—and it's hoping to erase one Seattle World's Fair record right off the bat.

"What we'd like to do is beat Seattle's opening day attendance of 50,000," said Garland Wiley, chief promoter of the fair, recalling that Damascus drew 85,000 during one day of its Little Centennial three years ago.

Interim Committee Votes To End Rural School Districts

Salem—(UPI)—The Legislative Interim Education Committee late Thursday approved a bold step in the structure of Oregon education—abolition of all rural school districts, and all county school superintendents.

They're outmoded, the committee agreed. "Taking their place would be 'intermediate' education units that would operate generally as the county offices do now, but in a more streamlined way.

County school superintendents would become intermediate superintendents, and they would operate under streamlined conditions too.

The vote was unanimous. Several of the committee's nine members were absent, but those who were absent have indicated they favor such a proposal.

Before 1963 Legislature it will go before the 1963 legislature.

Instead of rural school districts and boards, there would be intermediate school districts and boards. The new districts, like rural ones now, would be made up of various local school districts. But county lines could be disregarded. This isn't done now.

The power of rural districts to levy taxes would be transferred to the new intermediate units along with other functions.

A motion to let the State Education Department set the standards for intermediate units was defeated 5-1, with the one yes vote cast by State Sen. Al Flegel, (D-Roseburg). Voting no were State Sens. Ben Musz (D-The Dalles) and Carl Francis (R-Dayton) and State Reps. John Dellenback (R-Jackson), Carrol Howe (R-Klamath Falls) and Joe Rogers (R-Independence).

Aid Motion Defeated

Also defeated was a motion that would have given state

Oregon To Graduate 1,892 on June 10

Eugene—(UPI)—The University of Oregon will graduate its largest class in history June 10.

There are 1,892 candidates for advanced and baccalaureate degrees.

STRIKE AVERTED

Astoria—(UPI)—A possible strike which would have tied up ferry service over the mouth of the Columbia river was averted Thursday night.

Museum Month Set During June

Jacksonville — June has been designated as Jacksonville Museum Month, and area residents have been encouraged to visit it to "relive the colorful days of the old west."

Miss Mary Hanley, curator, pointed out that there are more than 6,000 individual collections exhibited in the museum, which is housed in an old brick building formerly used as the seat of Jackson county government.

Among the more popular exhibits, Miss Hanley noted, are the Britt Gallery, a replica of Peter Britt's photographic studio, and the Indian room, which contains artifacts and relics made and used by valley Indians.

Also popular are the Gun room, mineral displays and fluorescent room, a children's room, parlor, a collection of wedding dresses and a Civil War exhibit.

The museum is administered by the Southern Oregon Historical society. About 466,000 names appear on the registration book, Miss Hanley said, representing visitors from throughout the country and the world.

Russians Applaud Benny Goodman

Moscow—(UPI)—Benny Goodman warmed up Muscovites Thursday night with jazz renditions of some old Russian favorites and then brought the house down with a swinging arrangement of "One O'Clock Jump" that had the crowd shouting for more.

Russian jazz enthusiasts, who packed the 4,600-seat Sports Palace of Moscow's Central Army club, shouted, whistled, clapped and cheered as the "King of Swing" and his 17-piece orchestra gave their interpretations of "Katyusha," "Moscow Nights" and "The Red Army Song."

Vocalist Joya Sherrill helped Goodman open the segment featuring Russian tunes by singing "Katyusha" — in Russian. The audience, which had seemed somewhat restrained up to that point, applauded wildly.

When the rhythmic applause died down, the singer stepped to the microphone to express her gratitude. "Thank you so much," she

Two Firms High Bidders on Forest Service Timber

Stanley Cook of Ashland was high bidder this week for 630,000 board feet of national forest timber in the Powerline area. Ashland ranger district, Rogue River National Forest.

Forest Supervisor C. E. Brown reported the high bid totaled \$18,745, compared to the forest service appraised price for the timber at \$10,517, an increase of 59 per cent.

Next high bidder in the oral auction for the timber was Brecount Brothers of Grants Pass. Other bidders were E. L. Robertson, Cliff Green, and Duane Burton.

The timber in this unit consisted of 250,000 board feet of Douglas fir, bid in at \$41 per thousand board feet; 70,000 board feet of Shasta red fir bid in at \$17.50 per thousand board feet; and 310,000 board feet of white fir and other species, bid in at \$17 per thousand board feet.

On May 29, Cheney Forest Products of Central Point was high bidder for 8,210,000 board feet of national forest timber in the Skyline Mine area, Ashland ranger district. Brown said the high bid totaled \$138,181.50, compared to the forest service appraised price of \$120,720.50, an increase of 14 per cent.

Next high bidder in the oral auction for the timber was Timber Products company of Medford. Other bidders were Double Dee Lumber company, and Kogap Manufacturing company.

The timber in the unit consisted of 2,950,000 board feet of Douglas fir, bid in at \$15.35 per thousand board feet; 3,760,000 board feet of ponderosa pine, bid in at \$18.25 per thousand board feet; 570,000 board feet of ponderosa pine, bid in at \$18.25 per thousand board feet; 570,000 board feet of sugar pine, bid in at \$31.50 per thousand, and 930,000 board feet of white fir and other species, bid in at \$6.80 per thousand.

Products of Central Point was high bidder for 8,210,000 board feet of national forest timber in the Skyline Mine area, Ashland ranger district. Brown said the high bid totaled \$138,181.50, compared to the forest service appraised price of \$120,720.50, an increase of 14 per cent.

Hepatitis

Many people have written to ask me what is the probable cause of infectious hepatitis and how does it go from person to person. First, perhaps, I should say that there are two main types of hepatitis, one the infectious, which is a disease which has been known for many years and usually has been fairly mild. It is due to a special virus.

Then there is another often much more serious type of "serum hepatitis" which is due to another virus. This dangerous disease is likely to follow the use of poorly sterilized hypodermic needles or lancets or the giving of transfusions of blood, or injections of blood plasma. The great increase of late in the incidence of serum hepatitis is due probably to the fact that transfusions have become so popular and also, so many doctors give shots for this and that.

Recently, it was found in one of our large cities that many of the patients who had been given "shots" by a certain irregular practitioner came down with serum hepatitis, and some died. In court, some of the patients testified that they had noticed blood on the needles, which showed that they not only hadn't been sterilized, they hadn't even been washed. On the basis of this evidence, the "doctor" is reported to have been given a stiff jail sentence.

Virus Hard to Destroy

In recent years, we doctors have learned that the virus of the severe serum hepatitis is hard to destroy, and hence we cannot any longer trust to throwing used hypodermic needles into some carbolic acid or lysol or alcohol; they should be sterilized for some time in super-heated steam.

In many places today, wise physicians and laboratory workers are using "throw away" hypodermic needles and lancets, which were sterilized in the factory and, of course, were never used before.

In a recent issue of the Journal of the American Medical Association, there is an article by Drs. M. E. Rindge, A. O. Mason and W. R. Elsea reported an epidemic of the usually mild infectious hepatitis which occurred in a school in a small town in Connecticut. The evidence indicates that the source of the infection was water drawn from one of the wells which was used by some of the pupils of the school.

This water was contaminated from a nearby "septic tank" into which sewage ran. The evidence showed that social contacts did not spread the disease.

The children who went to school every day in the same bus, and spent hours in the same bus, and spent hours in the same classroom escaped the infection if they hadn't drunk the infected water. As so often happens in places where there are no sewers, a septic tank was dug too close to the well that supplied the drinking water.

A point which is
