The Rogue river, one of the state's most famous fishing streams, rises near Crater lake and flows through Klamath, Jackson, Josephine and Curry counties to the Pacific ocean.

Telstar Satellite Launch Successful

Communications Moonlet Begins New Radio-TV Era

Device Achieves Planned Journey

Cape Canaveral –(UPI)– The United States successfully rocketed the world's first international communications satellite, Telstar, into orbit today in an effort to open a new era of global radio and "live" television.

The 170-pound moonlet began a wide-swinging journey around earth within 10 minutes after its launching at 12:35 a.m. (PST) aboard a three-stage Delta rocket.

Circling earth every two hours and 20 minutes as a "switchboard in the sky," Telstar was expected to bring a future in which radio and "live" television programs will be relayed around the world by space stations.

Facts about the Telstar communciations satellite will be found on page 2A.

Launched by NASA

The $1 million satellite, owned by the American Telephone and Telegraph Company and proposed by a scientist who writes science fiction stories, was launched by the National Aeronautics and Space Administration at a fee of $2.7 million. It is considered one of the most significant advances in communications since the invention of the telephone 86 years ago.

The Federal Space Agency confirmed that "the Telstar communications satellite is in orbit."

Close To Planned Orbit

In Washington, NASA said the orbit achieved by Telstar appeared to be almost exactly the planned one. The intention was to send the satellite into a path ranging from about 600 to 3,500 miles in distance from the earth. It was to complete a circuit every 160 minutes.

Preliminary rough calculations indicated the spacecraft was circling the globe every 157.8 minutes in an orbit ranging in altitude from 593 miles at the low point to 3,502 at the high. The angle of inclination to the equator was 44.7 degrees, compared to a planned inclination of 45.

It was the 10th straight successful launch by NASA's Delta rocket.

KBES-TV (ch. 5) will show the launching of Telstar from Cape Canaveral, Fla., at 6:30 tonight. The program will be shown by KMED-TV (ch. 10) at 10:15 tonight. Both programs are expected to show pictures relayed from the satellite if the quality is good enough for transmission to home viewers, according to word from the networks.

40 Men Attend Reserve Meeting

About 40 men attended a recruiting meeting of the Jackson county sheriff's reserves last night in the county courthouse, according to Sheriff Paul Bettiol.

The reserves are being reorganized to provide manpower for civil defense emergencies.

Recruiting and training projects are being prepared.

Bettiol said more men are needed. To qualify an applicant should be from 21 to 45 years old, in good physical condition, have had no arrests, be available during emergencies and be of good moral charcater.

Planners To Discuss Revised Zoning Plan

A revised development pattern and zoning ordinance for the Southwest Phoenix interim zoned area will be discussed at the meeting at 8 p.m., Wednesday, July 11, of the Jackson county planning commission in the county court house.

Also on the agenda will be action on a zoning ordinance for the North Central Point interim zoned area. Exclusive farm zoning also will be discussed.

Nationals Win All-Star Game By 3-1 Margin

Washington–(UPI)–The National League, with Maury Wills' flying feet sparkling the attack and four pitchers allowing only three hits, beat the American League, 3 to 1, today in the major league All-Star game at the new District of Columbia stadium.

Victory before a capacity crowd of 45,480, including President Kennedy, at the new $24-million stadium left the Nationals only one win short of tying the all-time series between the two leagues.

The Americans now have won 16, the Nationals, 15, with one tie.

The Nationals scored two runs in the sixth inning and one in the eighth. The speed of Wills, Los Angeles Dodgers shortstop, was a major factor in both rallies.

The American leaguers were held to a single run in the sixth inning as they collected their total of only four hits off pitchers Don Drysdale, Juan Marichal, Bob Purkey and Bob Shaw.

After five scoreless innings it was Stan (The Man) Musial, picked for the All-Star game for the 22nd time, who touched off the first N.L. rally with a pinch-hit single. Wills ran for him and stole second and the Nationls were on their way to victory.

In the eighth inning Wills singled. On Jim Davenport's single Wills raced to second and made a wide turn. When outfielder Rocky Colavito threw behind him to second, Wills daringly sped to third and made it with a slide. He raced home to score as Felipe Alou fouled out on a ball caught by right fielder Leon Wagner.

A fly by Yankee Roger Maris drove in the A.L.'s only run in the sixth, but Willie May's brilliant catch on this ball prevented a big rally.

Assistant County Planner Starts On Ashland Plan

Robert Buchanan, assistant county planner recently assigned to Jackson county by the University of Oregon, started work this week.

Buchanan will work in Ashland to develop a planning project there at first, according to George Brenner, director of county planning, also assigned to Jackson county by the University of Oregon.

The two men will concentrate on the Bear Creek urban project and the Ashland project during the next 18 months, they explained.

Included In Project

The Ashland project will consist of planning for parking, recreation areas and major streets, plus design recommendations, Brenner said.

Before any detailed planning can be done for the Bear creek valley, population estimates and economic base studies must be made, the planning director said. This will establish growth potential for the area and reason for growth.

"We hope to tie into the state's highway program in another year," Brenner said.

The two men are working under the 2701 program for which federal matching funds are made available to the county. The various municipalities involved also contribute.

Teen-Ager Forces Youth to Set Fire

A 16-year-old Medford boy was lodged in juvenile detention home last night after he admitted to city police he had forced a younger boy to set a grass fire so he could put it out.

According to city police, the older boy showed his 10-year-old companion a badge and told him he was a member of a "junior firemen's organization." He said he received "credit points" for putting out fires.

Officers said the youth also admitted he threatened to beat up the 10-year-old if he didn't start the fire.

The younger boy did set a small grass fire – in the vicinity of Clark st. near the railroad tracks – and then he ran home and told his father, who called police.

Apparently the 16-year-old put out the blaze. The city fire department was not called to the scene, Fire Chief Gordon Barker said.

PERMIT ISSUED

Salem – (UPI) – The Oregon Land Board today gave Superior Oil Co., Denver, Colo. a permit to explore Oregon's 600,000 acre tidelands for oil.

WEATHER

FORECAST: Mostly fair through Wednesday with some high cloudiness at times. Chance of afternoon thunderstorms over the mountains south and east. Low tonight 56, high tomorrow 85 to 98.

	Temp.
Highest Yesterday	93
Lowest This Morning	58

Our Skies Tonight

Sunset today	7:49 p.m.
Sunrise tomorrow	4:44 a.m.
Moonset tomorrow	12:41 a.m.
Full Moon	July 17

Tonight Venus is passing to the east of Uranus, a telescopic planet now about 1,780,000,000 miles from the Earth. The star seen near them is Regulus.

Ashlander, Dog Receive Check

Mrs. Wyatt Rosborough and her dog, Princess, 1224 Iowa st., Ashland, were presented a $10,000 check at a noon luncheon at the Medford hotel today.

Mrs. Rosborough was the first prize winner in the national Purina Dog Chow "Lucky Paw Sweepstakes," sponsored by Ralston Purina company.

Don Kauffman, member of the Edwards-Kauffman company, Portland, brokers for Ralston products, presented the check to Mrs. Rosborough.

Princess is a purebred Collie dog, owned by Mr. and Mrs. Rosborough since she was a puppy.

In order to win the contest Mrs. Rosborough submitted a label from a Purina Dog Chow package and a form on which there was an imprint of Princess' paw.

Rosborough is employed in the circulation department of the Medford Mail Tribune.

Happy Camp Resident Arrested for Assault

Happy Camp – A 47-year-old Happy Camp man has been arrested on a charge of assault with intent to do bodily harm in connection with the beating of his wife.

Arrested following the Saturday night incident was Woodrow Helphrey. His wife was taken to Siskiyou County hospital where she is being treated for traumatic injuries. The Helphreys moved to Happy Camp recently from Jacksonville.

Pet Alligator Loose In City; Owner Says Could Inflict Bite

There's an alligator loose in Medford!

No need to get too alarmed, however. It's only a baby one: 2½ months old and seven inches long.

Its owner, Hubert Dale Brown, 716 Pine st., isn't sure how it got out of its pen – a sunken washtub in Brown's back yard – but when he returned home yesterday about 5 p.m., the family pet was gone.

Brown called city police to report the reptile's disappearance.

Though it's only a baoy, the alligator has teeth, Brown said, and could possibly inflict a serious bite.

LAST OF THE ARMORY—Wrecking crews this week knocked down the last section of the former National Guard Armory on Bartlett st. between Jackson and Third sts. The property is owned by Otto Frohnmayer. The armory was extensively damaged by fire in September, 1951, and the remaining structure was demolished to eliminate a potential "eyesore" from Interstate 5 freeway, which is visible from the site. (Knackstedt Photo)

Iron Workers, Contractors In Meeting With Mediators

Portland–(UPI)–Federal mediators met with striking iron workers and contractors at Seattle today, in the wake of a contractors' blast against a proposed governors' fact-finding committee.

At San Francisco, regional director Arthur Viat of the federal mediation service said a three-man federal mediating panel at Seattle was "trying to find a basis to get the people together."

He said today's talks concerned Washington state.

"Union men from Portland are there — observing, you might say—but the Portland contractors aren't," Viat said.

Viat said the panel was meeting "in joint conference with both sides."

At Seattle, panel member Ray Lewis said only that the meeting was under way "and that's all I can tell you today."

The session followed a blast issued here Monday by the Employers' Negotiating Committee, which said a fact-finding committee "undoubtedly would yield an abundance of words but no work. We are interested only in settlement, not study."

"Such a committee could not possibly uncover any facts which have not been made available. The facts are very clear—the iron workers' demands are excessive to the point of being ridiculous."

Committee Proposed

Gov. Mark Hatfield of Oregon and Albert Rosellini of Washington had proposed setting up the fact-finding committee, and officials of the union agreed Saturday.

The employers repeated their stand that the dispute should be taken to the Joint Appeals Board for arbitration, a step which the union has refused to accept.

Portland Local 29 of the International Association of Bridge, Structural and Ornamental Iron Workers has been out on strike since May 28.

Parks, Recreation Commission Favors Hyatt Improvements

The Jackson county parks and recreation commission last night informally agreed that the county should provide some improvements at Hyatt lake.

However, the commission made no formal recommendation. Formal action by the county court would mean signing two leases for the areas involved, one with the bureau of land management and the other with the bureau of reclamation.

This does not include a concession at the Keene creek end of the lake leased out by the Talent Irrigation district, nor the concession which Mr. and Mrs. John Bowman operate on their own land near the same end of the lake. The commission agreed last night that the county should not put in another concession.

Commissioner J. F. Eberhart, Ashland, recommended that temporary facilities and improvements include toilets, drinking water, road oiling and setting speed limit signs. Money might be used from the county's emergency fund, commissioners noted.

Hyatt lake will have a fairly constant water level and will be drawn down only during exceptionally dry years, Eberhart said.

Some snags around the lake perimeter should be removed, but others are not the eyesore they appear to be once a person gets out onto the lake, County Parks and Recreation Director Neil Ledward said.

In other business, the commission deferred action on a proposed senior citizens' recreation area at Howard Prairie lake until its next meeting, decided to investigate possibility of establishing a horse and pack train station at Howard Prairie, discussed future system of charging for a fireworks display at Emigrant Lake by the Ashland Jaycees or another group, and recommended to the county court it purchase 8 acres on Wagner creek from the BLM as a recreation area at $5 an acre.

PLEADS GUILTY

Newport –(UPI)–A 53-year-old South Beach man, Carl Edward Lynn, pleaded guilty here in circuit court Monday to a charge of manslaughter. Lynn was accused of the Feb. 2 death of Louven Fred Dundas, 66, South Beach.

Six Deputies Now Training for Duty

Six new sheriff's deputies are undergoing basic training, Sheriff Paul Bettiol has announced.

One of the new deputies will fill the vacancy left when Buford Johnson was shifted to county civil defense coordinator and another will fill the position left by a resignation two months ago. Three deputies were hired for the jail and one for the tax department as provided under the new current fiscal year budget.

The new deputies are Richard Lee Allen, 607 Chestnut st., Medford; Richard R. Garrett, 132 Vancouver st., Medford; Clinton S. Ingle, 320 Bush st., Central Point; Gerald E. Randles, 280 Garfield st., Ashland; Rayman Twitchell, route 1, box 17, Talent; and Jack L. Wheeler, 3570 Calhoun rd., Medford.

Charges Are Filed In Assault Case

Happy Camp – Sheriff's deputies arrested Joe Logue, 29, of Happy Camp, Monday afternoon following an incident at a local bar in which a woman was stabbed 21 times.

A complaint has been filed against Logue charging him with assault with intent to commit murder in connection with the knifing of Trella Munson, who lives south of Happy Camp. The incident occurred at Pence's Bar in Happy Camp Monday about 4 p.m.

Miss Munson was attended by a doctor, but was not hospitalized.

Make-Up Clinic Set on Wednesday

Anyone who has not yet received type one Sabin oral polio vaccine may do so at a makeup clinic in the health department of the Jackson county courthouse Wednesday. The clinic will be open from 8 a.m. to 5:30 p.m.

Those who did not receive type one vaccine at the county-wide clinics in May, or who have since that time decided to start the three-dose Sabin vaccination program, are urged to visit the makeup clinic Wednesday.

Type two vaccine will be offered at a makeup clinic next month and type three will be given throughout the county in September.

Coupons enabling the purchaser to obtain the three doses will be available at the clinic for $1, or $5 for a family of five or more members. Persons unable to pay for the coupons will be given them without charge.

Christmas Island Test Said Imminent

Honolulu – (UPI) – Officials of U.S. Task Force 8, basking in the rosy glow of their record 400-mile high hydrogen blast over Johnston Island, indicated today that another detonation in the current Pacific test series is imminent at Christmas Island.

Yeggs Crack Vault, Take $3,000 From Fossil Bank

Fossil, Ore. – (UPI) – Robbers broke into the First National bank here, cut open the vault with a torch, and fled early today with an estimated $3,000 in coins.

A bank officer in Portland said it was the first time in the system's 97-year history that robbers had successfully used a cutting torch to gain entry to the vault.

The robbers, however, were unable to get inside a bullet safe holding the paper currency.

FBI agents from Portland and Pendleton, and Wheeler county police were investigating.

Bank officials said that the break-in occurred some time between 9:45 p.m. Monday and 7:30 a.m. today when the janitor arrived at the bank.

Gain Entrance

Marks on the floor of the lobby showed that the torch was dragged across the lobby to the vault after it was used to gain entrance to the building.

The burglars cut a hole in the vault, knocked off the locking bar and smashed the coin locker and took the coins except nickels and pennies.

Other files were also ransacked, police said.

'K' Suggests NATO, Warsaw Pact Troops in West Berlin

Moscow–(UPI)–Soviet Premier Nikita Khrushchev called today for replacement of Western Allied garrisons in West Berlin with a six-nation force of NATO and Warsaw Pact troops. He said nothing about removing Soviet troops from East Berlin.

In a long speech before the Communist-sponsored so-called "World Congress for General Disarmament and Peace," Khrushchev proposed establishment of a force under United Nations command of Norwegian, Danish, Belgian, Dutch, Polish and Czechoslovakian troops. The first four are members of NATO, the latter two members of the Soviet-run Warsaw Pact.

The Berlin proposal was something of a surprise, although his address in the Kremlin Palace of Congresses had been expected to touch major issues of the East-West cold war.

Cites War Danger

Khrushchev also told the 2,000 delegates that the danger of a sudden incident setting off World War III was genuine. He said all "mankind may be drawn into it if determined measures are not taken."

His disarmament proposals represented nothing new. But his call on Berlin was seen immediately by informed observers as an apparent shift in the Soviet position.

Previously, the Communists have called for replacement of the Big Three Western garrisons by United Nations or neutral troops.

"The success of the efforts of unifying all the peoples and all who want to live and build against the threat of a new world war, depends largely on the peace fighters," Khrushchev told the gathering in the Kremlin Palace of Congresses.

Khrushchev spoke after the 2,000 delegates had heard a morning of almost continuous praise for Soviet policy and condemnation of American deeds—particularly Monday's American high altitude nuclear test over the Pacific.

He told the delegates that the arms race is the "moral issue of our time," and said they were holding the "most representative conference for peace." He attacked what he called the "sinister forces of aggression and evil" leading the arms race.

He told Congress that the "amount of nuclear weapons now is at the critical point."

"We have an expression that 'the guns will start speaking of their own accord'," he said. "In this nuclear age, let me say that rockets with thermonuclear warheads will start flying of their own accord."

Khrushchev accused the NATO countries of spending millions of dollars every 10 minutes and claimed that the United States ranked first in its scale of war preparations. He mentioned a figure of $900 billion for U. S. military expenditures, but gave no details. He said the NATO countries were following the "same disastrous road," and claimed the world in general was spending $120 billion on armaments.

Washington–(UPI)–The United States today publicly rejected Soviet Premier Nikita Khrushchev's proposal to replace United States, British and French garrisons in West Berlin with contingents from small NATO and Warsaw Pact countries.

At the same time, the State Department charged the Russian leader with "hypocrisy" for criticizing Monday's high altitude U.S. nuclear blast in the Pacific. It said the responsibility for resumption of the nuclear arms race rested on the Soviet Union.

Algerial Premier Bids for Public Support of Regime

Algiers – (UPI) – Premier Ben Youssef Ben Khedda made a strong bid at home for public support of his regime today and in Morocco his emissaries sought reconciliation with dissident Vice Premier Mohammed Ben Bella.

Ben Khedda told a Municipal stadium rally here Monday night that his moderate, pro-Western government is the "only authority in Algeria" and "all Algerians ought to recognize it."

Morocco's King Hassan II, who aided the Algerian nationalists in their seven-year war against France, appeared to be the best hope of bringing the two feuding factions together.

Ben Bella is in the Moroccan capital of Rabat and this would give him an opportunity to talk with Hassan today.

Ben Khedda's information minister, M'hamid Yazid, and minister of state, Ribah Bitat, were dispatched to Rabat Sunday to see if there was any ground for reconciliation with Ben Bella.

There was no report on the progress of their talks but informed sources said Ben Khedda's emissaries were equipped with concrete offers.

They said Ben Khedda appeared ready to reinstate the dismissed general staff of the National Liberation Army (ALN) – supportes of Ben Bella – and to appoint Ben Bella to a committee that would oversee selection of candidates for the forthcoming constituent assembly.

There was no indication whether Ben Khedda also was ready to go along with the fiery Ben Bella's demand for rapid nationalization of Algeria's production and redistribution of land.

NEWS BRIEFS
ITEMS FROM AROUND THE GLOBE

TAX CUT SYMPATHY NOTED

Washington–(UPI)–Senate Democratic Whip Hubert H. Humphrey said today the Kennedy administration is "more sympathetic than ever" to the idea of an immediate tax cut but wants to defer a final decision for about another month.

FRANCO TO NAME ASSISTANT

Madrid–(UPI)–Generalissimo Francisco Franco, for the first time in his 25 years as head of the government of Spain, has decided to name a second in command, official sources said today.

In a reshuffling of his cabinet, Franco has created the new post of vice president of the Council of Ministers, according to the sources who said the appointment would be announced officially Wednesday.

BRAZIL'S POLITICAL CRISIS SOLVED

Brasilia–(UPI)–Congress put an apparent end to Brazil's [illegible]

Phoenix Firemen Put Out Two Blazes

Phoenix–Two fires in the brush near the Associated Fruit company in Phoenix were extinguished by Phoenix volunteer firemen last night.

The fires, which were some distance apart, spread to nearby trees, igniting some limbs before being brought under control.

Origin of the fires is not known.

Phoenix police turned in the original alarm. The Talent rural fire department provided assistance.
