

Try and Stop Me

By BENNETT CERF

A BLONDE BOMBHELL, whose name you would recognize, was signed to the highly sexed heroine in the screen version of an explosive best seller. The bombshell's agent exulted, "This should be a new high in your career. Do you know that the studio paid \$300,000 for this novel?" "Holy cow," exclaimed the bombshell. "Why didn't they borrow it from the library?"

In his journal, Henry David Thoreau, author of "Walden," lamented that one of his own favorite books, "A Week on the Concord and Merrimack Rivers" (now generally accepted as an American classic) was published in 1849, when the entire country wanted to read about nothing but the gold rush in California. Who wanted a book about familiar old New England at a time like that?

"The edition was limited to a thousand copies," wrote Thoreau sadly, "and eventually I had to buy most of these myself—I have now a library of nearly nine hundred volumes, over seven hundred of which I wrote myself."

Home from Coney Island, a ten-year-old sprout came down with a terrible stomach-ache. The experienced father told the doctor, "Probably 40 or 50 of the things he ate didn't agree with him."

Tony Randall maintains that those stretch pants so many young ladies are sporting these days come in three sizes: small, medium, and don't bend over.

UO Research, Training Grants At Record High, \$3,632,628

Eugene—Research and training grants to the University of Oregon reached a record \$3,632,628 during the 1961-62 fiscal year, the University business office has reported.

This is an increase of \$888,940, or 32 per cent, over the previous record figure of \$2,743,688 set in the 1960-61 fiscal year.

Research grants during the fiscal year ending July 1 totaled \$2,472,234, and grants for teaching, training and other purposes totaled \$1,160,394.

Largest Amount

The National Science Foundation awarded the largest amount for research, totaling \$1,011,450. The Public Health Service awarded \$470,118, and other branches of the Department of Health, Education and Welfare awarded \$80,520.

Private foundations awarded a total of \$189,177. Other awards for research, including awards from the armed services, totaled \$720,969.

During the 1960-62 biennium research and training grants received by the University totaled \$6,376,316, compared to \$4,315,402 the previous biennium, an increase of more than \$2 million.

At the end of the fiscal year there were 146 research and training projects going on at the University, utilizing authorized funds totaling \$4,433,277. Some of the projects are authorized over a period

of years and include funds awarded in previous years.

This compares to 90 research and training projects going on last Sept. 15, utilizing authorized funds totaling \$3,438,294.

146 Projects

The 146 projects now under way include 114 research projects utilizing authorized funds totaling \$3,223,840, and 32 training and teaching projects utilizing authorized funds totaling \$1,209,437.

The \$3.6 million received during the last fiscal year included six grants of \$100,000 or more.

Dr. Francis J. Reithel, professor and head of the chemistry department, received a \$100,000 three-year grant from the NSF to further his research into the separation and measurement of the subunits of large molecules. His discovery of a method of separation of these subunits was announced in a paper he delivered during the Fifth International Congress on Biochemistry in Moscow.

The Carnegie Corporation of New York awarded a three-year, \$150,000 grant to the University's Institute of International Studies and Overseas Administration to further its

research and training programs in South America and the Philippines.

The U. S. Office of Education awarded a grant of \$165,000 for a National Defense Graduate Fellowship program to be administered by department heads under the direction of the graduate school.

Molecular Structure
Dr. Sidney A. Bernhard, a new research associate in the Institute of Molecular Biology, was awarded a \$115,000 three-year grant by the NSF for his studies of molecular structure and function. A grant of \$134,096 was awarded by the U. S. Office

of Education to the University's department of foreign languages to conduct a second-level French Institute for 80 high school teachers in France.

The NSF awarded a five-year \$224,700 grant to Dr. Homer G. Barnett, professor of anthropology, for a study of displaced communities in the Pacific. This is the largest single grant ever awarded by the NSF to a social scientist.

Other research awards ranged from a grant to synthesize a material that destroys cancer cells to grants for the study of children's behavior.

Lunch Program In Schools Receives 4,000 Tons of Food

Salem—The state department of education, through its school lunch program, distributed 274 train-car loads of foods to local schools in Oregon during the past school year.

According to Dr. Leon P. Minear, state superintendent of public instruction, this represented more than 4,000 tons of food which had a wholesale value of nearly 2½ million dollars.

The tonnage, distributed to cafeterias in 950 elementary and secondary schools in Oregon, involved 29 types of food, which included frozen meats, cereal products, canned fruits and vegetables, raisins, and fresh cranberries.

School lunch and school milk programs are operated without profit and are kept within the financial reach of the majority of children because of federal reimbursement administered by the department of education, explained Dr. Minear. Elementary children pay only 25 cents a meal and high school students pay a few cents more.

Each school receives from three to four cents in cash, plus donated foods which have a value of seven to eight cents per meal.

Utility Tax Ratios Okayed in Counties

Salem—While meeting as a board of equalization and review, the state tax commission has approved locally-posted ratios for Oregon's 36 counties for the 1962-63 tax year.

The 1962-63 posted ratios and assigned utility ratios for both Jackson and Josephine counties remain at 25 per cent, the 1961 ratio.

Completion of reappraisal in Lincoln and Union counties resulted in the 25 per cent ratio being posted in both these counties. Three counties, Multnomah, Baker and Umatilla, may legally post ratios other than 25 per cent. The latter two counties are undergoing reappraisal and will be required to use the 25 per cent ratio when reappraisal is completed for the 1963 assessment year.

The commission noted that five counties were nearing the maximum allowable deviation of plus or minus 10 per cent from the 25 per cent ratio level. Letters have been sent to the assessors, boards of equalization, and county courts of these counties advising them of the necessity of correcting this situation during the coming year.

The same ratios used for locally assessed property were again assigned for use in determining the assessments of centrally-assessed utility property.

Gold Hill Student Makes Dean's List

Gold Hill—Larry Ridge, son of Mr. and Mrs. Ray Ridge, Gold Hill, is one of 139 students at New Mexico State University, University Park, N.M., to be named to the dean's honor list in the college of engineering for the spring semester.

Ridge is a junior in electrical engineering at the university.

To be eligible for the dean's list the student must be enrolled in at least 12 credit hours and maintain an average of 3.2 grade points out of a possible 4.0.

Grange News

Gold Hill Grange
Gold Hill Grange met in regular session July 5 with Master Wilbur Martin presiding.

Agriculture Committee
Chairman Charles Foote reported livestock prices holding up well, grain coming in and pastures drying. Legislative Committee, Chairman a n Fed Jones reported the King-Anderson medical bill still before congress.

Community Service Committee
will have credit for lending our hall for youth programs and for 4-H scholarships, it was stated. Lorie Thomas is going to 4-H summer camp. A short progress report on the Rogue River Basin Flood Control and Water Resources association was given by A. A. Walker.

Youth committee reported on the party for teen-agers held in the Grange hall on June 22 and a meeting of the committee on July 9 to discuss the matter of further parties. Home economics committee report was heard.

Master Martin reported briefly on the state Grange meeting at Grants Pass at which the state Grange masters from Michigan and Idaho were present. There will be a complete audit of state Grange books for 1962. State Grange will convene next year in Clackamas county and the national Grange meeting will be held in Portland next year. Mr. Martin reported 351 candidates for the 6th degree at State Grange.

Use of the Grange hall was granted to Rogue River Basin Flood Control and Water Resources association for a meeting; the exact date to be announced.

Lecturer Willie McLean put on a short stunt program and a literary quiz program. She announced that our Booster night will be Oct. 25.

Floyd Taylor, S. M. Christensen and Charles Foote were appointed as a committee to investigate the feasibility of building a sidewalk along the east side of the Grange hall in order to prevent water seeping into the basement and which will accommodate persons parking their cars at the rear of the building.

Sunday, July 22, will be the 50th wedding anniversary of Mr. and Mrs. A. A. Walker. All Grangers are invited to attend open house at the Walker home by the children of the couple.

Upper Rogue Grange
At the last meeting of the Upper Rogue Grange, Mr. and Mrs. Roy Vaughn, delegates to the Oregon State Grange, session gave their reports of the proceedings.

George Moore, agriculture committee chairman, reported on the local stock sales and said that the hay crop in the valley is the best in years, that large quantities of Talent alfalfa seed was being sold to Greece, and read a report on Grecian life.

Legislative Chairman Harold Barber spoke on the defeat of the farm bill, the compromise expected on the medicare bill, and stated that the initiative providing for standard time did not receive enough signatures and therefore would not appear on the November ballot.

The Jackson County Grange Council will meet at Upper Rogue Grange hall Saturday, July 14, at 8 p.m. The next Grange meeting will be a social night Thursday, July 19, at 8 p.m. Members are asked to take a sack lunch.

Central Point Grange
Central Point Grange members attending the recent regular meeting participated in a round of quiz questions during the lecturer's hour. Under the direction of the lecturer, Mrs. James Cornutt, members were divided into two teams, under the leadership of Mr. and Mrs. Marshall Weidman.

Standing committee chairmen reporting were Arnold Bohnert, agriculture; Edwin Gebhardt, horticulture; John Neidermeyer, and Benton Boyce, on legislation.

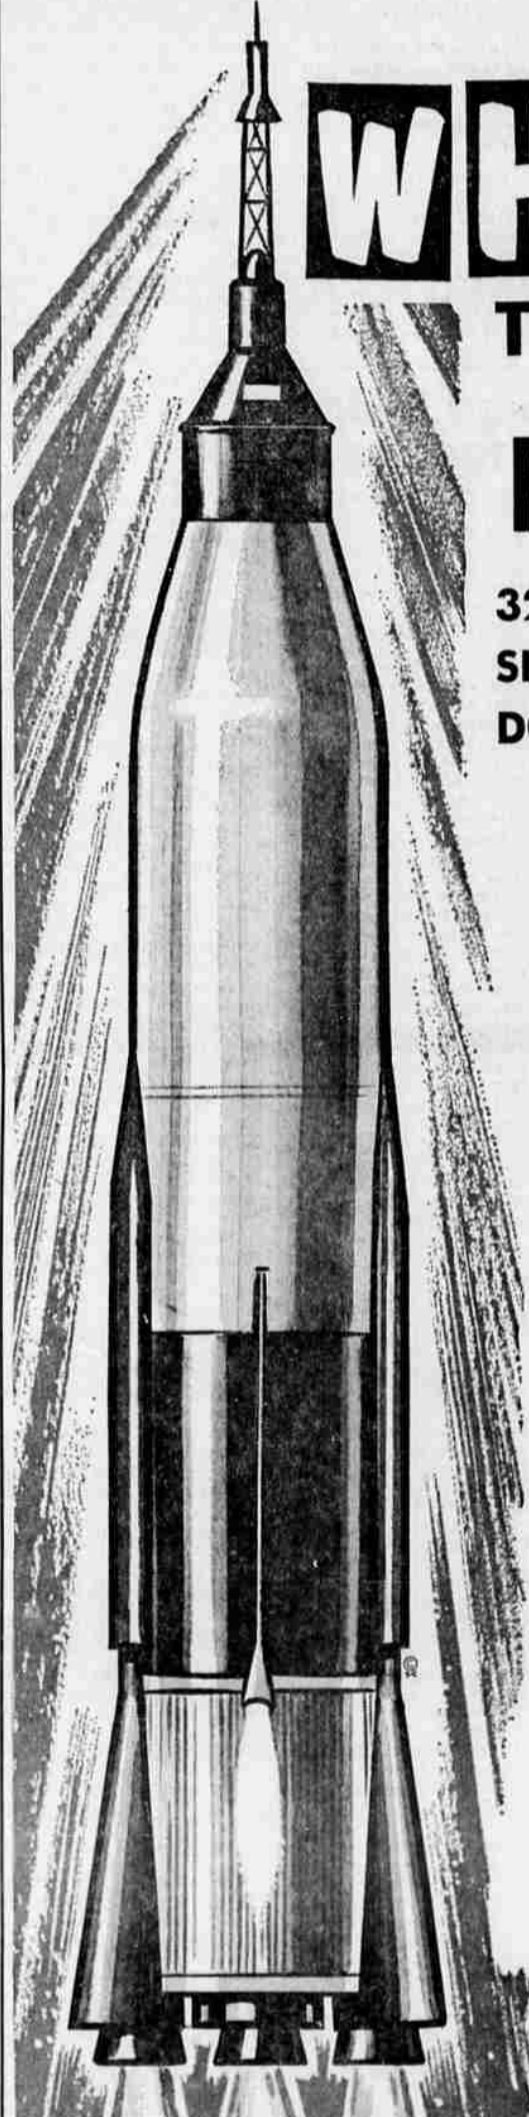

The HEC chairman, Mrs. Morris Frink, thanked all who assisted with the pancake breakfast and the Bloodmobile. Both events were well attended. The HEC picnic will be July 25 at 6:30 p.m. at the home of Mr. and Mrs. Walter Ricks on Beall lane.

Mrs. Edwin Gebhardt exhibited plastic handicraft articles.

Illinois Valley—Ed Oliver gave a talk on civil defense at the last meeting of the Illinois Valley Grange Home Economics club. It was held July 2 at the home of Mrs. Mabel Ramsey.

Plans were made to enter a float in the Jubilee parade on Labor day. The group decided to cancel its August meeting.

A style show and cake walk are planned as future events by the club.
