Gifts, Course Announced For Museum

Eugene - Gifts to the University of Oregon's Museum of Art, scheduling of a museum art appreciation course, and standing committee chairmen were announced at a recent meeting of the executive committee of the Friends of the Museum.

Through the Friends of the Museum a total of 26 gifts have been added, since 1959 when the Friends were organized, to the permanent collection of the museum, according to Dr. Wallace S. Baldinger, director of the museum of art. Values of these gifts totals \$27,545 Dr. Baldinger said.

A two-hour non-credit art appreciation course will be offered at the museum this fall under the auspices of the Friends, announced Mrs. E. Charles Pressman, chairman of the Board of Governors of Friends.

Mrs. Pressman, chairman of the activities committee during the past year, said that the course will be given by Mrs. Wallace S. Baldinger and will be held in the museum library. Dates of the course, meeting on a once-a-week schedule, will be from September 24 through November 26. The registration will be limited to 25, with registration held through the Eugene offices of the general extension division of the state system of higher education.

The executive committee discussed possibility of a traveling tour from the museum's permanent collection. This tour would be planned to take small exhibitions to principal cities of the state. A sub-committee was appointed to work on details of the tour.

Chairmen of the special committee for the Friends of the museum annual dinner are Mr. and Mrs. Edwin Cone and Mr. and Mrs. Ehrman Gustina.

A William Russell Memorial committee was set up, under the chairmanship of Robert Wilmsen, to establish a memorial to the late Eugene who was instrumental in the organization of Friends and its first president.

Visit Mother

Ashland - Mrs. Robert Sheridan and children, Ruth and Scott, of Portland spent last week end in Ashland with Mrs. Sheridan's mother, Mrs. Charlotte Froman, 141 Church street.

Greetings in five languages welcome visitors with a vividly colorful tufted scatter rug as a hospitality symbol and an easily used decorator note for the entrance.

Small Rugs Are Popular Used 'Piggy Back' on Carpet

The little rug is not "back" because it never really went away. But small tufted rugs today have hit a new high in popularity as decorators lavishly use them "piggy back" — that is, rugs-on-rugs and rugs-on-carpet.

It's not a new idea! Home-makers are just relearning the sparkling trick of using interesting tufted scatter rugs from the decorators.

Grandmother in her day looked on it as a practical means of controlling wear, adding an easy-to-clean throw rug. Today's designers, however, have made little rugs not only practical but so eye-appealing that it's hard to resist piling rugs on rugs.

Whether you use tufted scatters as a practical measure or for sheer luxury, small rugs have brought new perspective to the world of home furnishings.

Inexpensive Design The little rug, or maybe you prefer calling it a scatter rug, can be a small, inexpensive design used at the front door to catch the brunt of shoes which track in dirt. Or it can be a work of art, adding a flamboyant splash of color and design to a particular area.

Whatever its use, today's small rugs are oh-so-bright and interesting! Members of the Tufted Textile Manufacturers association today offer small rugs ranging from soft,

handsome colors that rely on texture for their design to riotous coors obviously conceived to excite admiration. Colors run rampant.

You also have a stunning assortment of sizes and shapes to choose from today: flowing freeforms, gigantic sunbursts, animals, clocks, maps, elongated runners; truly a small rug for any spot, any purpose. All have the virtue of beauty and practicality.

For today's small tufted rugs are made of rugged fibers that can be tossed into the washing machine for washing after washing.

Piggy Back Rugs The growing use of rugs "piggy back" makes good sense. The elegance of wall-to-wall carpeting offers the homemaker the practical aspects of warmth, quiet, and incredibly easy care. But any room has certain areas which take abusive wear. Rugs, used strategically, not only add interest but ease the wear of carpeting.

Actually, this is true of any floor—wood, vinyl, or stone —so don't deny yourself the joy of small rugs if you don't have carpeting. For pretty and practical small rugs are enjoying a heyday that probably will continue for generations to come.
