MODERN TILE TELLS WHY IT CHOSE NEW CHEVROLETS:

John Gomer knows that Chevrolets are tops. "We have a fast-growing business in a brand new building. We were fully aware that an expanding growth required transportation to match—a fleet of trucks that were dependable, rugged, easily and quickly

serviced and very modern in styling and engineering. All the requirements were met in the Corvans . . . and instead of paying more, we actually payed less. The Corvans are on the job now, proving their worth with hard work day after day."

For family fun or on-the-job . . . there's a Chevy "just right" for you!
